

## Skrouz Analytics for Magento 2 Configuration

You just need to copy/paste:

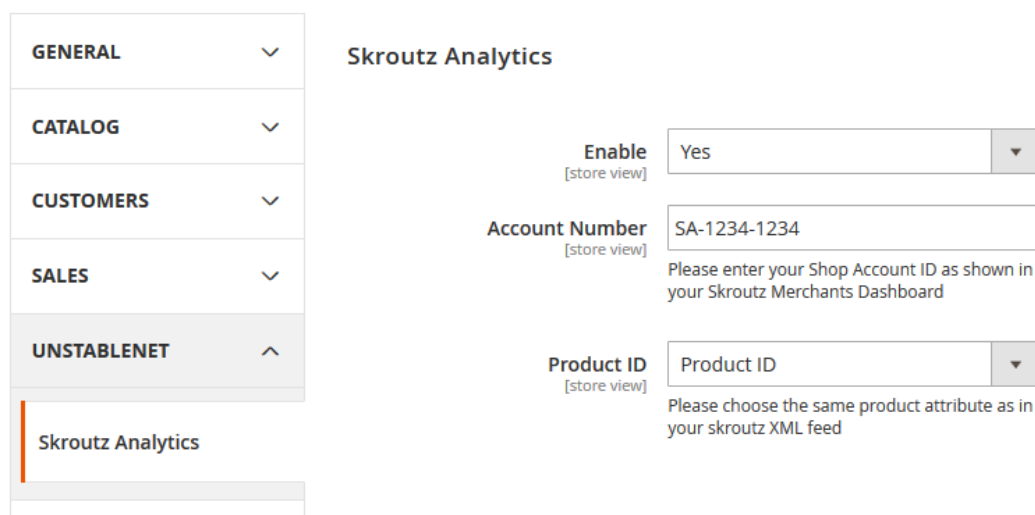

Shop Account ID from merchant Skrouz Analytics page

The screenshot shows the Skrouz Analytics merchant dashboard. On the left is a dark sidebar with navigation options. The main content area is titled "Skrouz Analytics" and contains several sections:

- Κατάσταση Skrouz Analytics**: A summary box showing "Υπηρεσία: Ενεργή" (Service: Active) and "Κατάσταση: Λαμβάνουμε" (Status: Receiving). Below this, it states: "Η υπηρεσία Skrouz Analytics είναι ενεργή για το κατάστημά σας." and "Λαμβάνουμε δεδομένα από το κατάστημά σας κανονικά."
- Shop Account ID**: A section where the Shop Account ID is displayed as "SA-1234-1234". Below it, a note says: "Μπορείτε να δείτε περισσότερες λεπτομέρειες για την υπηρεσία ή τις οδηγίες για την ενσωμάτωσή της στο ηλεκτρονικό σας κατάστημα."
- Αποδοτικότερες πωλήσεις**: A section explaining that the service provides a series of useful metrics to track store performance and product sales.
- Βελτιστοποίηση του καταλόγου προϊόντων**: A section explaining that metrics at category and product levels help identify the store's profile and optimize the catalog.
- Δεδομένα σε (σχεδόν) πραγματικό χρόνο**: A section explaining that metrics are updated hourly and products are tracked in real-time.

Magento Admin -> Stores -> Configuration -> Unstabenet -> Skrouz Analytics > Account Number

The screenshot shows the Magento Admin configuration page for Skrouz Analytics. The left sidebar has a menu with "UNSTABENET" expanded and "Skrouz Analytics" selected. The main content area is titled "Skrouz Analytics" and contains the following configuration options:

- Enable** [store view]: A dropdown menu set to "Yes".
- Account Number** [store view]: A text input field containing "SA-1234-1234". Below it, a note says: "Please enter your Shop Account ID as shown in your Skrouz Merchants Dashboard".
- Product ID** [store view]: A dropdown menu set to "Product ID". Below it, a note says: "Please choose the same product attribute as in your skrouz XML feed".
