

## Extension Installation and Configuration

1. Log into admin panel and go to **System->Magento Connect->Magento Connect Manager**, you will get the next page

The screenshot shows the Magento Connect Manager interface. At the top, there is a header with the logo and the word 'MANAGER'. Below the header, there are tabs for 'Extensions' and 'Settings', and links for 'Return to Admin' and 'Log Out'. The main content area is divided into several sections: 'Settings' with a checkbox for 'Put store on the maintenance mode while installing/upgrading/backup creation' and a 'Create Backup' dropdown menu; 'Install New Extensions' with a search link and a text input field for an extension key; 'Direct package file upload' (highlighted with a red box) with a 'Choose File' button and an 'Upload' button; and 'Manage Existing Extensions' with a 'Check for Upgrades' button.

2. Choose extension package and click upload button. You will get the next result

The screenshot shows the 'Upload package file' section of the Magento Connect Manager interface. The 'Choose File' button has been clicked, and the file 'Uptain\_Connect-1.0.0.tgz' is now selected. The 'Upload' button is visible. Below this, the 'Manage Existing Extensions' section is visible, showing the 'Channel: Magento Community Edition' and a 'Commit Changes' button. A console output window is open, displaying the following text:

```
Package installed:
community Uptain_Connect 1.0.0
cleaning cache
..
Cache cleaned successfully
```

At the bottom of the console output window, there is a green message: 'Procedure completed. Please check the output frame for useful information and refresh the page to see changes.'

3. Go to admin panel again, then please clear cache and re-login.
4. Go to **System->Configuration->Uptain Extensions** tab to configure the extension.

### General

Configurations		
Uptain ID	<input type="text" value="test111"/>	[STORE VIEW]
Transfer only Opt-in customers	<input type="text" value="Yes"/>	[STORE VIEW]
Transfer all customers	<input type="text" value="No"/>	[STORE VIEW]

If you want to change language to Dutch, please select it in the language block in the bottom of the page

[Help Us Keep Magento Healthy - Report All Bugs](#)

Interface Locale:

then you will get translated block

### General

Konfiguration		
Uptain ID	<input type="text" value="test111"/>	[STORE VIEW]
Newsletterabonnenten-Mailadressen übergeben	<input type="text" value="Ja"/>	[STORE VIEW]
Bestandskunden-Mailadressen übergeben	<input type="text" value="Nein"/>	[STORE VIEW]

5. If extension is properly installed and configured, you can see embed script on all pages on the frontend

```

<script type="text/javascript">
  <![CDATA[
    optionalZipCountries = ["HK","IE","MO","PA"];
  </script>
  <script src="https://app.uptain.de/js/uptain.js?x=test111&email=tsareva.as@gmail.com"></script>
  <script type="text/javascript"><![CDATA[
    var Translator = new Translate([]);
  </script>
</head>
<body class=" customer-account-index customer-account" style cz-shortcut-listen="true">

```
