

# Magento2 Japanese Language pack configuration guide

# How to configure

## Access configuration

# How to configure

Choose “General” and change locale on “Locale Options”

The screenshot displays the 'Configuration' interface. On the left is a navigation menu with categories: GENERAL, CATALOG, and CUSTOMERS. Under 'GENERAL', the following options are listed: General, Web, Design, Currency Setup, Store Email Addresses, Contacts, Reports, Content Management, and New Relic Reporting. The 'General' option is selected. The main content area is titled 'Locale Options' and includes the following settings:

- Timezone:** Japan Standard Time (Asia/Tokyo) [WEBSITE]
- Locale:** Japanese (Japan) [STORE VIEW]
- Weight Unit:** lb [STORE VIEW]
- First Day of Week:** Sunday [STORE VIEW]
- Weekend Days:** Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday [STORE VIEW]

A red dashed box highlights the 'Timezone' and 'Locale' fields. A 'Save Config' button is located in the top right corner of the configuration area.

## Change language and save your account

The screenshot shows the user profile page in the Magento admin panel. At the top, there is a 'Password Confirmation' field. Below it, the 'Interface Locale' dropdown menu is highlighted with a red dashed border and shows '日本語 (日本) / Japanese (Japan)' selected. Underneath, there is a section for 'Current User Identity Verification' with a 'Your Password' field. At the bottom left, the copyright notice reads: 'Copyright© 2016 Magento Commerce Inc.
