

Vindi Payment Gateway & Subscriptions

The integration of the Vindi module allows creation and management of plans and subscriptions through Magento in a transparent way.

Requirements

- PHP 5.6.x or higher.
- cURL enabled for PHP.
- Magento Community Edition 1.7 to 1.9.2
- SSL Certificate.
- Active account at [Vindi](#) .

Installation

Currently there are two ways to install the Magento Vindi Module, the most recommended is through [modgit](#) because installing it so it is possible to easily manage the module and its updates. The second way is through a .zip file where you need to insert all the module files into the Magento application directories and all updates will have to be done manually.

- Via [modgit](#)

1. Navigate to the Magento home directory
2. Add module through [modgit](#)

```
modgit add vindi https://github.com/vindi/vindi-magento.git
```

Update

- Via [modgit](#)

1. Navigate to the Magento home directory
2. Run the command below

```
modgit update vindi
```

Via .zip

1. Download [.zip](#) .
2. Extract the contents of the `src` folder in your Magento installation.

Removal

- Via [modgit](#)

1. Navigate to the Magento home directory
2. Run the command below

```
modgit remove vindi
```

Configuration

1. Setting up your Vindi account

- Under *System -> Configuration -> Vindi> Vindi Subscriptions* enter the API key of your Vindi account and save.
 - If the connection succeeds, you will see a *Webhook* configuration link, which must be entered in the URL field inside the [Vindi panel](#) under *Settings -> Webhooks* .
2. Enabling / Configuring Payment Methods
- Under *System -> Configuration -> Sales> Forms of payment* , configure the payment methods **Vindi - Credit Card** , **Vindi - Bank Slip** and / or **Vindi - Debit Card** .
3. Creating recurring products
- In *Catalog> Manage Products* , add a product and choose the *Product Type* as **Vindi Subscriptions** .
 - In the *Vindi* tab select the *Vindi Plan* and associate the signature with a product.
