**Website: <http://www.vnecom.com>**  
**Support: [support@vnecom.com](mailto:support@vnecom.com)**

## I. Installation

Your Custom Order Number extensions for Magento 2 can be installed in a few minutes by going through these following steps

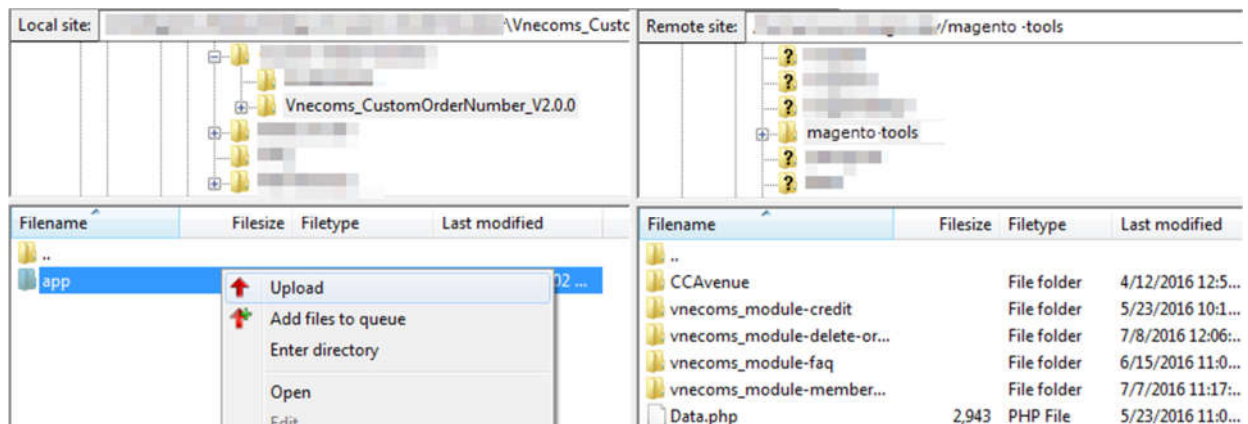

**Step 1:** Download/purchase the Custom Order Number extension

**Step 2:** Unzip the file in a temporary directory

**Step 3:** Upload the **app** folder inside **Vnecoms\_CustomOrderNumber\_V2.0.0** to your Magento installation root directory using a File Transfer Software (Here FileZilla is recommended)

**Step 4:** After the successful installation you have to Enable module Magento 2 Custom Order Number Extension “**php bin/magento module:enable Vnecoms\_CustomOrderNumber**”

```
/magento2$ php bin/magento module:enable Vnecoms_CustomOrderNumber
```

Run this command in Magento 2 root directory

**Step 5:** Upgrade your magento by the following command -“**php bin/magento setup:upgrade**”

```

:~$ cd magento2
~/magento2$ php bin/magento setup:upgrade
  
```

Run this command in  
Magento 2 root  
directory

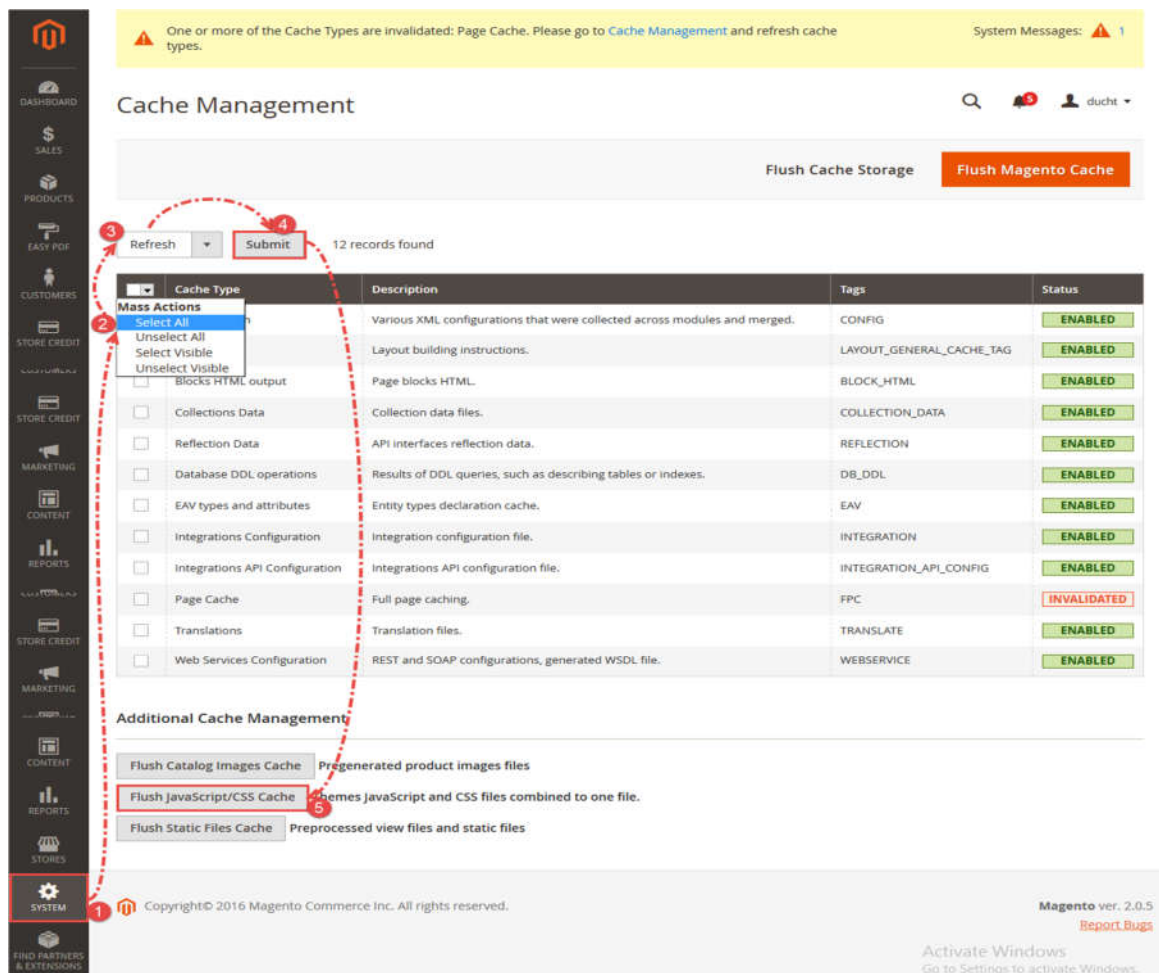

**Step 6:** Giving read write permission to your magento 2 cache directory - “**chmod – R 777 var/cache**”

```

/$ chmod -R 777 /var/cache
  
```

Run this command in Magento 2 root directory

**Step 7:** After running all the command, you have to log into the admin panel and you have to flush the Magento Cache and Java Script/Css Cache. You can refer to the below screenshot.
