The screenshot shows the Magento Admin Panel Configuration page for the 'Auto Invoice and Shipment' module. The page is titled 'Configuration' and has a search icon, a notification bell with '3' alerts, and a user profile 'yogesh'. The 'Scope' is set to 'Default Config'. A 'Save Config' button is visible in the top right. The left sidebar shows the 'WEBIATORS' section expanded, with 'Auto Invoice and Shipment' selected. The main content area is titled 'General Configuration' and contains two sections: 'Module Enable' and 'Select Payment Methods'. The 'Module Enable' section has a dropdown menu set to 'No', with a red arrow pointing to it and the text 'Enable or Disable Module from here'. The 'Select Payment Methods' section has a list of options: 'No Payment Information Required', 'Check / Money order', and 'PayPal Billing Agreement'. At the bottom right, there is a watermark for 'Activate Windows'.

1. In **Select Payment Methods**, select one or multiple payment methods to apply auto invoice/shipment generation.

2. In **Enable automatic invoice generation**, choose Yes to generate invoice automatically after orders are completed.

3. In **send Email for invoice**, choose Yes to send invoice email automatically after orders are completed.

4. In **Enable automatic shipment generation**, choose Yes to generate shipment automatically after orders are completed.

The screenshot shows a settings interface with the following elements:

- Select Payment Methods** [store view]: A list box containing three items: "No Payment Information Required", "Check / Money order", and "PayPal Billing Agreement". The "Check / Money order" item is highlighted.
- Enable Automatic Invoice Generation** [store view]: A dropdown menu currently set to "No".
- Send Email For Invoice** [store view]: A dropdown menu currently set to "No". Below it is the text "Send notify email after invoice created automatically".
- Enable Automatic Shipment Generation** [store view]: A dropdown menu currently set to "No".
