

Accordion FAQ

webkul.com/blog/magento2-accordion-faq/

July 25, 2016

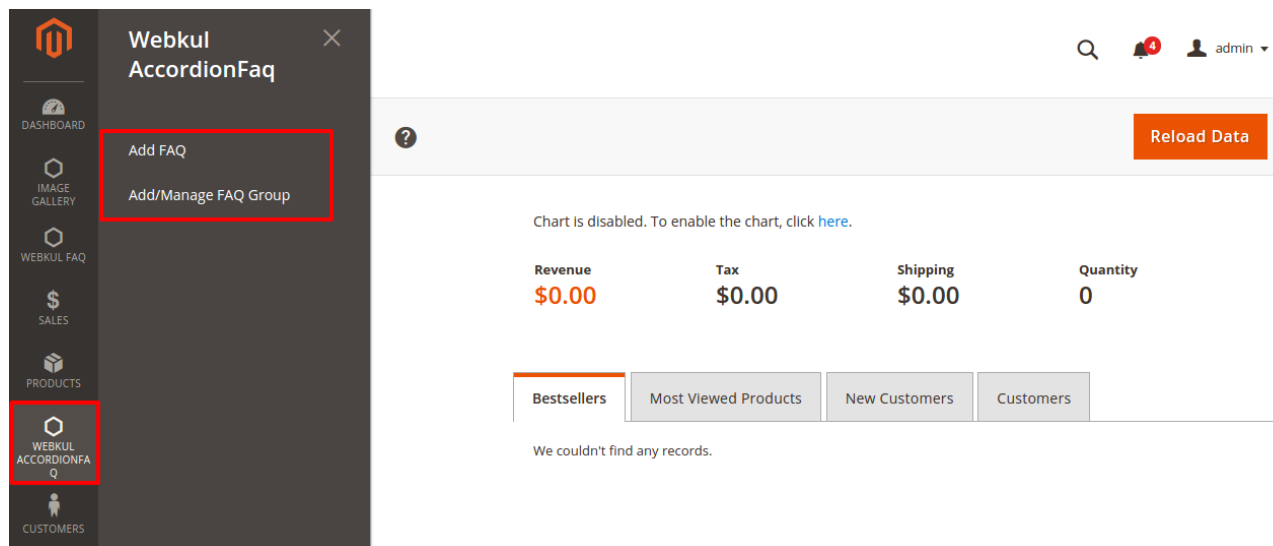

Accordion FAQ is an awesome module. This module adds an easy way to use FAQ Section to your Magento store with JQuery powered animation. In this module, admin can add and update FAQ. Admin can also create FAQ group and show the group on the specific pages. On the frontend, you have an animated FAQ section for your store.

Features

- You can add any numbers of FAQ's.
- Animated FAQ.
- Editor for adding FAQ.
- You can create FAQ group.
- Different Group can be published on different pages.
- Multiple groups can be published on one page.

Adding Accordion FAQ – Admin

After installation of the module, admin can see 'Webkul Accordion FAQ' option in the main menu. From here admin can select the option to add FAQ or add/manage FAQ groups.

Now admin can add or edit FAQ by clicking on Add FAQ button. From this page admin can add new FAQ or edit existing one.

The screenshot displays the 'New FAQ' configuration page in the Magento2 admin interface. The page title is 'New FAQ'. At the top right, there are navigation icons for search, notifications (4), and the user 'admin'. Below the title bar, there are three buttons: 'Back', 'Reset', and 'Save FAQ'. Red boxes with arrows point to these buttons with the following annotations: 'Click here to go back to the FAQ list' points to the 'Back' button, 'Click here to reset' points to the 'Reset' button, and 'Click here to save' points to the 'Save FAQ' button. The main form area is titled 'FAQ Information'. It contains a text input field for the 'FAQ *' question, with the text 'Marketplace Mass Upload for Magento2'. A red box with an arrow points to this field with the annotation 'Add question here'. Below the question field is a 'Content *' section with a 'Show / Hide Editor' button. A red box with an arrow points to the content editor area with the annotation 'Add the explanation/answer content here'. The content editor shows a rich text editor with a toolbar and a preview area. The preview area displays a graphic with the text 'WEBKUL CSV Product Detail' and a paragraph of text: 'Marketplace Mass Upload for Magento2 add-on is useful for bulk/mass upload of products. Using this add-on, a seller can upload bulk products using CSV and even the admin can bulk upload into Seller account using the CSV file. This add-on supports four types of products- Simple, Configurable, Virtual & Downloadable. It also displays error message to the seller and admin if there is any error in the CSV file or the ZIP file.' Below the content editor, there are two more fields: 'Sort Order *' with the value '2' and 'Status *' with a dropdown menu set to 'Enabled'. Red boxes with arrows point to these fields with the annotations 'Enter sort order' and 'Enable/Disable the FAQ' respectively. The footer of the page contains the text 'Copyright © 2016 Magento Commerce Inc. All rights reserved.' and 'Magento ver. 2.0.7' with a link to 'Report Bugs'.

Admin can navigate to **Webkul Accordion FAQ-> Add/Manage FAQ group** from the main menu to create a new group. From here admin can create a new group and edit the existing one.

Add/Manage FAQ Group

Click here to add new FAQ group → Add FAQ Group

Now admin can click on 'Add New Page' and enter the details like this.

The screenshot shows the 'Add New Page' form in the Magento 2 Admin Panel. The form includes the following fields and sections:

- Enable Page:** A toggle switch set to 'Yes'.
- Page Title:** A text input field containing 'Accordion FAQ'. A red callout box points to this field with the text 'Enter the page title.'
- Content:** A section with a 'Content Heading' field containing 'Accordion FAQ'. A red callout box points to this field with the text 'Enter the content heading.'
- Show / Hide Editor:** A button to toggle the WYSIWYG editor.
- WYSIWYG Editor:** A rich text editor showing the following code block:

```

      {{block class="Webkul\AccordionFaq\Block\AccordionFaq\AccordionFaq" group_code="yahoofaq" template="Webkul_AccordionFaq::Accordionfaq.phtml"}}
      
```
- Search Engine Optimisation:** A section with a dropdown arrow.
- Page in Websites:** A section with a dropdown arrow.
- Design:** A section with a dropdown arrow.
- Custom Design Update:** A section with a dropdown arrow.
- Footer:** Copyright © 2018 Magento, Inc. All rights reserved. Magento ver. 2.1.7. [Account Activity](#) | [Report Bugs](#)

Now admin needs to add content to show the FAQ group on the page. For this admin need to enter this code :

`{{block class="Webkul\AccordionFaq\Block\AccordionFaq\AccordionFaq" group_code="(Group code)" template="Webkul_AccordionFaq::Accordionfaq.phtml"}}`. This code should be entered in content text area like this.

Note

In the case of block call at CMS page, You will have to write (") in HTML otherwise, if you simply copy these codes on WYSIWYG editor then it will convert the double quote into some ASCII code and you will unable to call block on CMS page.

It will look like this in CMS page.

```

{{block class="Webkul\AccordionFaq\Block\AccordionFaq\AccordionFaq" group_code="group1"
template="Webkul_AccordionFaq::Accordionfaq.phtml"}}

```

Admin can add more than one group on the same page. After that admin can save the page and Accordion FAQ will be visible on the page on which it is saved.

Frontend Workflow Accordion FAQ

After saving the page the Accordion FAQ will be visible on the website like this.

Home > Accordion FAQ

Accordion FAQ

Click on tab to open the FAQ

- ▶ Marketplace Multi Vendor Module for Magento2
- ▶ Marketplace Seller Price Comparison For Magento2
- ▼ Marketplace Mass Upload for Magento2

WEBKUL
CSV Product Detail

Marketplace Mass Upload for Magento2 add-on is useful for bulk/mass upload of products. Using this add-on, a seller can upload bulk products using CSV and even the admin can bulk upload into Seller account using the CSV file. This add-on supports four types of products- Simple, Configurable, Virtual & Downloadable. It also displays error message to the seller and admin if there is any error in the CSV file or the ZIP file.

That's all for the **Accordion FAQ** module still, have any issue feel free to add a ticket and let us know your views to make the module better <http://webkul.uvdesk.com/>
