

Admin Login As Customer Or Vendor

Introduction:

Admin Login As Customer Or Vendor Now, in the **Multivendor Marketplace**, the admin will be able to log in to the **Vendor**.

The **Customer** account panel from the **admin backend** using the Magento 2(Adobe Commerce Cloud) Admin Login As Vendor addon.

Meanwhile, this will allow the admin to have total control over the marketplace.

Also having this functionality will surely be beneficial for the admin of the marketplace.

****Note:**

1. For making use of the **Admin Login As Customer Or Vendor** plugin, you must have first installed the [Multi Vendor Marketplace](#) module.
2. This **addons** functionality will also work with the **default Magento 2**, so the admin will only be able to log in to the customer's account.

Features

Allows the admin to do quick login as a vendor.

Allows the admin to do quick login as a customer.

The admin can view the total number of login attempts.

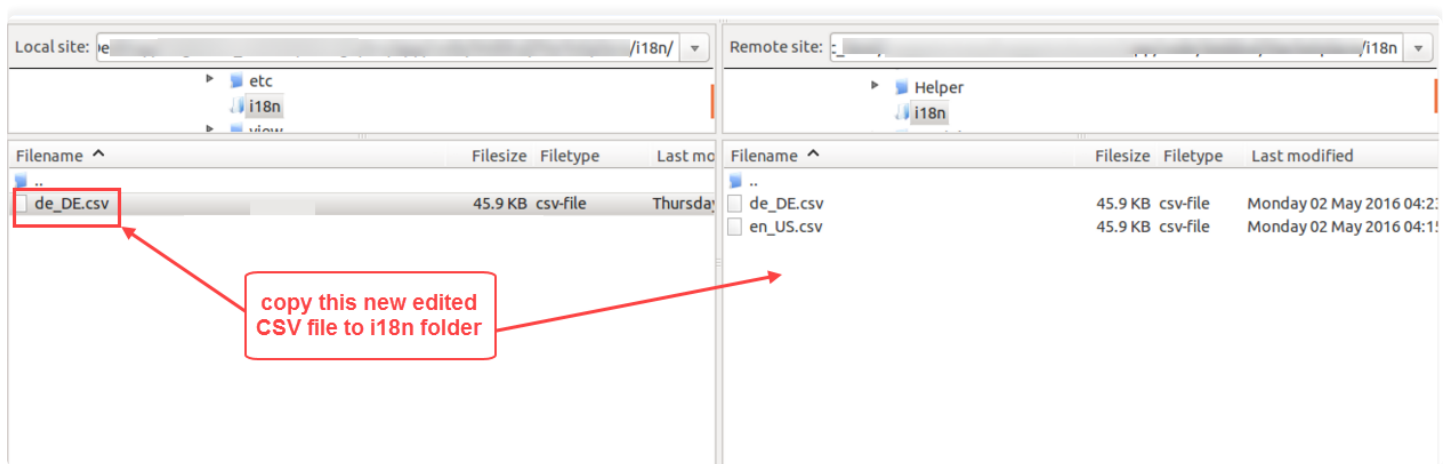

The admin does not need any credentials or passwords to log in.

The admin can log in to the storefront from any seller's or customer's account.

Source code is 100% open for customization.

Supported with Magento version 2.2.x.

After editing the CSV file, save it and then upload it to the same folder. Now your module translation is complete.

Admin Login As Vendor

After the successful installation of the extension, the admin can now easily log in to the vendor account panel by navigating through **Marketplace Management>Manage Seller**.

Marketplace Management				
DASHBOARD	Menu	Marketplace Cash On Delivery Manager	Vendor Registration Manager	Mass Upload Manager
MARKETPLACE MANAGEMENT	Manage Product	Marketplace Cash On Delivery Rates	Vendor Registration Group	Mass Upload Dataflow Profile
