

Advanced Commission Marketplace Add-On

webkul.com/blog/magento-marketplace-advance-commission/

With the help of this module, Admin can set commission for products, categories, and seller categories. Admin can also use commission rule. If any product lies under various categories on which admin has set the commission then, in this case, the highest commission will be applicable on the product.

The module is an add-on for the Marketplace module, so the [Magento Marketplace](#) module must be installed before installing this module.

Features

- Admin can set commission on products.
- Admin can set commission on categories and also seller's category.
- Admin can set commission on products and categories together.
- Admin can decide different commission percentage or fixed for different categories.
- Commission on products will get higher priority.
- Admin can set commission very easily and very fast.
- Admin can add/edit the commission rule.

Configuration

After the successful installation of the Magento Marketplace Advanced Commission module you will be able to see the configuration panel under **System > Configuration > Webkul > Advanced Commission** as per the below screen.

The screenshot displays the Magento Admin Panel configuration interface for the 'Advance Commission' module. The breadcrumb path is 'System > Configuration > Webkul > Advanced Commission'. The 'Advance Commission Options' section includes the following elements:

- Use Commission Rules:** A dropdown menu currently set to 'No'. A callout box instructs: "Select 'Yes' if you want to Use Commission Rule, else select 'No'".
- Commission Type:** A dropdown menu currently set to 'Percentage'. A callout box instructs: "Select commission type Fixed or Percentage."
- Select Categories:** A button to open a category selection window. A callout box instructs: "Click here to set commission on category."
- Save Config:** A button to save the current configuration. A callout box instructs: "Click here to save configuration"

If admin sets Commission rule as No, then he/she has to select the commission type and set the commission on each category. When Admin will select fixed as commission type, then whatever commission is selected will directly go to the admin, and when the percentage is selected as commission type then admin will get set percentage of the product price. When Admin will click on "select categories" button, then open a pop-up window will open Where admin can set commission for each category as per below screen.

Admin can set the commission on each product.

If the commission on a product is not set then commission on the seller category will get priority if both are not set then default category commission will be used.

The admin can set the seller category commission under **Customers->Manage Customers** and select the seller for whom the admin wants to set the commission and then go to **Category Commission** as shown below in the screenshot.

Commission rule grid

ID	Price From	Price To	Amount	Commission Type
1	\$0	\$100	10.0000	Fixed
2	\$101	\$200	15.0000	Percent
3	\$201	\$300	25.0000	Fixed
4	\$301	\$500	7.0000	Percent

Click here to add new rule

Admin can add/edit the Commission rule. Admin has to enter the price range, amount, commission type for commission rule.

The screenshot shows the Magento Admin Panel interface. At the top, there is a navigation bar with the Magento logo and 'Admin Panel' text. Below this is a menu with options: Marketplace Management, Dashboard, Sales, Catalog, Customers, Reports, and System. The main content area is titled 'Commission Rule Information' and contains a sub-section 'Add Rule'. The 'Add Rule' form has a header with 'Add Rule' and a 'Back' button. Below the header, there are four input fields: 'Price From *' (100), 'Price To *' (200), 'Commission Type' (Fixed), and 'Amount *' (25). A 'Save Rule' button is located at the top right of the form. Two red callout boxes are present: one pointing to the input fields with the text 'Enter Price range, commission type, Amount and save it.' and another pointing to the 'Save Rule' button with the text 'Click here to save rule.'

Let's say any customer has bought three products of \$5, \$100, \$195 respectively. The total sale of the seller is \$300 then commission amount will be 25.0 with fixed commission type. If the total sale of any seller is \$150 then commission amount will 22.5 with percentage commission type.

That's all for the base **Advanced Commission Marketplace Add-On** module still have any issue feel free to add a ticket and let us know your views to make the module better at webkul.uvdesk.com
