

# Canada Post Shipping

---

 [webkul.com/blog/magento2-canada-post-shipping/](http://webkul.com/blog/magento2-canada-post-shipping/)

The **Canada Post Shipping** extension will allow the admin to provide Canada Post shipping method for shipping the products. The customers will be able to choose this shipping method at the time of checkout for receiving their products via Canada Post Shipping. This shipping method can be used to receive the shipments within Canada and from Canada to other countries as well.

## \*\*Notes:

1. The estimated delivery time shows for Canada, US, and some other International addresses.
2. The shipping rates are based according to the delivery details and product weight.
3. If the weight of the product is zero, this shipping method will not work.
4. An active Business Purpose Canada Post account is required for getting the API credentials.

## Features

---

- Admin can enable or disable Canada Post Shipping method.
- Admin can set the Canada Post shipping method name that will be shown from the front side.
- Admin can set packages request type.
- The origin for Canada Shipping Method must be always Canada.
- Ability to download Invoice and Shipping Slip easily.
- Provide accurate Canada Post shipping rates to customers for shipping.
- Multiple selections of Canada Post shipping methods displayed on the checkout page.
- This module can be used to ship the products from Canada to Canada, Canada to other countries.

## Admin Configuration

---

After the successful installation of the **Magento2 Canada Post Shipping** module, you will be able to see the configuration panel under **Stores>Configuration>Sales>Shipping Methods>Canada Post Shipping**.

**Checkout**

**Shipping Methods**

**Canada Post Shipping**

**Enabled for Checkout [website]**: Yes  
Select Yes to enable the method for checkout.

**Sandbox Mode [website]**: Yes  
Select Yes to use the testing mode else select No to use the Production mode.

**Title [store view]**: Webkul Canada Post Shipping

**API User ID [website]**

**API Password [website]**

**Agreement Type [website]**: Contract  
Enter the API User ID and the API Password for your account.

**Agreement Number [website]**

**Client Number [website]**

**Delivery Time Offset [website]**: 5  
Select the agreement type as Non-Contract or Contract.

**Show Estimated Delivery Time [website]**: Yes  
Here the admin can set the delivery time offset that will be added to the original estimated delivery time. Example: Here the admin has set the delivery time offset as 5, so this will add 5 days to the original delivery time.

**Rate Type [website]**: Commercial

**Weight Unit [store view]**: Kilograms

**Size [store view]**: Regular

**Use system value**:

**Allowed Methods [website]**

- Expedited Parcel
- Regular Parcel
- Priority
- Xpresspost
- Priority Worldwide envelope USA
- Priority Worldwide pak USA
- Priority Worldwide parcel USA
- Xpresspost USA
- Expedited Parcel USA
- Tracked Packet - US

**Ship to Applicable Countries [website]**: All Allowed Countries

**Ship to Specific Countries [website]**

- Afghanistan
- Åland Islands
- Albania
- Algeria
- American Samoa
- Andorra
- Angola
- Anguilla
- Antarctica
- Antigua & Barbuda

**Displayed Error Message [store view]**: This shipping method is currently unavailable. If you would like to ship using this shipping method, please contact us.  
Enter the error message that will be shown.

**Select the handling fee to be calculated as Fixed or Percentage.**

**Calculate Handling Fee [store view]**: Fixed

**Handling Fee [store view]**: 0  
Enter the handling fee if any.

**Show Method if Not Applicable [store view]**: Yes  
Select No to not show this method if not applicable.

**Debug [website]**: Yes  
Select yes to generate debug log.

To generate the **API User Id**, **Password** and **Client Id** click the link give below—<https://www.canadapost.ca/cptools/apps/drc/home?execution=e1s1>

For proper working of **Magento2 Canada Post Shipping**, you just need to set Canada shipping **origin** address from the path **Stores> Configuration > Sales > Shipping Settings > Origin**. Here admin can enter origin address for Canada shipping.

**Origin**

Country [website]	Canada	<input type="checkbox"/> Use system value
Region/State [website]	Quebec	<input type="checkbox"/> Use system value
ZIP/Postal Code [website]	H3Z 2Y7	<input type="checkbox"/> Use system value
City [website]	MONTREAL	
Street Address [website]	10-123 1/2 MAIN STREET NW	
Street Address Line 2 [website]		

**\*\*Note:** You need to set up the allowed currency under **Stores->Configuration->General->Currency Setup**. Here you will have to select the **Canadian Dollar** under the **Allowed Currencies** as per the screenshot below.

**Currency Options**

WEBKUL	▼		
<b>GENERAL</b> ^

## How to get Canada Post Credentials

Before doing the module configuration, the admin needs to have the Canada Post credentials. The admin needs **API Key**, **API Password**, **Customer Number**, and **Contract Id** (if any). **Please Note:** – You need Business Purpose Canada Post account to get these credentials.

### Create Account:

First, click [here](#) to visit the Canada Post homepage. The following page will appear, click **Sign In** and then click **Sign Up** to create a new account.

After clicking the **Sign Up**, the following page will appear. Fill in the information as required. Please make sure to **select Yes for Is this account for business purposes?**

Now, Choose Profile Type as **Small Business**, and click **Select and continue** button.

The screenshot shows the 'Create your profile' wizard with four steps: 'Profile information', 'Profile type' (highlighted in blue), 'Contact information', and 'Confirmation'. The 'Profile type' step has three options: 'Personal', 'Small Business' (selected), and 'Enterprise'. A yellow callout bubble says 'Select a profile type to continue creating your profile.' A red arrow points to the 'Click Here' button next to the 'Small Business' option. Below it, a box contains text about the Small Business program and a list of benefits. At the bottom are 'Select and continue' and 'I have a customer number' buttons, with a red arrow pointing to the 'Select and continue' button.

Now, you will arrive at the dashboard page after clicking continue in the previous step.  
Navigate to **Business Solutions>Developer Program**.

The screenshot shows the Canada Post Business Solutions dashboard. At the top, there's a navigation bar with links for Managing Mail, Sending, Business Solutions (which is highlighted with a red box), Tools, Shop, Support, and a search bar. Below the navigation, a sidebar on the left displays 'Hello, john doe' and a 'My shipped parcels' section. The main content area features a 'Marketing Solutions' section with a '+' sign, listing 'E-commerce Solutions' (with a '-' sign), '- Ship from Store', '- Developer Program' (which is highlighted with a red box and has a red callout bubble with 'Click Here' pointing to it), '- AddressComplete', 'Shipping Solutions', 'Document Management' (with a '+ sign), 'Enterprise Solutions', 'Pricing Rewards', 'Exclusive Offers', and 'Find A Partner'. To the right, there's a 'Ship an item' section with an illustration of a truck and text about Snap Ship™. The bottom right corner of the dashboard shows a message: 'Save an additional 15% until July 31 when you ship with Canada Post Snap Ship™. This new tool makes'.

The following page will appear after clicking the **Developer Program**. Click **Join Now** for creating **API Key** and **Password**.
