

# Daily Deal

 [webkul.com/blog/magento2-daily-deals/](http://webkul.com/blog/magento2-daily-deals/)

Published On - June 8,  
2016

This module allows the admin to set up daily deals for its customers. The admin can set the deal price using fixed or percent discount methods. Configure deal status for any product and select the duration of the deal. The customers can view the deal value information with the remaining time left. Deal collection page for viewing all the deals of the store.

## Features

- Enable or disable the deal status anytime for any product.
- Set deal price using two discount methods – fixed or percent
- Deal Collection page for viewing all the deals on the store at one place.
- Daily deals are visible on the product page, category page, search page, deal collection page.
- Countdown timer shows the remaining time left to avail the deal.
- Shows deal value information – percent off and amount saved.
- View top viewed deals and top deals of the day on the deal collection page.
- Supports multiple language translations.
- Works in multiple stores and store views.
- Open source, highly customizable and easy to manage.

## configure Daily Deal

After the successful installation of the module, to configure daily deals for products. Navigate through **Products > Catalog**. Select any product and click Edit. You will see a **Daily Deals** tab. Following options are available:

**Deal Status** – Enable this option to apply deal on this product, else select Disable.

**Discount Type** – Select how you want to calculate the deal price. There are two methods available – Fixed or Percent:

1. **Fixed** – To set a specific deal price, select this option and enter the deal price in the deal value. So if the original price is \$200 and deal value is 60, the deal price will become \$60.
2. **Percent** – To set the deal price according to the percentage of the original price. Enter the percent value in the deal value. So if the original price is \$200 and deal value is 60, the deal price will become \$120.
