

Fastway Shipping_v5.0.2

Fastway Shipping – Fastway is the subsidiary of the **Aramex shipping** company and provides **Fastway Shipping** method for shipping the products to four countries – **New Zealand, Australia, Ireland, and South Africa** domestically.

By using this shipping module the admin can manage the shipping and orders from his admin panel, print invoice, enter the tracking ID and complete the shipping management from the admin panel.

****Note:**

1. Fastway Shipping module works for shipping the products within the **Domestic area** only. for example; Australia to Australia and not the International area.
2. The shipping rates are calculated according to the **Regional Franchise, product's weight, and the Zip Code** of the **Domestic buyer**.

Features

- Calculate Shipping cost according to the Fastway Shipping.
- The admin can enable or disable the shipping method.
- The admin needs to enter his Fastway API.
- The name of Fastway Shipping method can be entered by the admin, which will be visible to the customers at the frontend.
- Shipping Rate depends on Admin's Regional Franchise, Product weight, and the buyer's destination address.

Admin Configuration

After the successful installation of the **Fastway Shipping** module;

The admin will be able to see the configuration panel under **Stores > Configuration > Sales > Shipping Method > Webkul Fastway Shipping** as per the below snapshot:

Debug [website] Yes ▾

Thus, the admin can manage all the setting for **Fastway Shipping** method.

Let's go through each of the **configuration** settings –

- **Enabled for Checkout** –
Select “**Yes**” to enable the method for checkout else select “**No**”.
- **Sandbox Mode** –
Select “**Yes**” to make use of the sandbox(testing) mode else select “**No**” to use the production(live) mode.
- **Title** –
Enter the title for the shipping method that will be displayed on the checkout page.
- **API Key** –
The admin will enter his Fastway shipping account API Key.
- **Weight Unit** –
Select the weight unit as pounds or kilograms as required.
- **Default Origin Country** –
Select the default origin country of the store.

- **Default Regional Franchise** –
Select the default Regional franchise for the Fastway shipping.
- **Ship to Applicable Countries** –
Select the countries where this shipping method will be applicable to.
- **Ship To Specific Countries** –
Select the specific countries where you want to ship to.
- **Displayed Error Message** –
Enter the displayed error message if the “**Show Method If Not Applicable**” is set as “**Yes**”.
- **Show Method if Not Applicable** –
Select “**Yes**” to show the method if not applicable.
- **Debug** –
Select “**No**” to not store the debug log information else select “**Yes**” to store the debug log.

How to get the Fastway API Key

You can receive **API Key** using this link api.fastway.org.

For the **Fastway API key** follow the steps below –

1. Click this api.fastway.org link.
2. Then click on the **Get API key** as shown below in the snapshot.

The screenshot shows the Fastway API website interface. At the top, there is a navigation bar with the following links: **Fastway API**, [API Versions](#), **Get API Key** (highlighted with a red box), [Making Calls](#), [FAQ](#), [Contact](#), and [My Account](#). Below the navigation bar, a yellow banner contains the text: "This documentation is for the v2 (stable) version of the API." A red callout bubble points to the "Get API Key" button with the text: "Click here to get the API key." Below the banner, the text "Invocation URL: /v2/psc" is visible. The main content area is titled "Price Service Calculator" with the subtitle "Determine the cost to send goods between two locations." Below this, there is a table titled "Actions" with the following data:

Action Name	Description	Invocation URL
Franchises by Postcode	Perform a query that returns the Pickup RF for a particular postcode.	/v2/psc/pickuprf
List Delivery Suburbs	Produces a list of delivery suburbs based on the specified Pickup RF and optional search terms.	/v2/psc/listdeliverysuburbs
List Regional Franchises	List all the Regional Franchises for the specified country.	/v2/psc/listrfs
PSC Lookup	Perform a PSC lookup. Note: All prices include GST unless otherwise stated. Prices are for prepaid purchases only, for one-off cash sales please contact your local Regional Franchise.	/v2/psc/lookup
Render HTML Template	Renders a HTML template based on the PSC information.	/v2/psc/render
Suburbs in region	Produces a list of delivery suburbs based on the specified delivery RF.	/v2/psc/suburbsinregion

At the bottom left of the page, there is a link: [Back to Index](#).

3. After clicking on the **Get API key**, a page will open where you need to fill in the appropriate information.

Thus after that click the “**Get API Key**” button as shown below in the snapshot:

Fastway API API Versions ▾ Get API Key Making Calls FAQ Contact My Account

This documentation is for the v2 (stable) version of the API.

Get your API Key

The API key is required for pretty much all calls. Any call you make gets logged against the key. Also, any additional permissions you request are assigned to the key.

First Name

Last Name

Email Address

Password

Confirm Password

Country

Enter the details and click Create API Key.

Resend API Key

If you forgot your API key, you can enter the email address you signed up with here and get it resent to you.

Email Address

Now, after clicking the **Get API Key** you will see a success message and will receive the **API key** that you can use.

Fastway API API Versions ▾ Get API Key Making Calls FAQ Contact My Account

This documentation is for the v2 (stable) version of the API.

Success! Your user has been created. Your API key is: [redacted]

After clicking the Create API Key you will see a success message and the API Key.

How To Use – Customer’s End

At the front-end, the buyer will add the products to the cart and then click on the **Go To Checkout** button.

After that, the buyer will find all the allowed **Fastway Shipping** methods listed under the **shipping methods section**.

Now after selecting their preferred method the buyers will tap the “**Next**” button to proceed further.
