

Frenet Freight Gateway Shipping V5.0.1

Installation

Customers will get a **zip folder** and they have to extract the contents of this zip folder on their system. The extracted folder has an **src** folder, inside the src folder you have the **app** folder. You need to transfer this **app** folder into the Magento2 root directory on the server as shown below.

After the successful installation, you have to run these commands in the Magento2 root directory.

First command – `php bin/magento setup:upgrade`

Second Command – `php bin/magento setup:di:compile`

```
php bin/magento setup:di:compile
```

Run this command
in Magento 2 root

Third Command – php bin/magento setup:static-content:deploy

```
php bin/magento setup:static-content:deploy
```

Run this command
in Magento 2 root

After running the commands, you have to flush the cache from Magento admin panel by navigating through->**System->Cache management** as shown below.

Cache Management

System Messages: ▲ 1

Flush Cache Storage Flush Magento Cache

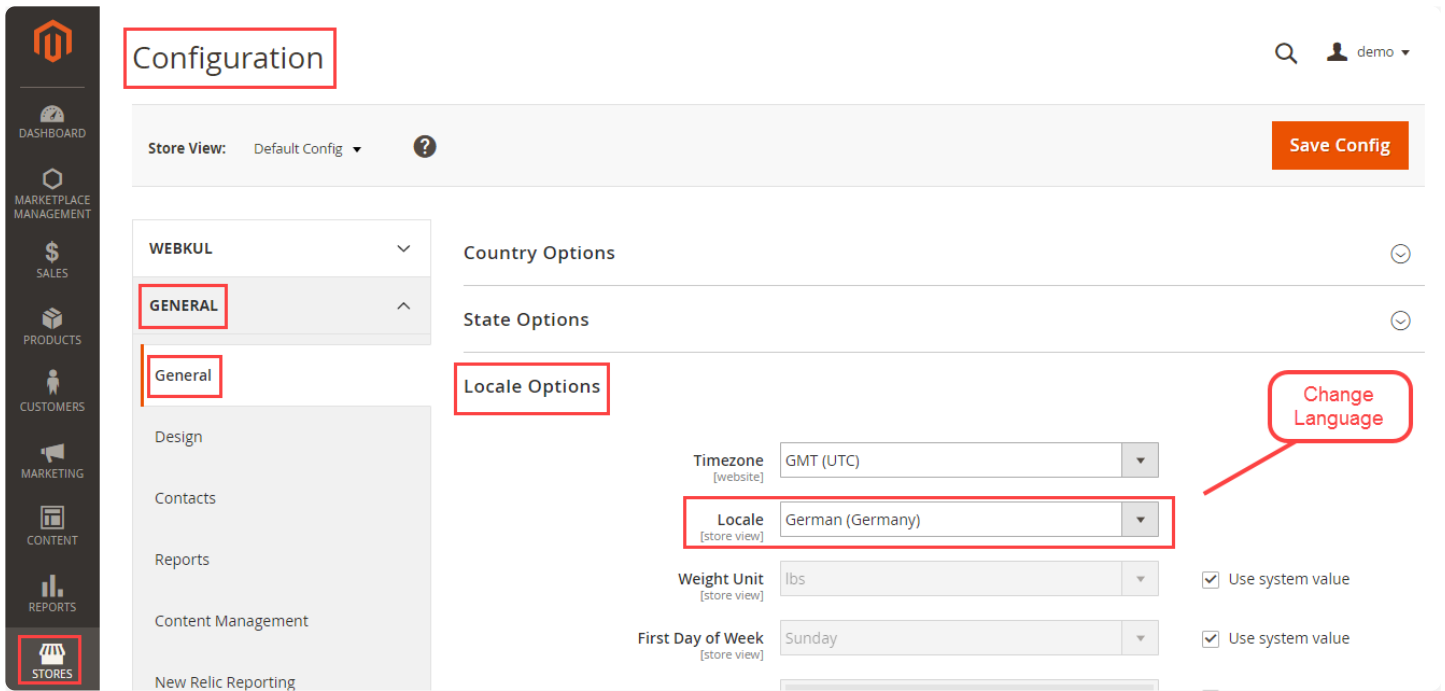

✓ You flushed the cache storage.

Refresh ▼ Submit 12 records found

<input type="checkbox"/>	Cache Type	Description	Tags	Status

<input type="checkbox"/>	Layouts	Layout building instructions.	LAYOUT_GENERAL_CACHE_TAG	ENABLED
<input type="checkbox"/>	Blocks HTML output	Page blocks HTML.	BLOCK_HTML	ENABLED
<input type="checkbox"/>	Collections Data	Collection data files.	COLLECTION_DATA	ENABLED
<input type="checkbox"/>	Reflection Data	API interfaces reflection data.	REFLECTION	ENABLED

Multi-Lingual Configuration

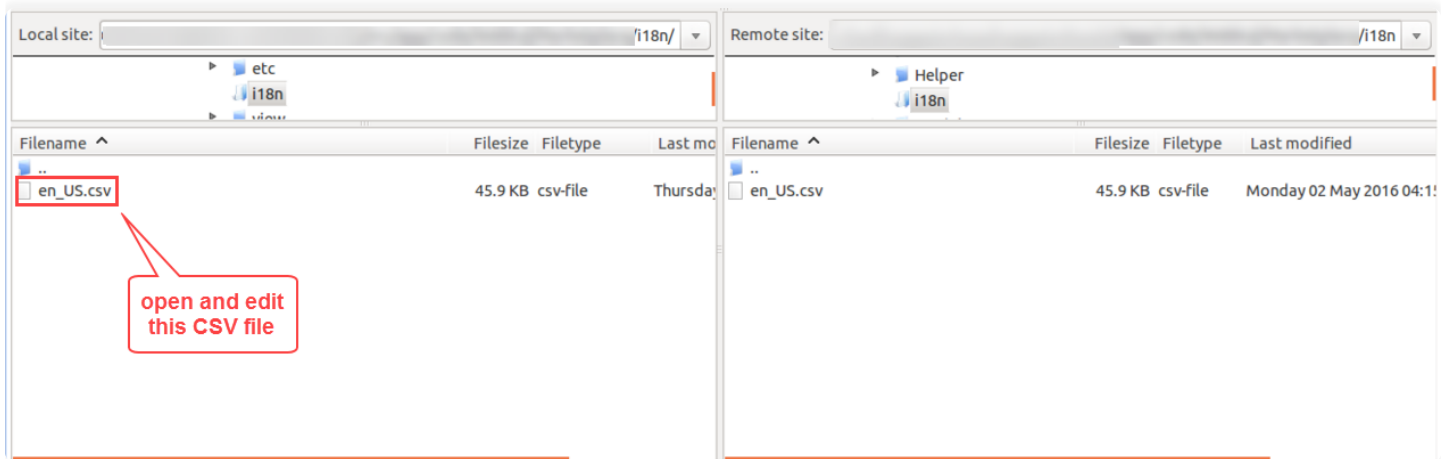

For Multilingual support, please navigate to **Store>Configuration>General >Locale Options**. And select your desired language from the **Locale** option.

Language Translation

Now, the user will navigate to the following path in the system for module translation `app/code/Webkul/Frenet/i18n/en_US.csv`.

Open the file named `en_US.CSV` for editing as shown in the below screenshot.

After this, replace the words after the **comma(,)** on the right in the file with your translated words.

```
1 |"Product Information","Product Information"
2 |"Product Category","Product Category"
3 |"Description","Description"
4 |"Short description","Short description"
5 |"SKU","SKU"
6 |"SKU Available","SKU Available"
7 |"SKU Already Exist","SKU Already Exist"
8 |"Price","Price"
9 |"Stock","Stock"
10|"Weight","Weight"
11|"Image","Image"
12|"Add other image","Add other image"
13|"Back","Back"
14|"Save","Save"
15|"Cancel","Cancel"
16|"Remove","Remove"
17|"FOR BECOME SELLER CONTACT TO ADMIN","FOR BECOME SELLER CONTACT TO ADMIN"
18|"Edit Product","Edit Product"
19|"Status","Status"
20|"Qty. Sold","Qty. Sold"
21|"Earn Amount","Earn Amount"
22|"Action","Action"
23|"Pending","Pending"
24|"Approved","Approved"
25|"Delete Magento Product","Delete Magento Product"
26|"Sure Want To Delete Magento Product","Sure Want To Delete Magento Product"
27|"FOR BECOME SELLER CONTACT TO ADMIN..","FOR BECOME SELLER CONTACT TO ADMIN.."
```

edit the words on the right

After editing and translating the CSV file, you need to save the translated file name according to your region language and country code such as – **de_DE.CSV**. Followed by uploading the translated file to the same folder from where you have obtained it. Now your module translation is complete.
