

Frenet Shipping Marketplace Add-On V3.0.1

Frenet service allows integration with multiple shipping carriers for Brazil postal codes. It offers simple integration between online stores and various carriers.

Using the Frenet gateway one can carry out freight quotes and order tracking.

Frenet Shipping Marketplace Add-on enables the sellers to offer multiple shipping carriers for Brazil postal codes for their products.

So, the sellers can find the best available freight prices and optimize logistics costs.

Using Frenet Freight service it is possible to carry out a freight quote based on the parameters of origin, destination, product dimensions, weight, and the total value of the shopping cart.

Thus, on the checkout page, the customer can choose the most appropriate shipping option offered by Frenet service.

NOTE :

Frenet is not a carrier. This offers various delivery options into your virtual store and increases your conversion.

To use this module, you first need to create an account at [Frenet Administrative](#) website to get access token and configure carriers that you will use.

This module is an add-on of the Webkul's Marketplace Module. To use this module you must have installed [Multi Vendor Marketplace](#) first.

Features

This module offers a dynamic shipping method for Freight calculation.

Easily enable/disable the Frenet Freight Shipping module by merchants.

The admin can set the Frenet Freight Shipping method name.

The admin can select the multiple countries to ship the products to specific countries as per the choice. This will only work if the user has purchased an international shipping service.

The Frenet account details to manage the shipment of the orders by both admin and sellers.

The store owner can add weight and dimensions to the product to apply the shipping methods.

The admin and the seller both can set the product dimensions(length, width, and height) for the shipments.

The admin can configure the weight format for the shipments like kilos, lbs as per the choice.

Allow customers to choose the Frenet Freight Shipping method on the checkout page.

Shipping will be calculated using Frenet Freight Gateway.

The code is fully open and easy to use.

Note-

For configurable and Bundle Products the shipping charges will be calculated as per their associated products.

How To Get Frenet Credentials?

To get the Frenet details(Access Key, Password, and Token), you first need to have a Frenet account. Click here to [Register](#) yourself. This will navigate you to the login page as per the below image.

The image shows a login form for Frenet. At the top is the Frenet logo. Below it, the text reads "Bem-vindo! Faça seu login abaixo". There are two input fields: "Usuário" and "Senha". A blue "Login" button is positioned below the fields. At the bottom, there are two links: "Cadastre-se agora!" and "Redefinir senha".

After registering yourself successfully, login to your account.

The image shows the "Registration Data - webkul" form in the Frenet dashboard. The dashboard header includes the Frenet logo, the user name "webkul", and the plan "Basic Plan 252/5000 Quotes". The left sidebar contains navigation links: Dashboard, Carriers, Freight Calculator, Manage Freight, Hub Marketplace, and help Center. The main content area is titled "Registration Data - webkul" and includes a security warning: "We take the security of your information seriously. This information is confidential and will not be disclosed to other companies." The form is divided into several sections: "Company data" (with fields for name, email, website, phone, address, and city), "Responsible Data" (with fields for name, email, and phone), "Platform" (with dropdowns for "Magento" and "- Development Agency -", and a "Código promocional" field), and "Access key" (with fields for "Key" and "password", and a "Token" field with an "Able" checkbox). A "To save" button is located at the bottom left of the form. A notification icon is visible in the bottom right corner.

The user will navigate to **Register > Register Data** to fill all the details. After filling all the details, will get the Access Key, Password, and Token.

CARRIERS:

The user can activate the carriers as per the choice. For this, the user will click on the menu option “Carriers”.

CALCULATE SHIPPING:

The user can calculate shipping from the Frenet account. For this, click on **Freight Simulator** as per the below image.

Fernet Pricing

The Fernet pricing includes a cost list as per the type of service. Thus, this could be verified here- [Fernet Plans](#).

Module Configuration

After the installation, the admin can easily configure the module settings. For this, the admin will navigate to **Stores > Configuration > Sales > Shipping Methods > Marketplace Fernet Freight Shipping** as per the below image.

The screenshot shows the Magento 2 Configuration interface. At the top, there is a search bar, a notification bell with 3 alerts, and a user profile for 'admin'. Below this is a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button highlighted with a red box. The left sidebar contains a navigation menu with categories like WEBKUL, GENERAL, CATALOG, SECURITY, CUSTOMERS, SALES, and ENGAGEMENT CLOUD. The 'SALES' category is expanded, and 'Shipping Methods' is highlighted with a red box. The main content area is titled 'Marketplace Fernet Freight Shipping' and features the Fernet logo. A blue banner provides instructions: 'To configure the carriers for which you want to obtain freight quotes, obtain a user name and password, register shipping rules, access the administrative panel Fernet'. The configuration form includes several fields: 'Enabled' (Yes), 'Title' (Fernet Shipping Test), 'Access Key' (masked), 'Password' (masked), 'Token' (masked), 'Use default dimensions' (Yes), 'Standard Height (cm)' (40), 'Standard Length (cm)' (50), 'Standard Width (cm)' (50), 'Weight Format' (Kilos), and 'Displayed Error Message' (This shipping method is currently unavailable. If you would like to ship using this shipping method, please contact us(Test)). Each field has a 'Use system value' checkbox.

SERVICES ▾	Ship to Applicable Countries <small>[website]</small>	All Allowed Countries ▾	<input checked="" type="checkbox"/> Use system value
ADVANCED ▾	Ship to Specific Countries <small>[website]</small>	<div style="border: 1px solid #ccc; padding: 5px;"><p>Afghanistan</p><p>Åland Islands</p><p>Albania</p><p>Algeria</p><p>American Samoa</p><p>Andorra</p><p>Angola</p><p>Anguilla</p><p>Antarctica</p><p>Antigua & Barbuda</p></div>	
	Allow Seller To Manage Frenet Details <small>[website]</small>	Yes ▾	
	Show Method if Not Applicable <small>[website]</small>	Yes ▾	
	Debug <small>[website]</small>	Yes ▾	

Here, the admin will:

Enabled: Enable/disable the module by selecting either “Yes” or “No”.

Title: set the **Frenet Freight Shipping** title which will be displayed at the frontend.

Access key: enter the Frenet account access key.

Password: enter the Frenet account password.

Token: enter the Frenet account token.

Use default dimensions: Enable or disable to use the default dimensions for the shipments by selecting Yes or No. If select “Yes”, the other fields for configuring height, length, and width become visible as per the below image.

Weight Format: Set the weight unit for the shipments between kilo, or lbs as per the choice.

Standard Height (cm) <small>[website]</small>	<input type="text" value="40"/>	<input type="checkbox"/> Use system value
	Height of product packaging (For freight calculation, minimum of 2cm)	
Standard Length (cm) <small>[website]</small>	<input type="text" value="50"/>	<input type="checkbox"/> Use system value
	Length of product packaging (For freight calculation, minimum of 16cm)	
Standard Width (cm) <small>[website]</small>	<input type="text" value="50"/>	<input type="checkbox"/> Use system value
	Width of product packaging (For freight calculation, minimum of 11 cm)	
Weight Format <small>[website]</small>	<input type="text" value="Lbs"/>	<input type="checkbox"/> Use system value
	Product weight format	

Displayed Error Message: set the error message which the admin wants to display when this shipping method is not available.

Ship to Applicable Countries: either allow all the countries for the Frenet Freight shipping else to allow specific countries where the admin wants to allow the shipment.

Ship to Specific Countries: Select the specific countries where the admin wants to allow the shipment.

Allow Sellers to Manage Frenet Details: allow the seller to manage the Frenet Details by selecting “Yes” else select “No” for not allowing the seller to manage the Frenet Details.

Show Method if Not Applicable: choose to display this method name or not on the front end, when it is not applicable.

Note:

If the user has purchased international shipping service from the Frenet Administrative Panel. Then only, the user will be able to make the shipments to the other countries otherwise not.

Shipping Settings:

The admin needs to set the shipping origin details also. For this, the admin will navigate to **Stores > Configuration > Sales > Shipping Settings > Origin** as per

the below image.

The image shows a screenshot of the Magento Configuration page. The page title is "Configuration". In the top right corner, there is a search icon, a notification bell with a red circle containing the number "2", and a user profile icon labeled "admin". Below the title bar, there is a "Store View" dropdown menu set to "Default Config" with a help icon. A prominent orange "Save Config" button is located in the top right corner of the configuration area.

The left sidebar contains a navigation menu with the following categories: WEBKUL, GENERAL, CATALOG, CUSTOMERS, SALES (highlighted), Sales, Sales Emails, PDF Print-outs, Tax, Checkout, Shipping Settings (highlighted with a red box), Multishipping Settings, Shipping Methods, Google API, Payment Methods, SERVICES, and ADVANCED.

The main content area is titled "Origin" and contains the following fields:

- Country [website]: Brazil (dropdown menu) with a checkbox for "Use system value".
- Region/State [website]: São Paulo (dropdown menu) with a checkbox for "Use system value".
- ZIP/Postal Code [website]: (text input field) with a checkbox for "Use system value".
- City [website]: Consolacao (text input field).
- Street Address [website]: (text input field).
- Street Address Line 2 [website]: (text input field).

Below the "Origin" section, there is a section titled "Shipping Policy Parameters" with a collapse icon.

Configure Per Product Dimension:

If the admin doesn't want to use the default dimensions for a product, then the admin will use default Magento attributes of Length, Height, Width, and Weight.

Stock Status [global]	In Stock	▼		
Length [store view]	30	in		
Width [store view]	30	in		
Height [store view]	32	in		
Weight [global]	1	lbs	This item has weight	▼

For this, navigate to the “**Product Edit**” page.

However, under the Attribute section, the admin will select-

Fragile Product: set 1 if it contains glass or other fragile materials else set 0.

Note:

If the admin wants to apply some specific dimensions on any particular product while for the rest of the product default dimensions. Then, the admin will set “**Use default dimensions**” to No.

Add weight and dimensions to the product to apply the shipping methods.

If the user has a Brazilian shipping service then, the sum of every product Length, Width, and Height should be less than or equal to 170 cm. And, the product weight should be less than or equal to 30 kg.

If the user has also purchased an International shipping service then, the product dimensions and weight may vary from one country to another.

Seller End

If the admin has allowed the sellers to manage the Frenet details then the sellers need to configure the Marketplace Frenet Configuration details. For this, the sellers will log in to their account.

The sellers will click on the menu option “**Frenet Configuration**” as per the below image.

Manage Orders – Admin End

The admin can view and manage all the orders(along with the seller’s orders). Hence, for this, the admin will navigate to the **Sales > Order** as per the below image.

The screenshot shows the 'Orders' admin interface. At the top, there is a search bar, a notification bell with 3 alerts, and a user profile for 'admin'. A red button labeled 'Create New Order' is visible. Below the search bar, there are filters, a 'Default View' dropdown, 'Columns' and 'Export' options, and a pagination control showing '20 per page' and '1 of 1' records. The main table contains 8 records, with the following data:

ID	Purchase Point	Purchase Date	Bill-to Name	Ship-to Name	Grand Total (Base)	Grand Total (Purchased)	Status	Action	Signifyd Guarantee Decision	Approval Status
000000001	Main Website Main Website Store Default Store View	Nov 30, 2018 4:10:18 PM	Veronica Costello	Veronica Costello	\$36.39	\$36.39	Processing	View		Disapproved
000000002	Main Website Main Website Store Default Store View	Nov 30, 2018 4:10:23 PM	Veronica Costello	Veronica Costello	\$39.64	\$39.64	Closed	View		Disapproved
000000003	Main Website Main Website Store Default Store View	Jan 2, 2019 4:16:06 PM	Test User	James Doe	\$54.00	\$54.00	Pending	View		Disapproved

Here, the admin can view the complete list of the orders. Hence, to manage and generate invoices, the shipment of the orders, the admin selects the order from the list.

So, the admin can-

- notify the customers by sending them emails,
- cancel/hold the order and
- even edit/reorder the product order.

The screenshot shows the order details page for order #000000008. At the top, there is a search bar, a notification bell with 3 alerts, and a user profile for 'admin'. A red box highlights the action menu with the following options: Back, Cancel, Send Email, Hold, Invoice, Ship, Reorder, and Edit. Below the action menu, there is a section for 'ORDER VIEW' with a sub-section for 'Order & Account Information'. The order information includes the order number and a note: 'Order # 000000008 (The order confirmation email was sent)'. The account information section includes a link to 'Edit Customer'.
