## Introduction

---

The mobile application is contributing a tremendous role to creating a competitive advantage for your eCommerce Store. The best mobile application can help you to create a competitive environment for your competitors. The Best Mobile App for your Magento2 store must have all the essential features and functionalities and it should work perfectly according to your business needs & strategy. Also, you need to take care of technology which is used to create the mobile application so that you do not face any performance issues.

The Mobikul does this work for you so that you can engage your customers over the mobile platform. The mobile platform has a huge role to engage your customers to your mobile store. Mobikul Mobile App supports the feature **Push Notification** which is an essential feature of the mobile application. It helps to increase the customers' engagement with the mobile store. You can also see the benefits of push notifications by clicking [here](#).

**Mobikul Mobile App Builder** –Webkul's one of the best product MOBIKUL, a mobile app which can do all the basic MAGENTO2 tasks on your Android and IOS smartphones. The app's features are very much similar to your normal magento2. We have replicated all the features and functionality of the basic magento2. Your buyers will not have to bother about complex functionality because they can find things at their fingertips.
