

Mobikul Mobile App Builder

Introduction

Mobikul Mobile App Builder - A native app which can do all the basic MAGENTO tasks on your Android and iOS-based smartphones.

The app's features are very much similar to your normal magento. We have replicated all the features and functionality of the basic magento.

Your buyers will not have to bother about complex functionality because they can find things at their fingertips.

So, this is a ready made app that can be used by the store owner to increase their sales and accessed from anywhere and anytime.

This technique can help a lot to increase the sales of the store.

The mobile application is contributing a tremendous role in creating a competitive advantage for your eCommerce Store.

The best mobile application can help you to create a competitive environment for your competitors.

The Native Mobile App for your Magento store must have all the essential features and functionalities and it should work perfectly according to your business needs & strategy.

Also, you need to take care of technology which is used to create the mobile application so that you do not face any performance issues.

The Mobikul does this work for you so that you can engage your customers over the mobile platform. The mobile platform has a huge role to engage your customers to your mobile store.

Mobikul Mobile App supports the feature ***Push Notification*** which is an essential feature of the mobile application. It helps to increase the customers' engagement with the mobile store.

Features

- All Product Type Supported
 - Simple product
 - Grouped product
 - Bundled product
 - Configurable product
 - Virtual product
 - Downloadable product
- Interactive banner.
- Featured Product carousel.
- New product carousel.
- Hot deals.
- Provides the customers with layered navigation for optimized search.
- Informative and interacting shopping app with a fast and intuitive response.
- Supports default Magento shipping methods.
- Supports ordering via phone, cash on delivery, money order and personal cheque as payment methods.
- Well configured and easy to use at the admin end.
- The app supports Machine Learning to search the product is a smarter way.
- The app has support towards AI based features like- [Augmented reality and Size Calculation\(only iOS\)](#).
- Fully native app built on Kotlin and Swift.
- The app support GDPR to protect and control data of the app user.
- Product Search Via Barcode Scanning.

Note-

For Admin Configuration kindly refer to this section- [Magento 2 Mobile App-Admin-End Configuration](#)

Some Technical Aspects

- Time Critical services' like Push notification, and alerts.
- Easy 'Sharing of Products' through various platforms like Whatsapp, Fb, Twitter etc.
- Ease of use with 'Attractive and Convenient UX'.
- Application frameworks or Operating systems, which it supports are 'Android and Apple platforms'.
- Provision of 'Synced carts or Cross-Platform carts' to bestow a seamless experience to browse on one platform and purchase from another. Along with it provides ease to shoppers as stored customer data doesn't have to enter again, like delivery address and billing details etc.
- Supports 'Multiple trustworthy Payment methods' like Paypal, MangoPay, Stripe, WePay, Credit Cards, Cash on Delivery etc.
- Providing Layered Navigation for filtering the products on various attributes.
- Interactive Front-end Panel for the stores.
- An additional feature providing Multiple Store Views in which the store can be customized to view in Different languages.

Splash

The launching screen of the app is can be amended from the code end will appear to the users as they open up the app. Thus, helping the app owner to introduce the app or organization in a better way.

 mobikul

Homepage

The homepage of the app is having multiple sections to divide it into usable sections. The

- **Category carousel(Featured Category)** - It is situated on the top of the homepage where the customer can find a product according to the categories.

Thus, on clicking on the particular category the user will go to the category collection page.

- **Featured Products-** These Products are an exclusive collection of store meant to be highlighted. So, they appear as per the settings are done by the admin in the backend.

Notifications

The app user can get informed about the upcoming offers, schemes, order changes, and Abandoned cart via notification features. These Firebase Push Notification can contain any information from the above-mentioned topics.

Thus, helping the customer to execute effective shopping via the app. However, these notifications can be managed by the app user in the 'Setting' which we will discuss later.

So, the notification is linked with the order, product, category or cart which will open on clicking them.

Girls Summer Shop

Mega Offer on Girl's Summer Wear

Search

On clicking the search icon the app user can save themselves from scrolling effort. This can be done on following ways-

1-Search Via Term- The search feature operates in 3 ways- Like, Full Text, and Combine.

- 'Like' finds the similarity between the keywords matching with product titles,
- 'Full Text' exactly matches the keyword with the titles and
- 'Combine' is a mix of both.

Product Name : duffle bag

\$34.00

Joust Duffle Bag

2.5 ★

Thus, this feature can save a lot of time of customer as it optimizes the search process in the best way.

3- Search Via Image- Machine Learning-

This feature will allow the customer to look for the image via image scanning. The app uses Google Firebase's ML kit- a ready to use API. The app will save the search time via two ways-

- **Text Detection-** Here the app user can search the product by allowing the scanning of the text in on an object. Currently, the text detection works for English language only.
- **Product(Object) Detection-** In this case, the app user can search the product via the real-time object. That is the app user can scan the product in reality which will open up the list of linked products.

CMS Pages

You can also find a link as “CMS Pages” here. Where you can see all the CMS Pages that was created by the admin.

They can be anything like- Privacy policy, About Us page, page and other such pages.

← Privacy Policy

This website ("website") is operated by Luma Inc., which includes Luma stores, and Luma Private Sales. This privacy policy only covers information collected at this website, and does not cover any information collected offline by Luma. All Luma websites are covered by this privacy policy.

Luma Security

Personal information provided on the website and online credit card transactions are transmitted through a secure server. We are committed to handling your personal information with high standards of information security. We take appropriate physical, electronic, and administrative steps to maintain the security and accuracy of personally identifiable information we collect, including limiting the number of people who have physical access to our database servers, as well as employing electronic security systems and password protections that guard against unauthorized access.

Our website uses encryption technology, like Secure Sockets Layer (SSL), to protect your personal information during data transport. SSL encrypts ordering information such as your name, address, and credit card number. Our Customer Care center and stores also operate over a private, secure network. Please note that email is not encrypted and is not considered to be a secure means of transmitting credit card information.

Luma Privacy Policy

To help us achieve our goal of providing the highest quality products and services, we use information from our interactions with you and other customers, as well as from other parties. Because we respect your privacy, we have implemented procedures to ensure that your personal information is handled in a safe, secure, and responsible manner. We have posted this privacy policy in order to explain our information collection practices and the choices you have about the way information is collected and used.

As we continue to develop the Luma website and take

 About us

With more than 230 stores spanning 43 states and growing, Luma is a nationally recognized active wear manufacturer and retailer. We're passionate about active lifestyles – and it goes way beyond apparel.

At Luma, wellness is a way of life. We don't believe age, gender or past actions define you, only your ambition and desire for wholeness... today.

We differentiate ourselves through a combination of unique designs and styles merged with unequaled standards of quality and authenticity. Our founders have deep roots in yoga and health communities and our selections serve amateur practitioners and professional athletes alike.

Description

Convenience is next to nothing when your day is crammed with action. So whether you're heading to class, gym, or the unbeaten path, make sure you've got your Strive Shoulder Pack stuffed with all your essentials, and extras as well.

- Zippered main compartment.
- Front zippered pocket.
- Side mesh pocket.
- Cell phone pocket on strap.

With more room than it appears, the Endeavor Daytrip Backpack will hold a whole day's worth of books, binders and gym clothes. The spacious main compartment includes a dedicated laptop sleeve. Two other compartments offer extra storage space.

- Foam-padded adjustable shoulder straps.
- 900D polyester.
- Oversized zippers.
- Locker loop.

For long weekers away, camping outings and business trips, the Overnight Duffle can't be beat. The dual handles make it a cinch to carry, while the durable waterproof exterior helps you worry about the weather. With multiple organizational pockets inside and out, it's the perfect travel companion.

- Dual top handles.
- W 15" x H 15" x D 10"

Contact Us

The customer can communicate with the store owner/admin by sharing a message from this section.

Thus helping the customer to build a strong relationship with the store owner.
