

Advanced Report Marketplace Add-On V5.0.0

By using Marketplace Advanced Report System for Magento 2, the Seller, and store owner both can see their all reports in graphical representation. Both can see their report on the basis of selected categories or order status or dates or intervals. Admin can see the report of a particular seller on the basis of the selected seller.

This module is an add-on of the Webkul Marketplace Module. To use this module you must have to install [Webkul Marketplace Module](#).

Feature List – Advanced Report System

- The admin can see the full report of every seller easily.

- Admin and Seller can select multiple options to filter the report results.

- The seller can see the full report of his sales.

- Admin and seller can filter sales according to categories or order status or date.

- Graphical representation of the report.

Admin End Management

After the successful installation of the Marketplace Advanced Report System for Magento2 module, the store owner can see “Marketplace Advance Report System Manager” under the Marketplace Management.

sales

The admin can also generate the report according to product categories and order status. Store owners can view the report for that year, for that month, for that week, or for that day.

The store owners can also filter the results by setting the date range and all the sales made between that period will be shown. Store owners can also see all the sales made on the world map.

There is a panel for top-selling products and best customers, which shows the top-selling products in the form of a pie chart and best customers in a tabular form with their purchase details.

Revenue Calculation For Admin End

Revenue = Seller Commission + Product Tax, where seller commission is actual product price – admin commission.

Total Spendings Calculation For Admin End

The admin can view the total spendings of the customer along with the other details like Date of registration, last purchase date, total order.

Total Spendings = Admin commission + Seller commission + Tax.

Note: If the seller is selected then the total spendings, it calculates as:

Total Spendings = Seller Commission + Tax.

The store owner can set the limit for how many top products and best customers he wants to be made visible in the report by going to **Stores -> Configuration -> Marketplace Advance Report System.**
