

Australia Post Marketplace Add-On

 webkul.com/blog/magento2-marketplace-australian-post-shipping/

Australia Post is an Australian government-owned corporation that provides postal service both locally and internationally. Now, we have integrated it with the Webkul Magento 2 Marketplace. Using the **Australia Post Marketplace Add-On**, the admin and the sellers can provide their customers to select the Australia Post shipping method for getting their shipments delivered. This shipment method can be used for shipping the products within Australia and internationally.

This extension is an add-on of the Webkul's **Multi Vendor Marketplace**. To make use of this extension you must first install the **Multi Vendor Marketplace** module.

Features

- The admin can enable or disable Marketplace Australia Post method.
- The admin can set the Marketplace Australia Post shipping method name that will be shown on the front-end.
- The admin can set the handling fee.
- Australia Post shipping rate will be calculated from seller's address.
- The admin can allow sellers to save their Australia Post Credentials.
- Shipments can be delivered locally(within Australia) and internationally(from Australia to other countries).

Admin's Configuration

After the successful installation of the extension, the admin will navigate to **Stores->Configuration-> Sales->Shipping Methods->Webkul Marketplace Australia Post Shipping**.

Store View: Default Config ? Save Config

Webkul Marketplace Australia Post Shipping

Enabled for Checkout [website] Yes

Height [website] 50
use for domestic shipping

To **configure** the extension, the **admin** will –

- Selects **“Yes”** to enable the extension for use else selects **“No”** to disable the extension.
- Enter the **Shipping Title** that is visible to the customers at the front-end.
- Enter the **API key** for the Admin’s Australia Post account.
- Select the weight unit as **“Pounds”** or **“Kilograms”** as per the requirement.
- Select **Ship to Applicable Countries** as **“All Allowed Countries”** if you want to ship to all countries else you can select **“Specific Countries”** and then select the **specific countries** under the option **“Ship to Specific Countries”** where you want to ship.
- Select **“Yes”** to show the Method if not applicable for **“Show Method If Not Applicable”** else select **“No”**.
- Enter the **Error Message** that is displayed when the shipping method is not available.
- Set the **Handling Fee** if any that will be applicable.
- Under **“Allow Sellers to Save Australia Post Details”** set as **“Yes”** to allow the

sellers to save their Australia Post Shipping credentials else select “No”.

- Set the package **length**, **Width**, and **Height** of the parcel(enter these values for domestic shipping).

How to get the API Key

Step 1: The admin needs to have a **personal account** at the **Australian Post** website. For creating a new account click [here](#).

Step 2: Now, to get the **API key** please click [here](#) and login using your account credentials. After login, you will see the below screen.

Step 3: Here, click on “**Register now to get a PAC API Key**” and you will be redirected to another page. Fill in the required information and click the **submit** button.

Step 4: lastly, check your email address provided in the previous step for the API key.

Seller's Configuration

The seller will find a new menu option under their **marketplace** block – “**Manage Australia Post Shipping**”. Here, the seller needs to enter his **Australia Post** account related **API Key**. After entering the **key** tap the **save** button to save the configuration.

How to get the API Key

Step 1: The seller needs to have a **personal account** at the **Australian Post** website. For creating a new account click [here](#).

Step 2: Now, to get the **API key** please click [here](#) and login using your account credentials. After login, you will see the below screen.

Step 3: Here, click on “**Register now to get a PAC API Key**” and you will be redirected to another page. Fill in the required information and click the **submit** button.

Step 4: Lastly, check your **email address** provided in the **previous step** for the **API key**.
