

Fastway Shipping Marketplace Add-On V5.0.0

Fastway Shipping Marketplace module provides the Fastway Shipping method for shipping the products to four countries – *New Zealand, Australia, Ireland, and South Africa*.

Using this shipping module vendor/seller can manage their shipping and order from the seller panel, print invoice, enter the tracking ID and complete the shipping management from the seller panel.

This module is an add-on of Webkul's Multi Vendor Marketplace. To use this module you must have installed [Multi Vendor Marketplace](#) module first.

Note: This module works for shipping the products within the **Domestic area** only and not the International area for example; Australia to Australia.

Also, the shipping rates are calculated according to the seller's Regional Franchise, product weight, and the Zip Code of the Domestic buyer.

Features Of Fastway Shipping Marketplace Add-On

Admin will enter the Fastway API key.

Admin will set the Fastway Shipping method name that will be visible to the customers at the frontend.

The seller can add Invoice & Packing slip address, VAT, TAX information.

Seller can print the Invoice of each Order.

The seller can print the Invoice and Shipping Slips.

Ability to download the Invoice and Shipping Slips easily.

Configuration For Multi-Lingual Support

For the **multilingual** support, an admin will navigate through **Store->Configuration->General ->Locale Options**

Moreover, select the **locale** as German (the language into which admin wants to translate his store content).

The screenshot shows the Magento 2 Configuration interface. On the left, a vertical sidebar contains navigation icons for Dashboard, Marketplace Management, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The 'General' menu item is highlighted with a red box. The main content area is titled 'Configuration' and shows 'Store View: Default Config'. A 'Save Config' button is in the top right. The 'Locale Options' section is expanded, showing the following settings:

- Timezone: GMT (UTC) [WEBSITE]
- Locale: German (Germany) [STORE VIEW]
- Weight Unit: lbs [STORE VIEW]
- First Day of Week: Sunday [STORE VIEW]
- Weekend Days: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday [STORE VIEW]

A red speech bubble points to the 'Locale' dropdown with the text: "Here store selected locale option is German, move CSV file inside magento>app>locale>de_DE".

Configuration Of Fastway Shipping Marketplace Add-On

After the successful installation of the Marketplace Fastway Shipping module, you will be able to see the configuration panel under **Stores> Configuration > Sales>Shipping Method > Webkul Marketplace Fastway** as per the below snapshot.

Webkul Marketplace Fastway Shipping

Debug [website] Yes

Here admin can manage all the settings for the Fastway Shipping method. You can receive API Key using this link api.fastway.org.

Further, to **get the Fastway API key** to follow the below steps –

1. Click this api.fastway.org link.
2. Then click on the **Get API key** as shown below in the snapshot.

The screenshot shows the Fastway API documentation page. At the top, there is a navigation bar with the following items: **Fastway API**, [API Versions](#), **Get API Key** (highlighted with a red box), [Making Calls](#), [FAQ](#), [Contact](#), and [My Account](#). Below the navigation bar, there is a yellow banner with the text: "This documentation is for the v2 (stable) version of the API." and a red callout bubble with the text: "Click here to get the API key." Below the banner, the invocation URL is shown as `/v2/psc`. The main heading is **Price Service Calculator** with the subtitle "Determine the cost to send goods between two locations." Below the heading, there is a section titled **Actions** containing a table with the following data:

Action Name	Description	Invocation URL
Franchises by Postcode	Perform a query that returns the Pickup RF for a particular postcode.	<code>/v2/psc/pickuprf</code>
List Delivery Suburbs	Produces a list of delivery suburbs based on the specified Pickup RF and optional search terms.	<code>/v2/psc/listdeliverysuburbs</code>
List Regional Franchises	List all the Regional Franchises for the specified country.	<code>/v2/psc/listfrs</code>
PSC Lookup	Perform a PSC lookup. Note: All prices include GST unless otherwise stated. Prices are for prepaid purchases only, for one-off cash sales please contact your local Regional Franchise.	<code>/v2/psc/lookup</code>
Render HTML Template	Renders a HTML template based on the PSC information.	<code>/v2/psc/render</code>
Suburbs in region	Produces a list of delivery suburbs based on the specified delivery RF.	<code>/v2/psc/suburbsinregion</code>

At the bottom left of the page, there is a link [Back to Index](#).

3. After clicking on the **Get API key**, a page will open where you need to fill in the appropriate information and click the “**Get API Key**“button as shown below in the

snapshot.

Fastway API API Versions ▾ Get API Key Making Calls FAQ Contact My Account

This documentation is for the v2 (stable) version of the API.

Get your API Key

The API key is required for pretty much all calls. Any call you make gets logged against the key. Also, any additional permissions you request are assigned to the key.

First Name

Last Name

Email Address

Password

Confirm Password

Country

[Create API Key](#)

Enter the details and click Create API Key.

Resend API Key

If you forgot your API key, you can enter the email address you signed up with here and get it resent to you.

Email Address

[Resend API Key](#)

After clicking the **Get API Key** you will see a success message and will receive the **API key** that you can use.

Fastway API API Versions ▾ Get API Key Making Calls FAQ Contact My Account

This documentation is for the v2 (stable) version of the API.

Success! Your user has been created. Your API key is: [redacted]

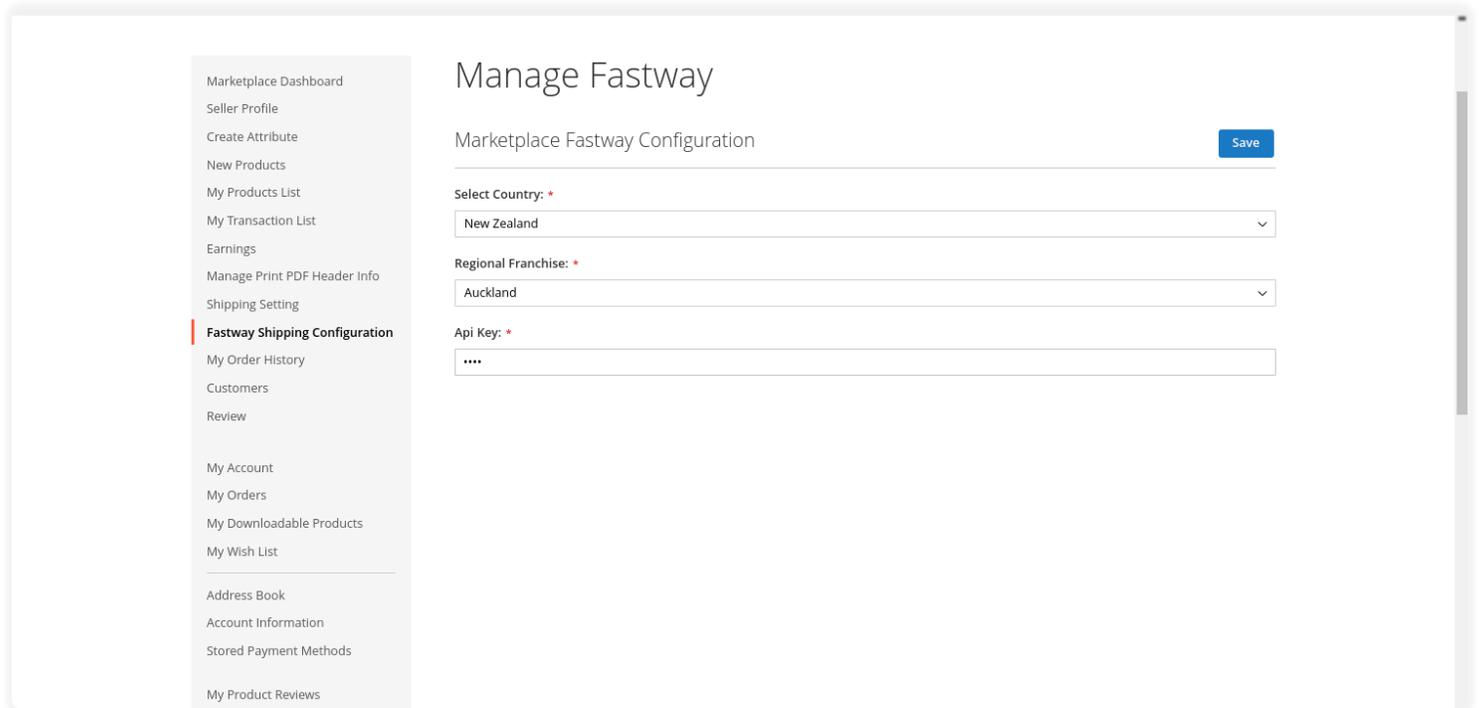

After clicking the Create API Key you will see a success message and the API Key.

Marketplace Fastway Shipping

Meanwhile, if the Marketplace Fastway Shipping module is enabled then the seller can set his **Country** and **Regional Franchises** under **Fastway Shipping Manager > Manage Fastway** as shown below in the snapshot.

The seller can specify the **country** where the shipping is valid.

Seller will also specify in the **Regional Franchises**, the Region where the franchise is operating from.

The screenshot shows a web interface for managing Fastway configurations. On the left is a sidebar menu with various options, including 'Fastway Shipping Configuration' which is highlighted. The main content area is titled 'Manage Fastway' and contains a 'Marketplace Fastway Configuration' section. This section includes three input fields: 'Select Country' with a dropdown menu showing 'New Zealand', 'Regional Franchise' with a dropdown menu showing 'Auckland', and 'Api Key' with a text input field containing four dots. A blue 'Save' button is located in the top right corner of the configuration area.

After that, the seller can set the Origin from where the calculation of shipment will take place. For this, the seller needs to go to the **Shipping sets**.

Moreover, the seller mentions the company name and address. This is the Origin Address for the shipment.
