

# FedEx Shipping Marketplace Add-On

**Marketplace FedEx Shipping** module provides FedEx Shipping method for shipping the product. By using this, you can provide FedEx (Federal Express) shipping. FedEx is widely acknowledged as a world-class company and now it is with the Marketplace.

Marketplace FedEx Shipping is an add-on of **Marketplace** module. To use this add-on you must have installed the marketplace in the first place.

## Features Of Marketplace FedEx Shipping

---

- The admin can enable or disable FedEx Shipping method.
- The admin can allow the sellers to save his/her Fedex credentials.
- The admin can set the FedEx shipping method name that will be shown from front side.
- The admin can define the allowed methods and weight units.
- The admin can set packaging type and drop off type.
- The admin can enable residential delivery.
- The seller can download & print the FedEx label.
- The seller can add Invoice & Packing slip address, VAT, TAX information.
- The seller can enter the tracking ID by which buyer can track their order.
- Dynamic shipping method for freight calculation.
- Ability to download Invoice and Shipping Slip easily.

## Installation Of Marketplace FedEx Shipping

---

Customers will get a **zip folder** and they have to extract the contents of this zip folder on their system. The extracted folder has a **src** folder, inside the src folder you have the **app** folder. You need to transfer this **app** folder into the root directory on the server as shown below.

After the successful installation, you have to run the command on Magento2 root directory-**“php bin/magento setup:upgrade”**

Also, run this command into the Magento2 Root- **“php bin/magento setup:static-content:deploy”** You can refer the below screenshot.

After running the commands, you have to flush the cache from Magento admin panel by navigating through->**System->Cache management** as shown below.

# Configuration For Multi-lingual Support

For the **multilingual** support, admin will navigate through **Store->Configuration->General ->Locale Options** and select the **locale** as German (the language into which admin want to translate his store content).

The screenshot shows the Magento Configuration interface. On the left is a sidebar with navigation options: DASHBOARD, MARKETPLACE MANAGEMENT, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'Configuration' and shows 'Store View: Default Config'. A 'Save Config' button is in the top right. The 'Locale Options' section is expanded, showing a dropdown menu for 'Locale' with 'German (Germany)' selected. A red box highlights this dropdown, and a red speech bubble points to it with the text: 'Here store selected locale option is German, move CSV file inside magento>app>locale>de\_DE'. Other options in the 'Locale Options' section include 'Timezone' (GMT (UTC)), 'Weight Unit' (lbs), 'First Day of Week' (Sunday), and 'Weekend Days' (Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday).

## Marketplace FedEx Shipping Translation

If a user wants to translate their module from English to German then they need to follow the path **app/code/Webkul/MpFedexShipping/i18n** in their unzipped MpFedexShipping folder and will get a CSV file with name "en\_US.csv". Now they will rename that CSV as "de\_DE.csv" and translate all right side content after the comma in the German language. After editing the CSV, save it and then upload it to the path **app/code/Webkul/MpFedexShipping/i18n** where they have installed on the server. The module will get translated into the German Language. It supports both **RTL** and **LTR** languages.

The user can edit the CSV like the image below.

## Configuration Of Marketplace FedEx Shipping

After the successful installation of the Marketplace FedEx Shipping module you will be able to see the configuration panel under **Store-> Configuration ->Sales->Shipping Methods.**

Here the admin will fill the details for the Fedex default module like - **Account ID, Meter No., Key, Password, Sandbox Mode, Packaging Type, Drop Off, Weight Unit, Residential Delivery** and **Allowed Methods** as shown below in the screenshot.

**DHL**

**Webkul Marketplace FedEx Shipping**

Enter your FedEx Settings like Account ID, Meter Number, Key, Password

Select Sandbox Mode, Packaging, Drop-off, Weight Unit.

Select The Residential Delivery and Allowed Methods.

After this you will have to configure **Marketplace FedEx Shipping** Settings as shown below in the screenshot.

The screenshot shows the configuration page for 'Webkul Marketplace Fedex Shipping'. The page includes a sidebar with navigation options: DASHBOARD, MARKETPLACE MANAGEMENT, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, and a home icon. The main content area contains the following settings:

- Enabled for Checkout:** A dropdown menu set to 'Yes'. Callout: 'Select "Yes" To Enable the method on FrontEnd.'
- Title:** A text input field containing 'Webkul Fedex Shipping'. Callout: 'Enter The Title for Shipping.'
- Method Title:** A text input field containing 'Webkul Marketplace Fedex Shipping'. Callout: 'Enter Method Title here.'
- Allow Sellers to Save FedEx Details:** A dropdown menu set to 'Yes'. Callout: 'Allow Sellers to Save FedEx'.
- Displayed Error Message:** A text area containing the message: 'This shipping method is currently unavailable. If you would like to ship using this shipping method, please contact us.' Callout: 'Set the Display Error Message, If Method is not currently available.'
- Show Method if Not Applicable:** A dropdown menu set to 'Yes'. Callout: 'Select "Yes" to Show Method if Not Applicable.'
- Debug:** A dropdown menu set to 'Yes'. Callout: 'Select "Yes" To Debug.'

Select **"Yes"** to Enable this method for checkout, set the **Title** and **Method Title** for the shipping method. For **"Allow sellers to Save Fedex Details"** Select **"Yes"** if you want that the sellers should be able to save the Fedex details. Enter the display message to be displayed if the method is not currently available. Set show Method if not applicable to **"Yes"** or **"No"** as per your requirement and select the debug mode to **"Yes"**.

## Front End Seller Management and Workflow

If Marketplace FedEx Shipping module is enable then seller can set the Invoice & Shipping address, VAT, TAX information under **Marketplace -> Manage Print PDF Header Info** as shown below in the screenshot.
