

# Fixed Shipping Marketplace Add-On

---

 [webkul.com/blog/magento2-marketplace-fixed-rate-shipping/](http://webkul.com/blog/magento2-marketplace-fixed-rate-shipping/)

June 13, 2016

**Fixed Shipping Marketplace Add-On** module allows the admin and sellers to provide their own custom fixed rate shipping method for shipping products. If Sellers have not set any Fixed Rate then admin defined default Fixed rate will act. This gives an ability to the admin to specify shipping charges on the products with respect to their vendor's stores distribution across the globe.

To use Fixed Shipping Marketplace Add-On you must have installed [Multi Vendor Marketplace](#) in the first place.

## Features

---

- Amazingly easy to configure by admin/seller.
- Admin can set Default Fixed rate shipping which will be applied to all the products in case seller do not set any fixed rate shipping price.
- Sellers can set his own fixed rate shipping which will be applied to their products only.
- Seller and Admin can set a limit after which the delivery will be free.
- Multi-Lingual support / All language working including RTL.
- Compatible with Multistore.

## Admin Management

---

After successful installation of Fixed Shipping Marketplace Add-On: Go to **Admin Panel**,

Click on **Store> Configuration > Sales>Shipping Methods>Webkul Marketplace fixed rate shipping**.

**Enable for checkout:** – Choose 'Yes' if you want this shipping method at checkout. Choose 'No' if you do not want to provide this shipping method to your customer at checkout.

**Title:** Enter a title for this shipping method.

**Method title:** In this write down the title you want to be shown for this shipping method during checkout.

**Default Shipping Price:** This is the default price for fixed rate shipping. This price set by the admin will be applied when no shipping price configuration has been done by the seller. This shipping price will apply to all the products.

**Default free shipping from Amount:** The order with a value equal to or greater than this value will be shipped free. This value will act when no free shipping value has been configured by the seller. This shipping price will act on all the products.

**Ship to Applicable Countries:** Choose 'All allowed Countries', if you want this shipping to be applicable to all the countries. Else, choose 'Specific' if you want to apply this fixed rate shipping to certain selected countries.

**Ship to Specific Countries:** if you have selected 'Specific' in the above column then Choose the specific selected Countries from this column.

\$10.00	Fixed	Flat Rate

### Shipping based on:

Let me explain this by an example:

If the vendor has configured *fixed rate shipping price* = \$9. (This section of vendor configuration will be explained in later part of this blog.)

So, if there are **3 products** in the cart from the same vendor:

If you have chosen '*Shipping based on*' to '**Vendor**'. Then, the fixed rate shipping price displayed to the customer during checkout will be only **\$9**.

But, If you have chosen 'Shipping based on' to 'Product'. Then, the fixed rate shipping price displayed to the customer during checkout will be only **\$27**.

**Display Error Message:** Type the message here that you want to be displayed in the case when this shipping method is not available.

**Show method if not applicable:** Choose 'Yes' if you want this method to be displayed at the time of checkout even if it is not applicable for that order. If you don't want to display it if it is not applicable then choose 'No'.

## Seller Management

If Marketplace Fixed Rate Shipping module is enabled then seller can set the Shipping Rate Per Product under:

### My Account > Fixed Rate Shipping.

As soon as you install the module you will get this 'Fixed Rate Shipping' option on left hand in your 'My Account'.

Now Seller can make the desired configuration through this. If this section is configured by the Seller then the Admin configured Default *Shipping price* and *free shipping from amount* will not be applicable.

**Shipping Rate Per Product:** Here, Sellers will input the value which will act as Fixed Rate Shipping price for their respective Products.

**Vendor Free Shipping From Amount:** Shipping of the order will be free If the order amount is equal to or greater than the value entered here.

## Management

When the order is placed, the seller can see the order under **My Order History**. From here the Seller can view the order.

## My Order History

My Orders

[Download All Invoice Slip](#)

[Download All Shipping Slip](#)

Order Id	Date		Order Status	
<input type="text" value="Search by Order Id"/>	<input type="text" value="Date From"/>	<input type="text" value="Date To"/>	<input type="text" value="All"/>	<input type="button" value="Submit"/>
<div> Order #000000021  T-shirtMen X 1 <div> View <div>View the order from here</div> </div> </div> <div> Customer: John doe Date: 6/10/16 <div>Order Total- \$40.00</div> </div>				

To download the Invoices of multiple orders at a time, Click on the *Download All Invoice Slip* tab. Choose the duration for which you want to download the invoice by setting the *Date From* and *Date Until* with the help of an Interactive time counter.

To download the Shipping slip of multiple orders at a time, Click on the *Download All Shipping Slip* tab.

The Seller can see the quantity sold of the product under the **My Product List**. The seller will see 3 columns:

1. *Quantity Confirmed*: This number will show the number of order that is being processed.
2. *Quantity Pending*: This number will show the number of orders which are in pending status.
3. *Quantity Sold*: This number will show the number of order that has been shipped and are complete. Click on this number to get the status of these orders.

Product Name	Date	Product Status
Search by product name	From: <input type="text"/> To: <input type="text"/>	All <input type="button" value="Submit"/>

  

Product	Type	Status	Qty. Confirmed	Qty. Pending	Qty. Sold	Earn Amount	Action
PerContry Product \$50.00	simple	Approved	1	15	16	630	
T-shirtMen \$50.00	simple	Approved	0	3	3	130	

If the admin sets the “Allow Seller to Manage Order” option “yes” then the seller can manage the orders from the front-end. Now the seller can generate invoices for their ordered products, generate a tracking number and shipment for the orders of their products. Even the seller can notify the customers by sending them emails, cancel/refund the order and even print the order.
