

Multi Source Inventory Marketplace Add-On V3.0.0

Installation

Customers will get a **zip folder**. Then they have to extract the contents of this zip folder on their system. The extracted folder has an **src** folder, inside the src folder you have the **app** folder.

You need to transfer this **app** folder into the Magento2 root directory on the server as shown below.

After the successful installation, you have to run these commands in the Magento2 root directory.

First command –

```
1 php bin/magento setup:upgrade
```

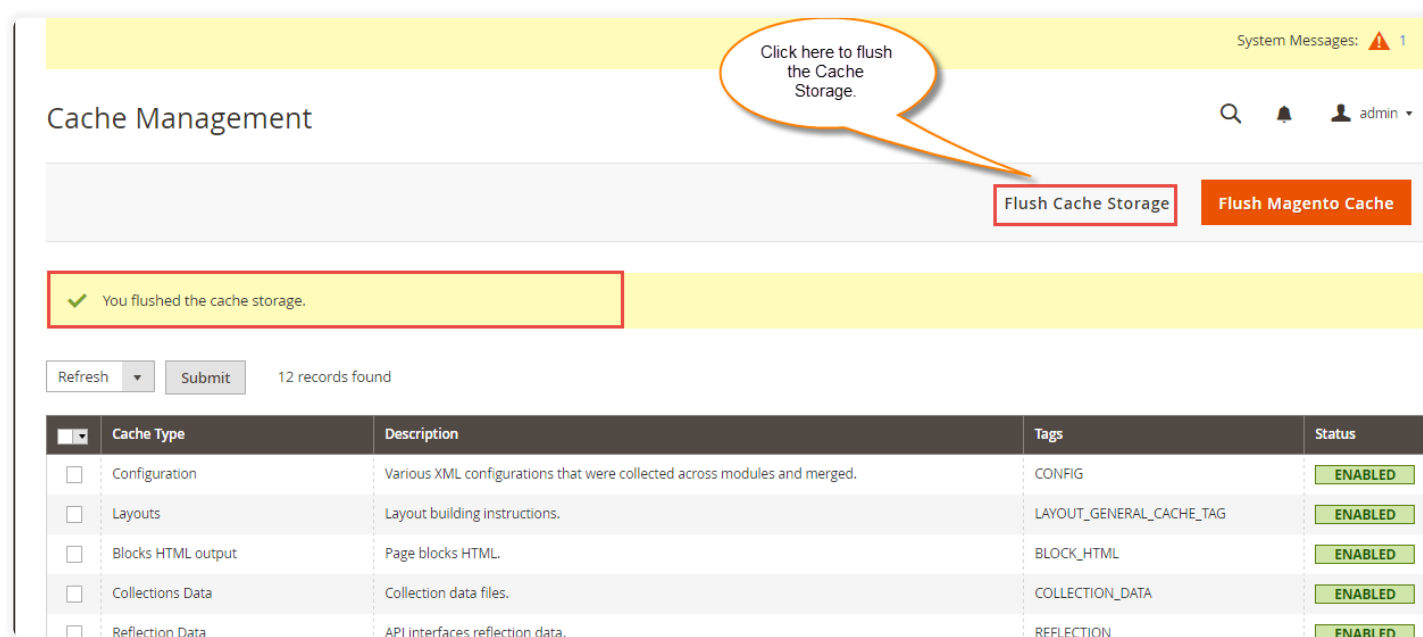

Second Command –

1 php bin/magento setup:di:compile

Third Command –

1 php bin/magento setup:static-content:deploy

After running the commands, you have to flush the cache from the Magento admin panel by navigating through->**System->Cache management** as shown below.

Cache Management

System Messages: 1

Flush Cache Storage Flush Magento Cache

✓ You flushed the cache storage.

Refresh Submit 12 records found

Cache Type	Description	Tags	Status
<input type="checkbox"/> Configuration	Various XML configurations that were collected across modules and merged.	CONFIG	ENABLED
<input type="checkbox"/> Layouts	Layout building instructions.	LAYOUT_GENERAL_CACHE_TAG	ENABLED
<input type="checkbox"/> Blocks HTML output	Page blocks HTML.	BLOCK_HTML	ENABLED
<input type="checkbox"/> Collections Data	Collection data files.	COLLECTION_DATA	ENABLED
<input type="checkbox"/> Reflection Data	API interfaces reflection data.	REFLECTION	ENABLED

That's all for the **Multi Source Inventory Marketplace Add-On**. Still, have an issue feel free to add a ticket and let us know your views to make the module better
