

# Seller Coupons Marketplace Add-On v 3.0.2

---

This extension will allow the sellers to generate coupons for use with their products. These coupons can be used by the buyers to apply discounts on products and thus take advantage of the same.

Note:

1. This module is an **add-on** to the Webkul's **Multi-Vendor Marketplace** Module. To use this module, you must have first installed Webkul's **Multi-vendor Marketplace Module**.
2. The coupon amount applies to the product amount or the subtotal amount only and hence does not apply to the shipping and tax amount.

## Features

---

- It allows the seller to generate coupons for their products.
- The seller can set coupon value and quantity.
- Buyers can add coupon value from different sellers also.
- The admin can also manage the seller's coupons.
- The customer can apply the admin coupon on admin products.
- Multi-Lingual support / All language working including RTL.
- Compatible with Multi-Store.

## Module Configuration

---

After the successful installation of the module, the admin will navigate to **Stores > Configuration > Marketplace > Marketplace Seller Coupon** for managing the backend. Under this section, the admin will enable the seller to create coupons and customers can apply coupons on admin products.

## Seller Coupon Management

---

### Creating Coupons

---

To generate the coupon codes, the seller will navigate under their account panel to **Seller Coupons Manager**. Here, the seller will be able to generate the coupons by first entering the details that include –

- **Code Prefix:** Set the Code prefix that is added to the coupon code after generation.
- **Coupon Value(\$):** Set the value of this coupon code.
- **Quantity:** Set the Quantity of the coupon code
- **Expire Time:** Set the expiry time of the coupon code

The sellers can also **delete** the coupons. To do so, check the boxes for the coupons to delete and then tap the **Delete Coupons** button to delete the coupons in mass.

Coupons can also be **filtered** by entering the **Coupon Code** and selecting the **status of the coupon** to search and lastly **tapping** the **Submit** button.

## Customer Workflow – Coupon Usage

When the customer will add products to the cart and go to the shopping cart page, then they will see this page where they can apply the seller coupon codes.

The buyers will also be able to apply coupons on **multiple seller products** simultaneously.

## Admin – Seller’s Coupon Management

The admin can manage the seller’s coupon under “**Marketplace Management > Seller Coupons**” as shown below.

Here the admin can find the **used description details** regarding the coupons and can also delete the coupons as per the need. The admin can also see the status of coupons which include – **Active, Used, and Expired**.

If the coupon is used up for a purchase, then the status will reflect as **Used**. If the coupon is generated but not used and has time to expire, then the status is **Active**. The coupon that has reached its expiry time will reflect as **Expired**.

The admin can add coupons for a seller as well by clicking **Add Coupon**. Here the admin selects a seller for which coupons need to be generated and fill required details to generate coupons.
