

Seller Groups Marketplace Add-On

 webkul.com/blog/marketplace-seller-groups-magento2/

April 28, 2016

Seller Groups Marketplace Add-On allows the admin to categorize sellers into Gold, Platinum, Silver and many more groups. These Groups will restrict the seller to upload a certain amount of product to his account, e.g. it will limit the number of product upload. Admin can restrict seller/vendors based on product quantity & time.

Note – This module is an add-on of Webkul’s Multi-Vendor Marketplace Module. To use this module, you must have purchased and installed Multi-Vendor Marketplace module first.

Features

- Enable or disable seller group marketplace add-on module
- Group Payment will be done using the allowed payment methods set by the admin.
- Set default restriction for new vendors and non-group members.
- Allow/disallow sellers to create product listing by default.
- Set default number of product listing for non-group members
- Select marketplace functionalities for non-group members
- Set default product listing duration for non-group members
- Auto-disable or auto-delete seller products when the listing duration expires.
- Auto-notify sellers before listing duration expire.
- Select email templates – group fee paid, listing duration reminder, listing expired, group fee transaction success
- Display seller groups banner (with pricing & features) on the storefront with a footer link
- Set banner content, title, group color.
- Every seller can view subscribed group information from My Account section.
- An alert message is shown when the listing duration ends or seller tries to more products
- Admin can assign, re-assign, un-assign a seller from the group.
- Admin can enable or disable or make changes to a seller group.
- Select marketplace functionalities for each seller group.
- Define seller group restriction on – listing duration, product count, or both.
- Allow admin to add one-time membership groups and subscription type group.
- Recurring payment with PayPal Express Checkout is provided for seller’s payment.
- In the recurring profile, the seller has the option like Cancel, Suspend & Get update.
- Module source code is open for customization.

IPN Settings For Recurring Profile

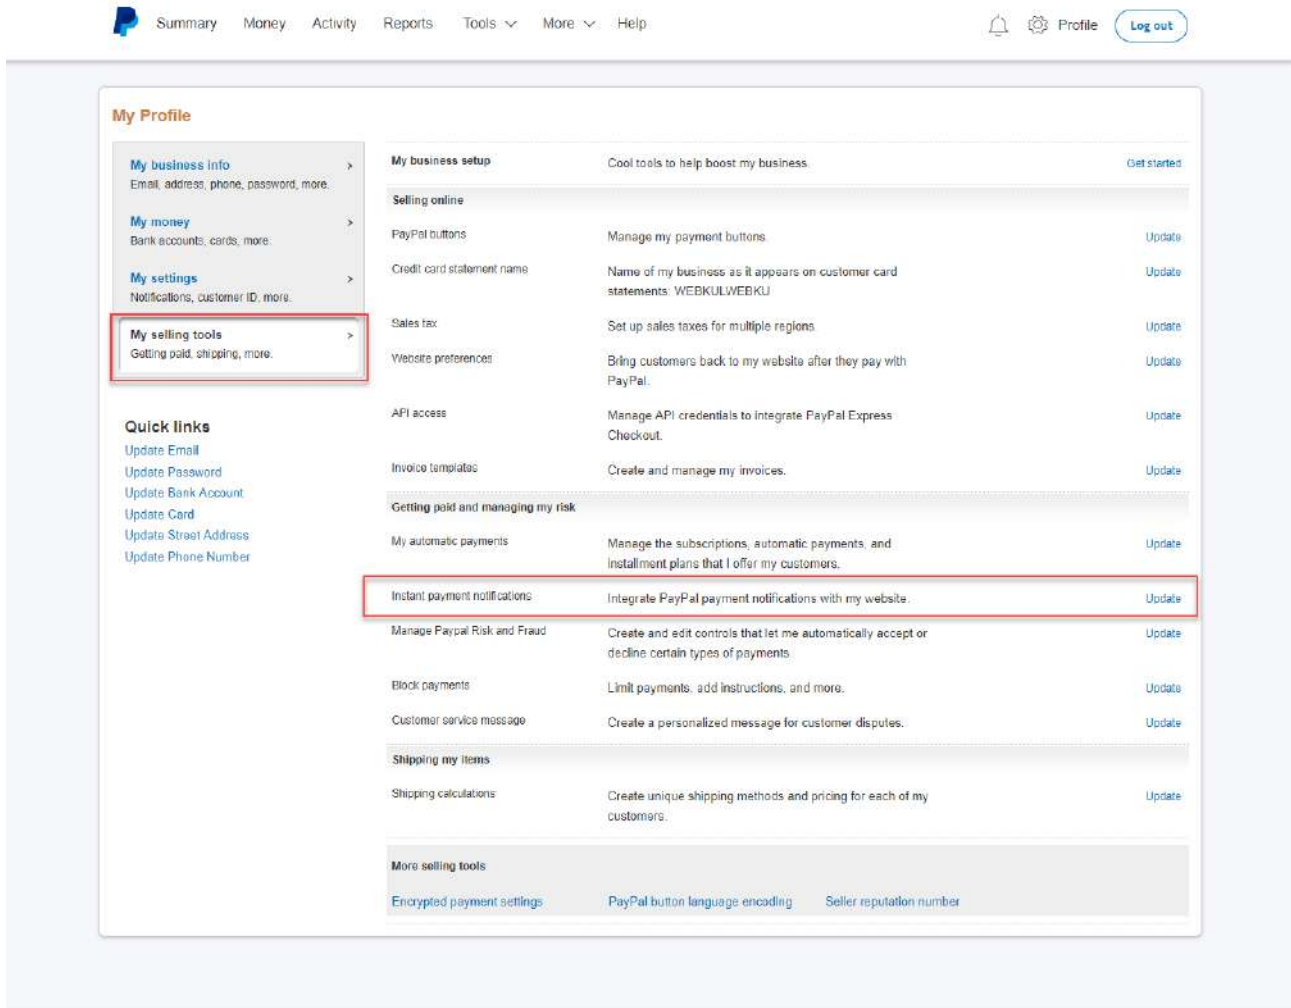

As the module support recurring profile feature, so you need to configure the “Instant Payment

Notification” settings. For this first, log in to your Paypal account.

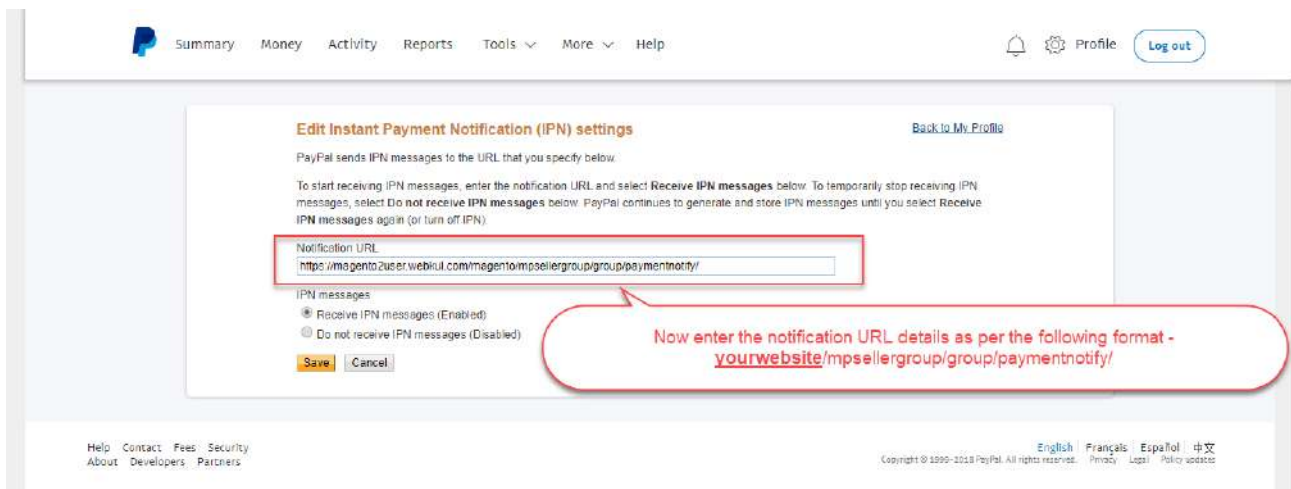

The image shows the PayPal login interface. At the top is the PayPal logo. Below it are two input fields: the first is for the email address and the second is for the password, with the password field masked by dots. A blue "Log In" button is positioned below the password field. Underneath the button is a link that says "Having trouble logging in?". Below this is a horizontal line with the word "or" centered. At the bottom is a grey "Sign Up" button.

After login, navigate to **My Profile -> My Selling Tools -> Instant Payment Notifications** and click **Update** link as shown below in the snapshot.

The user will be redirected to the **Edit Instant Payment Notification(IPN) settings** page. Here, the user will enter his **module details** like this – **yourwebsite/mpsellergroup/group/paymentnotify/** and hit the save button.

Create App

After the IPN settings, you need to create the app. For this, login [here](#). And then, navigate to **My Apps & Credentials ->Create App** as per the below image.

The screenshot shows the PayPal Developer 'My Apps & Credentials' page. The left sidebar contains navigation links: Dashboard, My Apps & Credentials (highlighted with a red box), My Account, Sandbox, Accounts, Notifications, API Calls, IPN Simulator, Webhooks Events, Mock, Webhooks Simulator, and Credit Card Generator. The main content area is titled 'My Apps & Credentials' and includes sections for 'Express Checkout via Braintree SDK - Live Account' and 'Express Checkout via Braintree SDK - Sandbox Accounts'. The 'Live Account' section shows the email 'test@webkul.com' and a 'LIVE' status. The 'Sandbox Accounts' section shows the email 'test@webkul.com' and a trash icon. A 'Generate Sandbox Access Token' button is present. A 'Create App' button is highlighted with a red box. Below the button is a table listing existing apps.

App Name	Type	Actions
dev payout	REST	
seller group recurring payment	REST	

Clicking on **Create App**, you will be redirected to the **Create New App** page.

PayPal Recurring Payment configuration

Here the admin can set the default or custom emails that will be sent to the seller at different occasions. Admin will be able to send the custom emails for – when seller buys a membership when the membership is about to expire, when the membership has expired and when the seller has made a successful transaction.

Pricing Page Settings –

The screenshot shows the Magento 2 Configuration interface. On the left is a vertical sidebar with navigation options: DASHBOARD, MARKETPLACE MANAGEMENT, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main header displays 'Configuration' and 'Store View: Default Config'. A 'Save Config' button is in the top right. The left sidebar is expanded to show 'Marketplace Seller Group Options' and 'Marketplace'. The 'Pricing Page Settings' section is highlighted with a red box and contains the following fields:

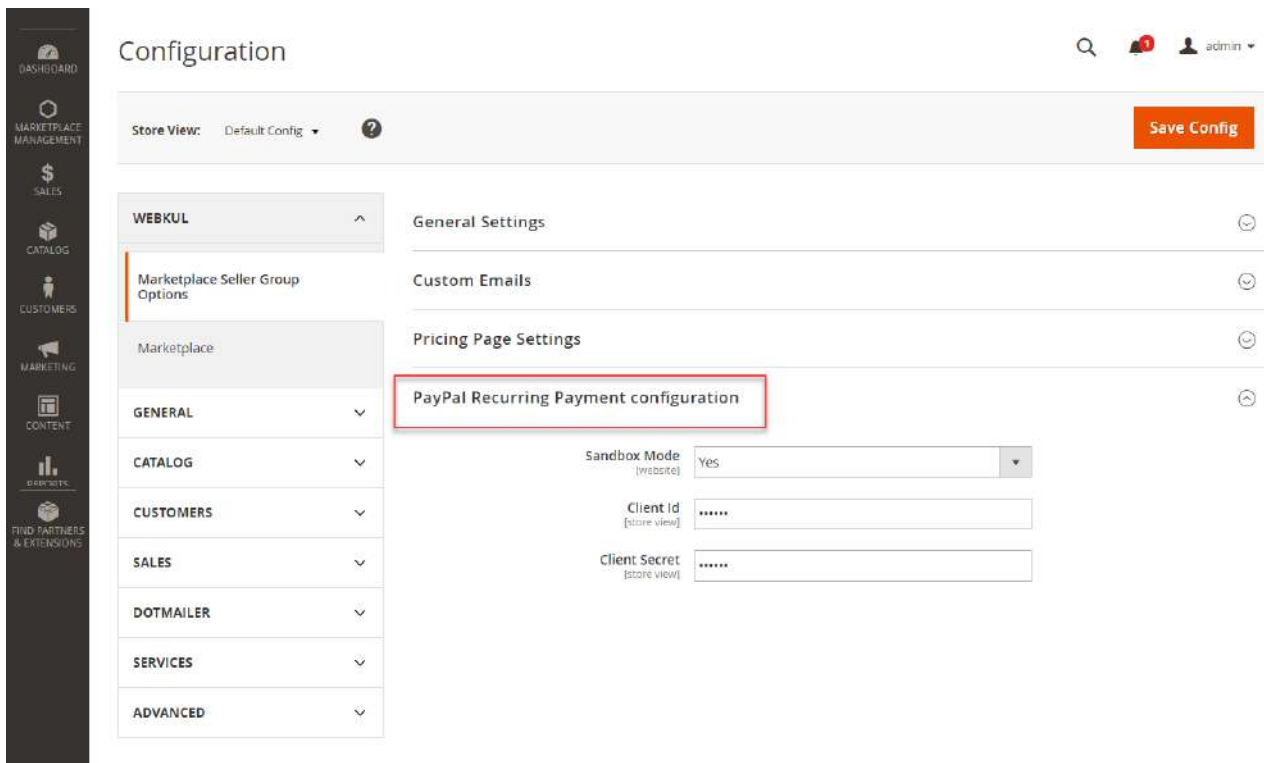

- Display Banner** (store view): A dropdown menu set to 'Yes'.
- Group Pricing Page Banner Label** (store view): A text input field containing 'Choose a plan for your business'.
- Group Pricing Page Banner Label Color** (store view): A color selection field showing a dark green swatch.
- Banner Image** (store view): A file upload area with a 'Choose File' button and a 'Delete Image' checkbox. Allowed file types are jpg, jpeg, gif, png.
- Banner Content** (store view): A text area containing 'Pricing page'.
- Banner Content Color** (store view): A color selection field showing a dark blue swatch.

Below this section is the 'PayPal Recurring Payment configuration' section, which is partially visible.

Here, the admin will:

- **Display Banner** – select “Yes” if want to display the banner else select “No” if want to hide the banner on the group pricing page.
- **Group Pricing Banner Label** – enter the banner label that will be visible on the group pricing page.
- **Group Pricing Banner Label Color** – select the color for the banner label text.
- **Banner Image** – select the banner image for the group pricing page. Also, the admin will be able to delete the banner image from here.
- **Banner Content** – enter the banner content which will be displayed over the banner image.
- **Banner Content Color** – select the color for the banner content text.

PayPal Recurring Payment Configuration –

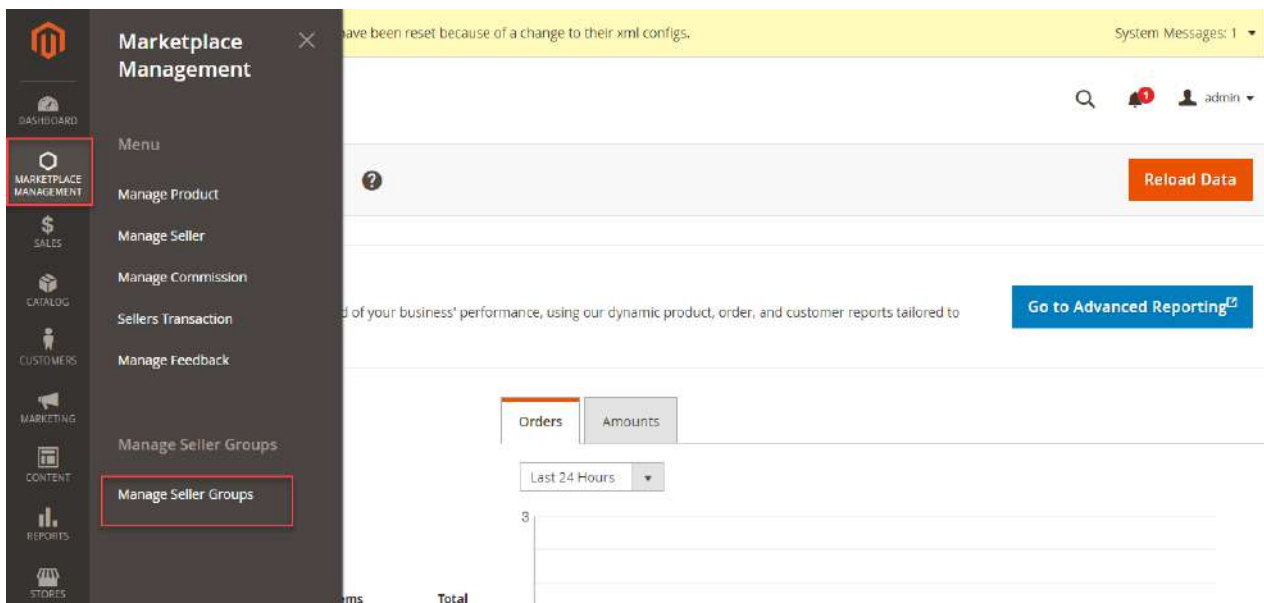

Here, the admin will:

- **Sandbox Mode** – select the **Sandbox Active** as **Yes**(Testing Mode) or **No**(Production Mode).
- **Client ID** – enter the client ID which the admin has created while creating the app.
- **Client Secret** – enter the client secret key which the admin has created while creating the app.

Admin End

After the module installation, the admin can create various seller groups. For this, the admin will navigate to **Marketplace Management -> Manage Seller Groups** as per the below image.

Clicking on **Manage Seller Groups** menu option, the admin gets navigated to the “Manage Seller Groups” page.

ID	Group Name	Group Code	Check Type	Number of products	Fee Amount	Status	Membership Type	Created	Modified	Action
1	Silver	silver	Only Time	2	\$5.00	Enabled	One Time Membership	Oct 10, 2016 9:15:09 PM	Oct 21, 2016 2:00:52 PM	Edit
2	Gold Group	gold	Only Number Of Products	10	\$10.00	Enabled	One Time Membership	Oct 4, 2016 11:25:31 PM	Oct 21, 2016 2:04:58 PM	Edit
4	Bronze	bronze	Only Time	10	\$50.00	Enabled	One Time Membership	Oct 20, 2016 12:17:00 PM	Oct 21, 2016 2:08:02 PM	Edit

Here, the admin can:

- View the complete list of seller groups.
- Delete or edit the existing seller groups.
- Add new seller groups.

Add New Group

Under this, the admin can add a new group by clicking on ‘**Add Group**’ link. For this, the admin will enter:

- **Status** – set the status of the group as enabled/disabled
- **Group Name** – the admin can enter any name he wants to give to a group.
- **Group Code** – the admin can enter the group code.
- **Check Type** – select the membership type for the sellers as follows:
 - Only Number of Products** – If the admin wants to set the restriction for the number of products that a seller can add. Then the admin can select this option.
 - Only Time** – If the admin wants to set the restriction for the time that the sellers will be able to add an unlimited number of products for the specified time in the group. After the end of subscription, the products will get disabled automatically.
 - Time & Number of Products** – If this option is selected, then the limitation will apply both time and number of products.
- **Membership Time Period** – define the membership time period.
- **Number of Products Allowed** – set a maximum number of products allowed to upload.
- **Fee Amount** – set amount for subscribing to this group.
- **Group Image** – upload the group image.
- **Allowed Account Functionalities** – set the default functionalities/account menu items that will be available for this group.
- **Sort Order** – set the sort order of this group.

- **Disable Subscription** – select 'Yes' for just allowing the seller to one-time subscription or 'No' for making the group as recurring type subscription membership

Allowed file types: jpeg, gif, png.

Allowed Account Functionalities

- My Products List
- My Customer List
- My Review List
- My Transaction List
- Manage Print PDF Header Info
- My Order History

Sort Order

Disable Subscription No

Schedule Description *

Short description of the recurring payment.

Maximum Payment Failure

The number of scheduled payments that can fail before the profile is automatically suspended.

Auto Bill on Next Cycle No

Automatically bill the outstanding balance amount in the next billing cycle (if there were failed payments).

Billing Period Unit DAY

Unit for billing during the subscription period.

Billing Frequency

Number of billing periods that make up one billing cycle.

Maximum Billing Cycles

The number of billing cycles for payment period. If Check On is set "Only Number Of Products" then billing cycle will be 1

Initial Fee

15/23

Initial non-recurring payment amount due immediately upon profile creation.

Allow Initial Fee Failure No

Whether to suspend the payment profile if the initial fee fails or add it to the outstanding balance.

If the admin has enabled the **recurring type subscription membership**, then admin will also:

- **Schedule Description:** provide the subscription description in this field.
- **Maximum Payment Failure:** set maximum payment failures allowed.
- **Auto Bill on Next Cycle:** set whether to generate auto bill on next cycle or not.
- **Billing Period-Unit:** set billing period as per Day, Month, Year, Week, Semi-month.
- **Billing Frequency:** set the number of billing period that will make up one billing cycle.
- **Maximum Billing Cycles:** set the number of billing cycles for the payment period.
Suppose, Billing period Unit is Month, Billing Frequency is 2 and Maximum Billing Cycles is 3 so it denotes the customer will be charged every second month up to 3 times (i.e. stop charging after 6 months).
- **Initial Fees:** set this one-time payment amount which is to be paid along with first cycle payment.
- **Allow Initial Fee Failure:** allow initial fee failure by selecting **Yes** else select **No**.

The admin will go to **Marketplace Management > Manage Sellers** and can assign multiple sellers to any single group.
