

# Seller Membership Marketplace Add-On

---

 [webkul.com/blog/marketplace-membership-magento2/](http://webkul.com/blog/marketplace-membership-magento2/)

On - August 3, 2016

**Seller Membership Marketplace Add-On** will allow the admin to restrict the seller by two ways-

- a) Admin can restrict sellers to pay a fee as fixed or percent for enabling each product that will be added from their account.
- b) Admin can restrict sellers to pay for becoming a seller and can also restrict them to add a limited number of products. Admin can also set sellers membership expire time.

**Note:** Marketplace Membership For Magneto2 module is an add-on of **Magento2 Marketplace** Module. To use this module you must have installed [Multi-Vendor Marketplace](#).

## Features Of Seller Membership Marketplace Add-On

- Seller needs to pay an upfront fee to become a seller or seller needs to pay for enabling each product of his account.
- Admin can set the type of fee amount as fixed or percent.
- Admin can apply the check for the vendor on -Time and Number Of Products, Only Number Of Product & Only Time.
- Admin can set the number of months for the expire time.
- PayPal API supported for membership and product upfront payment.
- Sellers can view their payment details in their account.

## Configuration & Workflow Of Seller Membership Marketplace Add-On

After the successful installation of Marketplace Membership For Magento2, you will see the configuration panel under **Stores-> Configuration->Marketplace->Marketplace Seller Membership**.

Here the admin can set the Applied fee for the **Product** as well as the **Seller/Vendor**.

### 1. Fee Applied For – Product.

**Note:** When admin selects “Product” in “Fee Applied For”, then in this case “Product Approval Required” in Marketplace Configuration should always be set to “Yes”. You can navigate to the settings by going through **Stores->Configuration->Seller Product’s Settings** as shown below.

**Marketplace**

**Seller Product's Settings**

Attribute Set ID [store view] Default

Product Approval Required [store view] Yes

Product Update Approval Required [store view] Yes

Allowed Categories for seller to add products [store view]

e.g Please enter category ids by comma(,) separated

This Option Should Be Set To "Yes" If You Are Selecting "Product" in "fee Applied For" Section.

If Admin selects "Products" in "Fee Applied For" field then configuration settings look like below screenshot.

Sellers can add products to their account, but to enable products seller needs to pay a fee for each product that has been set by the Admin. Admin can set the type of fee as fixed or percent.

**Marketplace Seller Membership**

Seller Fee

Fee Applied For [store view] Product

Select "Yes" For Test Mode Else Select "No".

Enter Admin Paypal Account Id To Receive Payments.

Enter The Fee Amount.

Select The Type Of Fee As "Fixed" or "Percent".

Select fee Applied For Product or Vendor.

If "Product" is selected in "Fee Applied For", then the seller has to pay the fee as **Fixed** or **Percentage** for **enabling** each **product** added from their account. After adding a product, the seller will find the added product listed under – **Pay Seller Fee** (Seller Fee Payment Panel). Here all the products that the seller has added to his account will be displayed. To enable the products the seller will check on the product and then click on **pay** button to pay the fee for adding each product as shown below.
