

# Product Search Marketplace Add-On

---

**Product Search Marketplace Add-On:** This extension will help the buyer to search product according to the seller. Buyer will be able to search the product on the collection page of the seller.

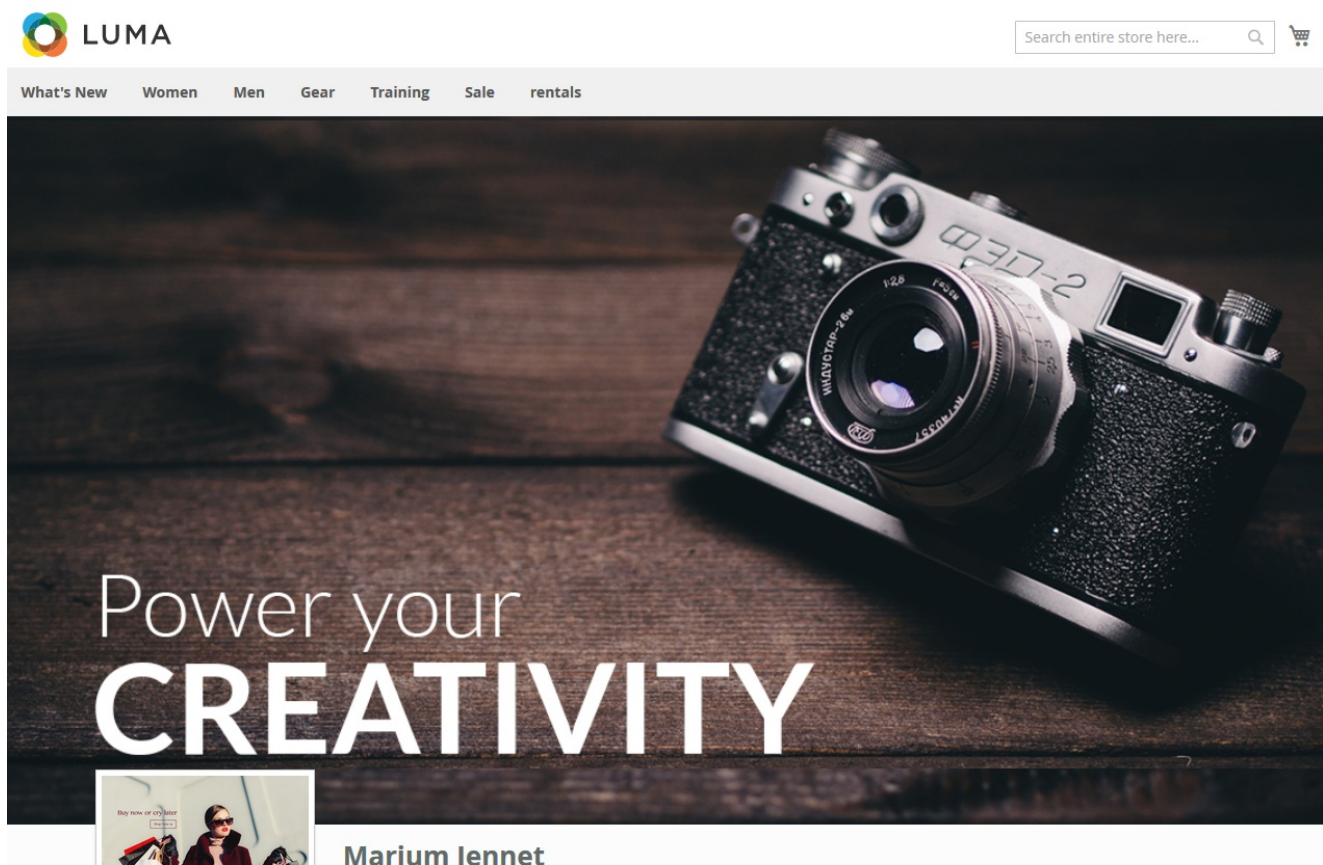

This module is an add-on of **Multi Vendor Marketplace** Module. To use this module, you must have installed first Multi Vendor Marketplace Module.

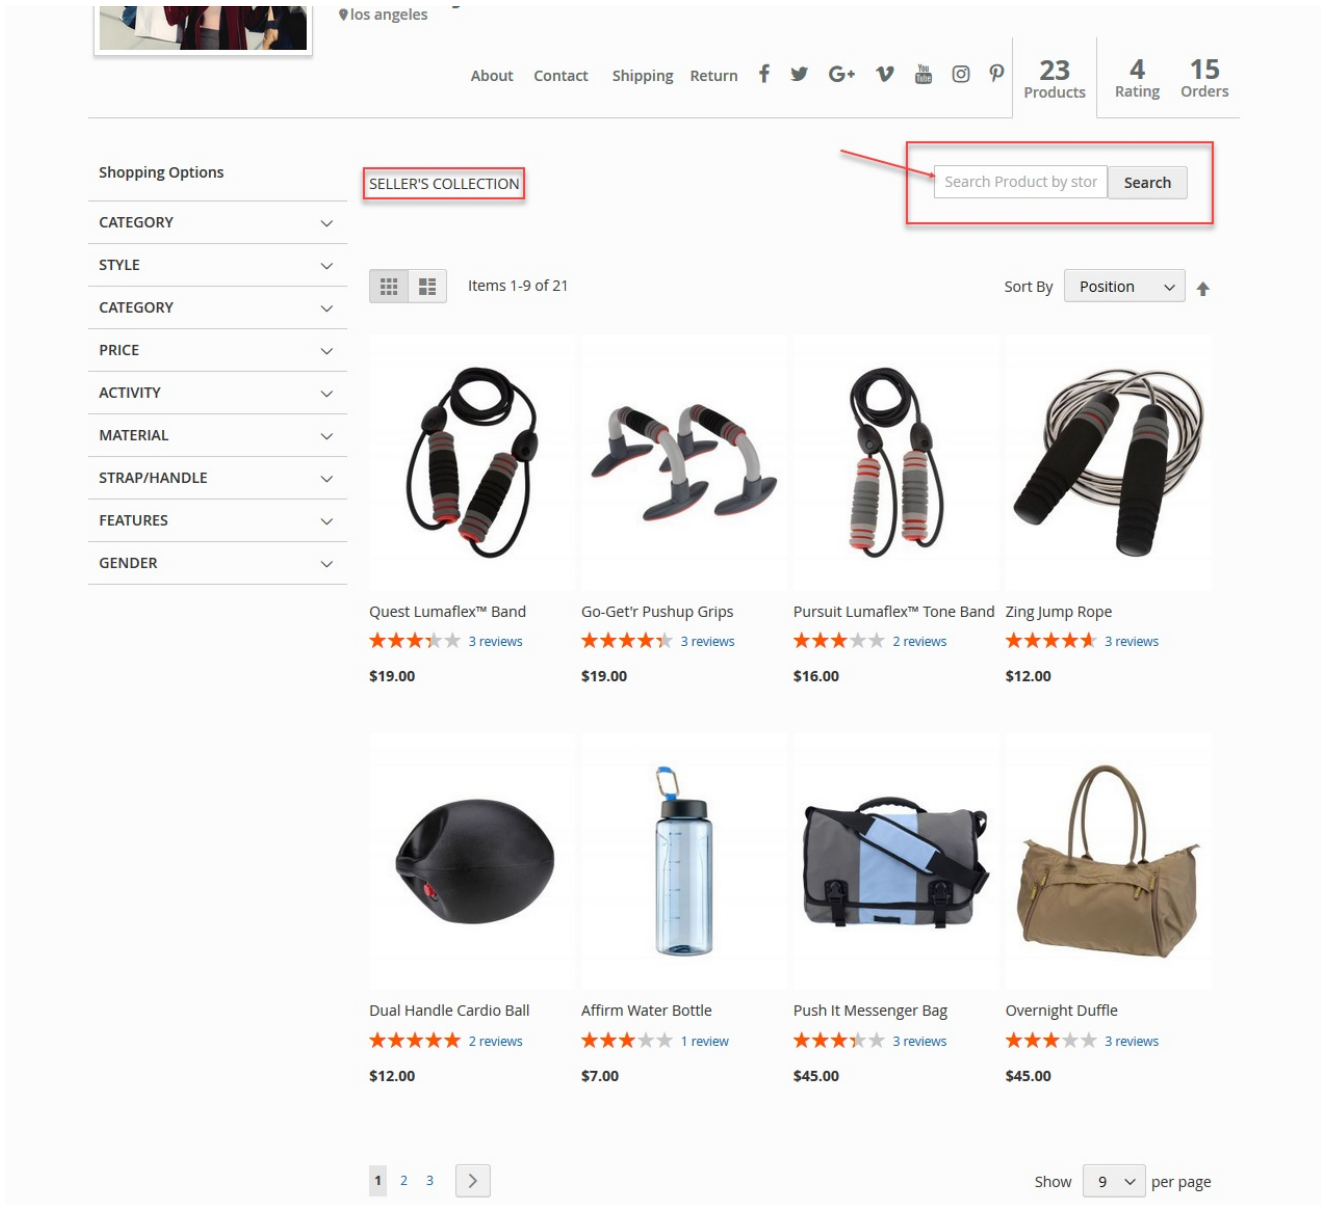

## Features

- Buyer can search product according to the seller.
- Buyer can search the product on seller's collection page.
- Buyer can search all the products of the particular seller.
- It is very fast and easy to use.

## Seller Product Search – Front End

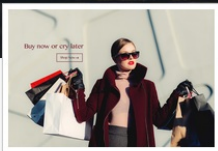

After the successful installation of the Product Search Marketplace Add-On module, you will be able to see a **search box** with “search product by store” written at the **collection page** of the seller as shown below in the snapshot.

In the above image, you can see the search box on collection page of sellers. When you type any product name it will search according to that seller's collection. It is very fast and displays the product of that seller.

**2:** You can see how this module search products according to the seller as shown in the snapshot below.
