

# Install Guide - Delivery Slot Marketplace Add-On

---

## Installation Marketplace Delivery Time Slot

Customers will get a **zip folder** then they have to extract the contents of this zip folder on their system. The extracted folder has an **src** folder, inside the src folder you have the **app** folder.

You need to transfer this **app** folder into the Magento2 root directory on the server as shown below.

After the successful installation, you have to run this command on Magento2 root directory – **“php bin/magento setup:upgrade”**.

```
php bin/magento setup:upgrade
```

Now run this command into the Magento2 Root- **“php bin/magento setup:di:compile”**.

```
php bin/magento setup:di:compile
```

lastly, run this command in the Magento2 Root- “**php bin/magento setup:static-content:deploy**”.

```
php bin/magento setup:static-content:deploy
```

After running the commands, you have to flush the cache from Magento admin panel by navigating through->**System->Cache management** as shown below.

Cache Management

System Messages: 1

<input type="checkbox"/>	Reflection Data	API interfaces reflection data.	REFLECTION	ENABLED

## Configuration For Multi-Lingual Support

For the **multilingual** support, the admin will navigate through **Store > Configuration > General > Locale Options** then select the **locale** as German (the language into which admin wants to translate his store content).

The screenshot shows the Magento 2 Configuration interface. The left sidebar contains a navigation menu with categories like DASHBOARD, MARKETPLACE MANAGEMENT, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'Configuration' and shows the 'Store View' as 'Default Config'. The 'GENERAL' section is expanded, and the 'Locale Options' section is visible. The 'Locale' dropdown is set to 'German (Germany)'. A red box highlights the 'Locale' dropdown, and a speech bubble points to it with the text: 'Here store selected locale option is German, move CSV file inside magento>app>locale>de\_DE'. Other options in the 'Locale Options' section include 'Timezone' (GMT (UTC)), 'Weight Unit' (lbs), 'First Day of Week' (Sunday), and 'Weekend Days' (Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday).

## Marketplace Delivery Time Slot Translation

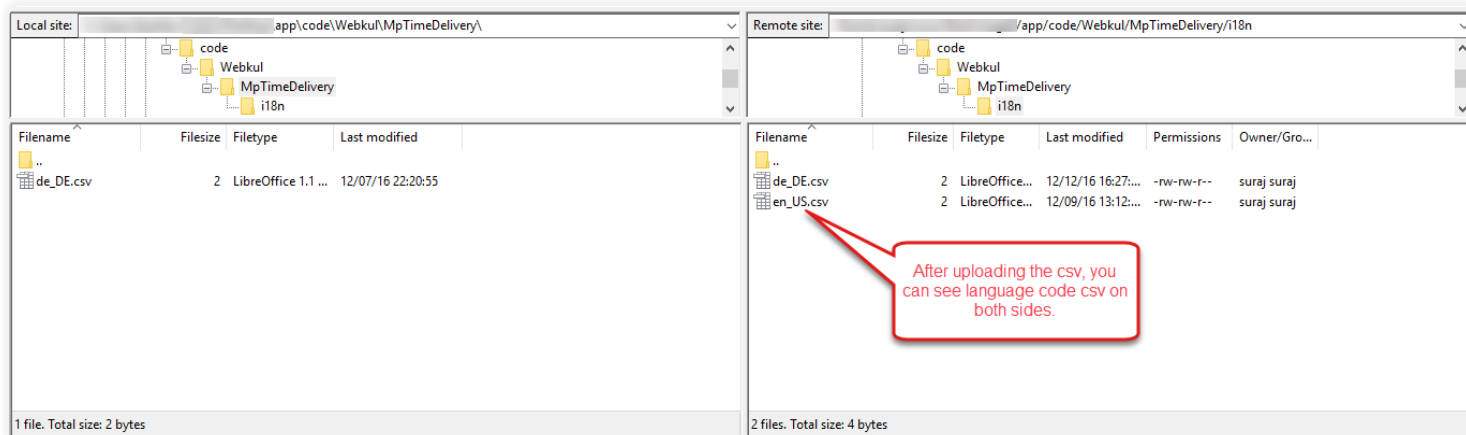

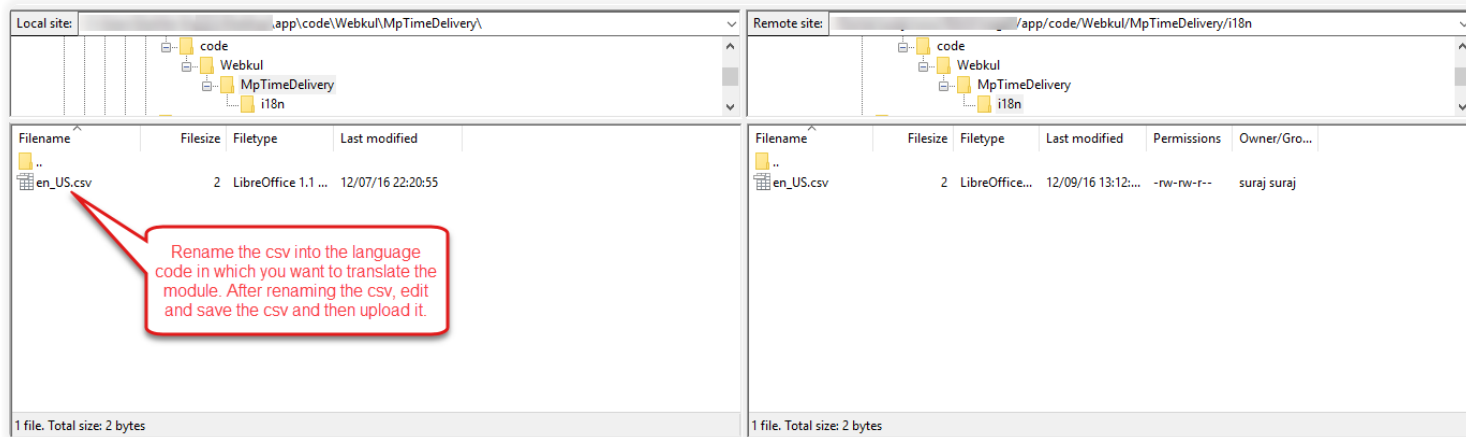

If a user wants to translate their module from English to German then they need to follow the path **app/code/Webkul/MpTimeDelivery/i18n** in their unzipped folder. Thus, they will get a CSV file with the name “en\_US.csv”.

Now rename that CSV as “de\_DE.csv” then translates all right side content after the comma in the German language.

After editing the CSV, save it and then upload it to the path **app/code/Webkul/MpTimeDelivery/i18n** where they have installed

Magento2 on the server.

The module will get translated into the German Language. It supports both **RTL** and **LTR** languages.

The user can edit the CSV like the image below.

```
1 "Time Delivery Configuration","Time Delivery Configuration"
2 "Total %1 time slot(s) saved successfully.","Total %1 time slot(s) saved successfully."
3 "Can not save the time slots","Can not save the time slots"
4 "Delivery Orders","Delivery Orders"
5 "Delivery Slots","Delivery Slots"
6 "Time Delivery Orders","Time Delivery Orders"
7 Sunday,Sunday
8 Monday,Monday
9 Tuesday,Tuesday
10 Wednesday,Wednesday
11 Thursday,Thursday
12 Friday,Friday
13 Saturday,Saturday
14 "'0' .","'0' ."
15 Admin,Admin
16 "Time Slot with id "%1" does not exist.","Time Slot with id "%1" does not exist."
17 Order,Order
18 "View Order","View Order"
19 "Select Day","Select Day"
20 "Start Time","Start Time"
21 "End Time","End Time"
22 Quotas,Quotas
23 Delete,Delete
24 "Add New Slot","Add New Slot"
25 "* Required Fields","* Required Fields"
