

Twilio SMS Marketplace Add-On V3.0.5

Installation

Step 1: Firstly, customers will get a **zip folder** and they have to extract the contents of this zip folder on their system.

Step 2: The extracted folder has an **src** folder, inside the src folder you have the **app** folder.

Also, the user needs to transfer this **app** folder into the Magento2 root directory on the server as shown below.

Step 3: Now, **run** these **commands** in the **Magento 2** root directory:

First command –

```
1 php composer require twilio/sdk
```

Second Command –

```
1 php bin/magento setup:upgrade
```

Third Command –

```
1 php bin/magento setup:di:compile
```

Fourth Command –

```
1 php bin/magento setup:static-content:deploy
```

Step 4: After running the commands, you have to flush the cache from the Magento admin panel by navigating through->**System->Cache management** as shown below.

Cache Management

System Messages: ▲ 1

Search, Notifications, User: admin

Flush Cache Storage **Flush Magento Cache**

✓ You flushed the cache storage.

Refresh Submit 12 records found

<input type="checkbox"/>	Cache Type	Description	Tags	Status
<input type="checkbox"/>	Configuration	Various XML configurations that were collected across modules and merged.	CONFIG	ENABLED
<input type="checkbox"/>	Layouts	Layout building instructions.	LAYOUT_GENERAL_CACHE_TAG	ENABLED
<input type="checkbox"/>	Blocks HTML output	Page blocks HTML.	BLOCK_HTML	ENABLED
<input type="checkbox"/>	Collections Data	Collection data files.	COLLECTION_DATA	ENABLED
<input type="checkbox"/>	Reflection Data	API interfaces reflection data.	REFLECTION	ENABLED

Thus, in this way, you can install the module.

That is all for the installation procedure of **Twilio SMS Marketplace Add-On**. Still, have any issue feel free to add a ticket and let us know your views to make the module better at webkul.uvdesk.com.
