

Print Catalog v3.0.0

March 17,
2020

Using the **Print Catalog plugin**, the webstore owner will now be able to generate and download the store product catalog as **PDF**. Apart from generating the store product catalog, the admin can **add the cover** for **catalog** as required and can **print a hard copy** of the same.

The admin can add a **single** or **multiple products** within the catalog to create and can see a **preview** from the backend even before creating the same.

A **Printed catalog** or in other words a **graphic interface** is still the main source of information to the customers letting them know what's about to come or a complete list of selective products that are about to be launched within your online store.

It's kind a handy guide for the users wherein you can setup the required details catching up the customer eye so that they are aware of what's being presented or about to be released in a brief.

Features

- The admin can generate PDF of there store catalog.
- admin can upload front and back covers for the catalog.
- Choose from 3 available layouts for the catalog.
- Select the products that admin needs to add to the catalog.
- The admin can edit the front and back cover pages.
- View the preview of cover and page layouts.
- Choose the associated products of the configurable, grouped, bundle products for creating the product catalog.

Initial Configuration

After the successful installation, the admin will navigate through **Stores->Configuration->Webkul->Catalog Print** to configure the initial module settings.

Before using the plugin, the admin will make few initial configuration settings wherein the admin will be able to –

- **Enable** the plugin by choosing the option as a **Yes** or **Disable** by selecting a **No**
- **Choose** the **product Attributes** that will be the **default ones** if the admin **forgets** to add them while creating a new catalog(Priority is always given to the catalog selected attributes that are to be displayed)
- **Choose** the **page size**(paper size)for **printing** as **A4** or **A3** as required
- **Upload** the **default image** which is used in place of the product image within the catalog for the products that do not have an image

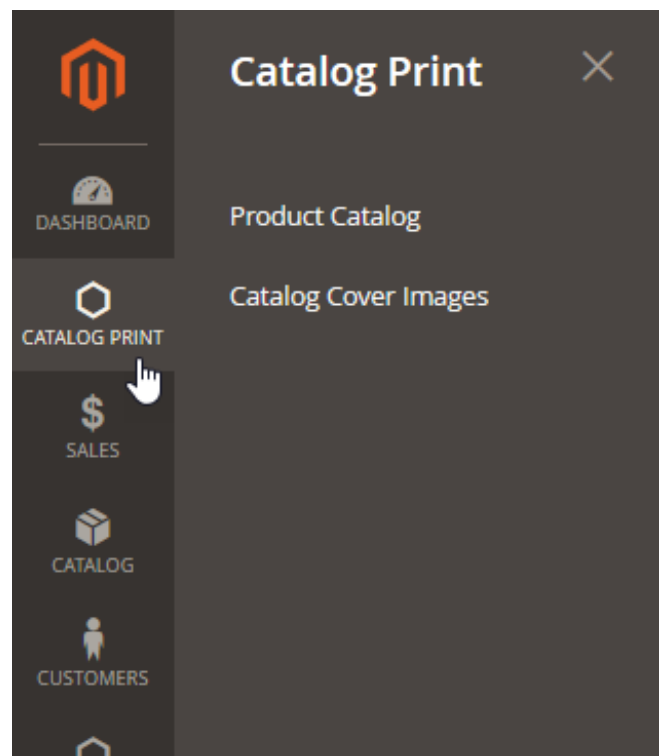

lastly, tap the **Save Configuration** button to save the initial configuration settings.

Catalog Print – Available Sub-Options

On the admin’s side panel the **Catalog Print** menu option can be seen. Here, the admin has two sub-menu options.

Catalog Print –

- Product Catalog
- Catalog Cover Images

Creating – Catalog Cover Images

Under this section, the admin can add new covers for the catalog to create and can find the list of already created ones. The admin can also delete the created covers and filter the covers by using -ID, Date, and Cover Name.

A screenshot of the 'Catalog Covers' page in the Magento Admin. The page shows a list of three catalog covers with columns for ID, Cover Name, Front Cover, Back Cover, Page Background Image, Date, and Actions. The 'Add New Covers' button is visible in the top right. The sidebar on the left shows the 'Catalog Print' menu item selected.

Add/Create a New Cover

To add a new cover, **tap** the **Add New Covers** button to bring in the section to create a new one.

The screenshot shows the 'New Cover Images' form in the Magento admin interface. On the left is a vertical sidebar with navigation icons for Dashboard, Catalog Print, Sales, Catalog, Customers, Demo Management, Marketing, Content, and Reports. The main content area has a header 'New Cover Images' with a search icon, a notification bell, and a user profile 'demo'. Below the header is a light gray bar with 'Back', 'Reset', and 'Save' buttons. The form itself contains three sections: 'Cover Name' with a text input field containing 'Limited Edition Plugins For Your eStore'; 'Front Cover' with an 'Upload' button and a placeholder image labeled 'front-cover-image_1.... 619x870'; 'Back Cover' with an 'Upload' button and a placeholder image labeled 'front-cover-image_2.... 619x870'; and 'Page Background Image' with an 'Upload' button and a placeholder image labeled 'page-background_1.... 619x870'. Each image placeholder has a trash icon in the bottom left corner. The footer of the page includes the Magento logo, copyright notice 'Copyright © 2020 Magento Commerce Inc. All rights reserved.', the version 'Magento ver. 2.3.4', and links for 'Privacy Policy', 'Account Activity', and 'Report an Issue'.

Here, the admin will be able to –

- **Enter** the **Name** for the **Cover** to create
- **Upload** the **Front cover image** for the **catalog**
- **Add a back cover** image for the **catalog**
- Add a **Page Background** Image

Lastly, tap the **Save** button to save the new cover and is available under the **Catalog Cover** section thereafter for use.

The screenshot shows the 'Add New Covers' interface. At the top right is an 'Add New Covers' button. Below it is a table with 4 records. The table has columns: ID, Cover Name, Front Cover, Back Cover, Page Background Image, Date, and Actions. Each row has an 'Edit' button in the Actions column.

ID	Cover Name	Front Cover	Back Cover	Page Background Image	Date	Actions
1	Fresh Launch Product Covers				Mar 17, 2020 8:51:56 PM	Edit
2	Initial Release Preview Cover				Mar 17, 2020 8:55:32 PM	Edit
3	New Product Catalog				Mar 17, 2020 8:55:59 PM	Edit
4	Limited Edition Plugins For Your eStore				Mar 17, 2020 7:03:46 PM	Edit

The admin can also **edit** the created catalog cover by tapping the **Edit** button under the **Actions** column on the right-hand side.

The screenshot shows the 'Edit Cover Images' form. It has a 'Cover Name' field with the value 'Limited Edition Plugins For Your eStore'. Below it are 'Front Cover' and 'Back Cover' sections, each with an 'Upload' button and a preview image. At the top right are 'Back', 'Reset', and 'Save' buttons.

Edit Cover Images

Cover Name * Limited Edition Plugins For Your eStore

Front Cover * Upload

front-cover-image_1....
619x870

Back Cover * Upload

Back Reset Save

After making the changes, tap the **Save** button at the top right-hand side to save the changes.

Creating – Product Catalog

Under the **Product Catalog** section, the admin can **create multiple number of product catalogs** as required. Apart from that, the admin can also find all of the created product catalogs, edit them, and can download the PDF as well.

Here, the admin under the different sections will setup the product catalog options which includes –

General Settings

Enter a **Catalog Name** that lets know which catalog we have created for easy recognition under the product catalog list.

Cover Settings

From the **Covers** drop-down option select a **cover** from the **list of already created ones**.

Covers *

Select Covers

Select Covers

Fresh Launch Product Covers

Initial Release Preview Cover

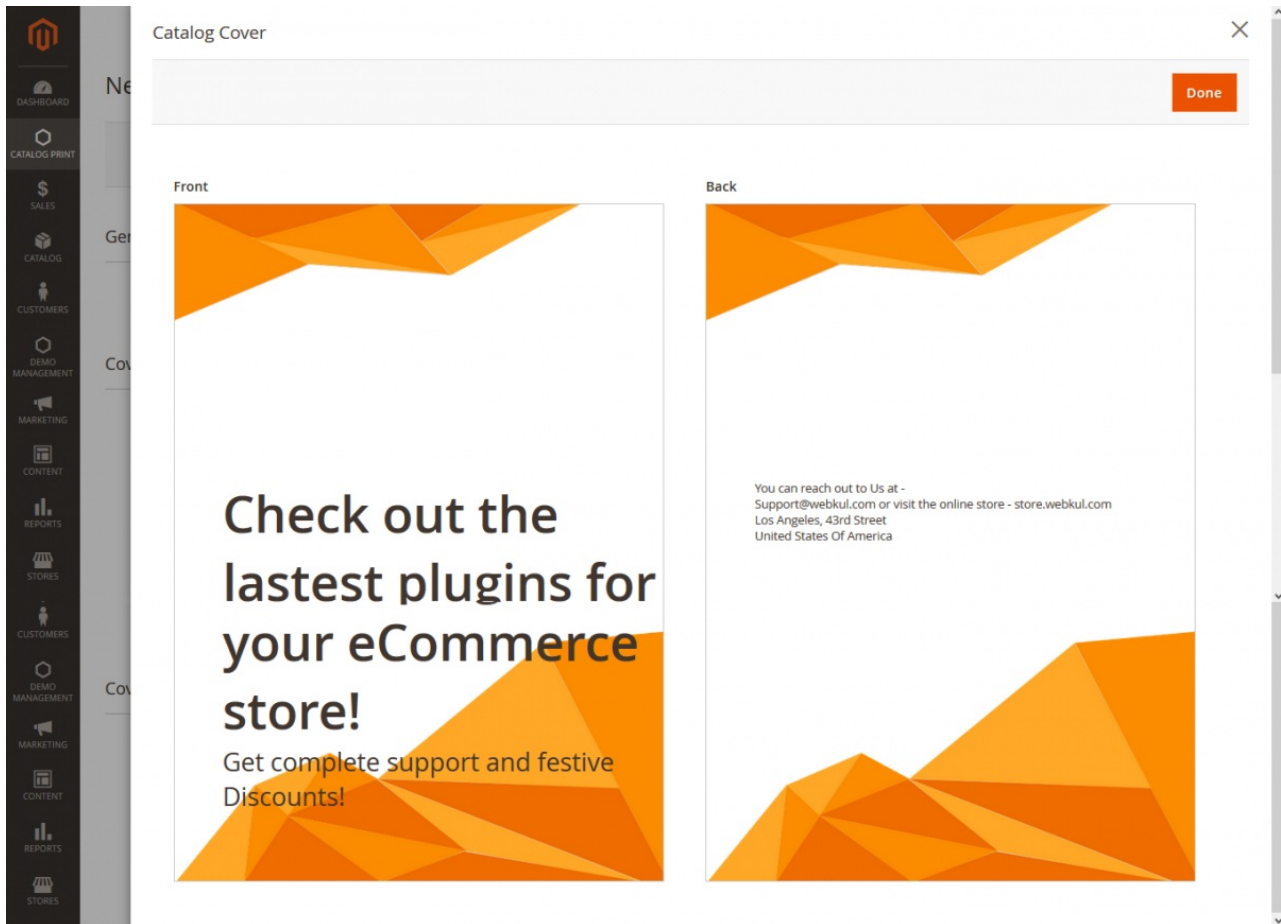

New Product Catalog

Limited Edition Plugins For Your eStore

Cover Title *

Sub-Title

Here, the admin can also tap the **Layout Preview** link to the right of the Covers drop-down option to preview the cover.

Entered **Front Cover Title, and Sub-Title** are visible to the admin in the preview as well under the front cover.

Enter the **Back Cover Title** along with the **content** you want to **display** within the **Lines 1, 2, and 3**. This gets visible on the **Back Cover** as shown in the snapshot above.

Page layout

Here, the admin can **choose the page layout** from the **3 available layouts** that allows the admin to display the selected products as 1, 2 or 4 items per page.

For now, we have **chosen 2 items per page** as shown below in the snapshot. The **page layout** also displays the **page background image** that the admin had **uploaded** while creating the **cover**.
