

Vendor Invitation Marketplace Add-On V5.0.0

Introduction

Adobe Commerce module seller invitation extension focuses on the genuine registration of the seller. It helps to maintain the record of which seller is registered in the store.

This extension is also useful for customized emails for the seller and maintaining the link expiry.

Note :- For Marketplace seller invitation, you need [Multi-Vendor Module](#).

Feature Of Seller Invitation

The store owner can send the link for inviting the seller.

The e-Mail will be sent to the seller for the invitation.

Only one seller can register with one invite link.

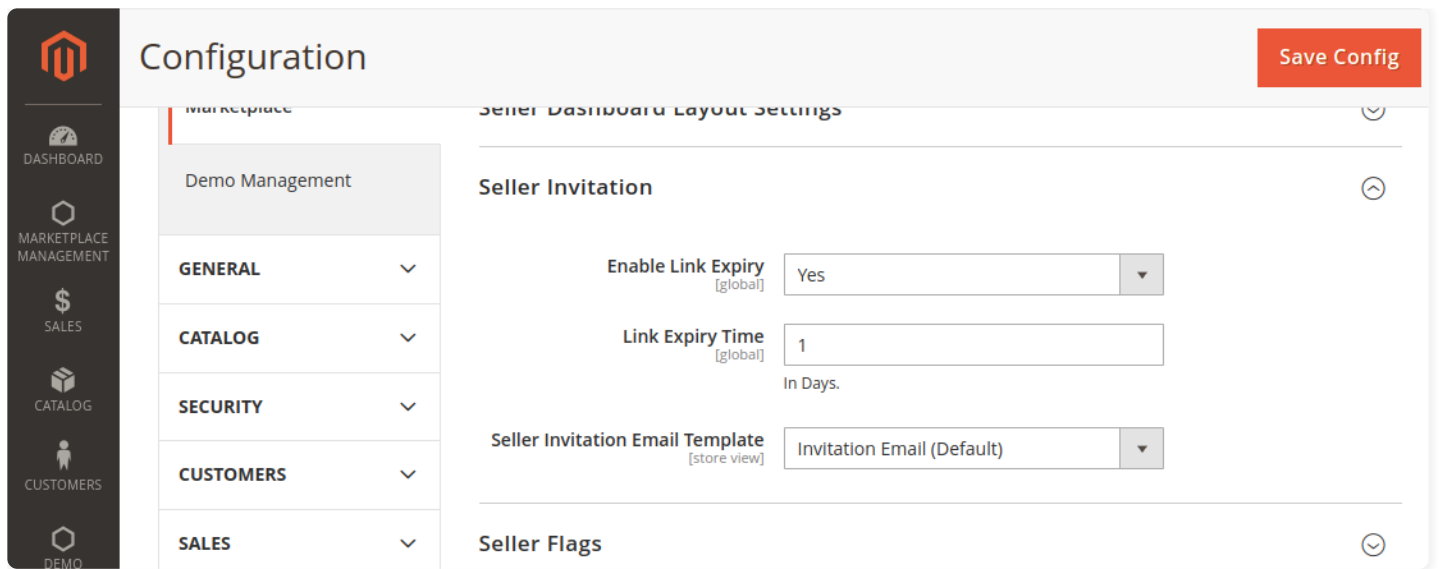

Admin can check all invited lists.

Admin can enable or disable the link expiration feature.

Module Configuration:- Seller Invitation

Before inviting any seller the admin can set the following fields of seller invitation.

Go to store> configuration> marketplace> seller invitation.

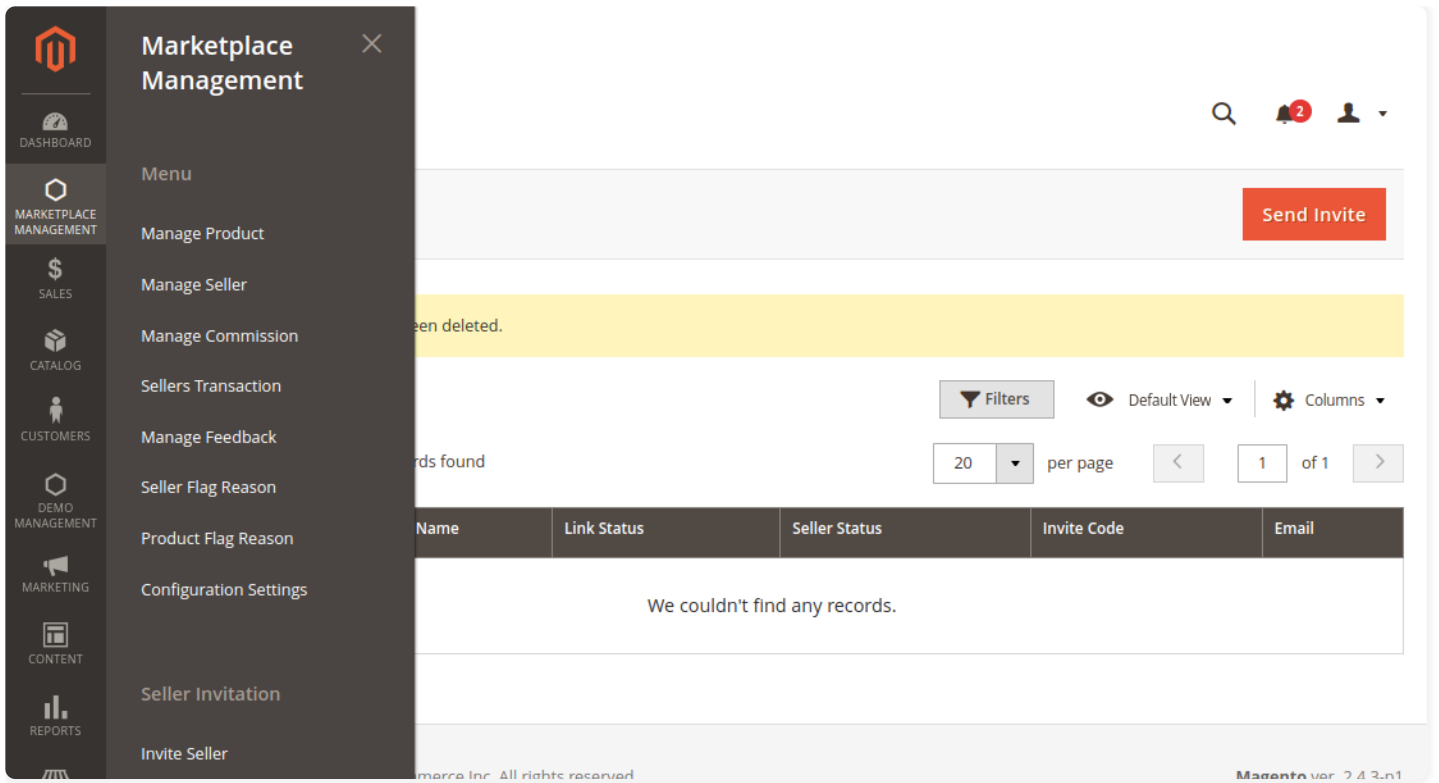

Enable link expiry: The admin can select the link to get expire or not. He can select yes or no.

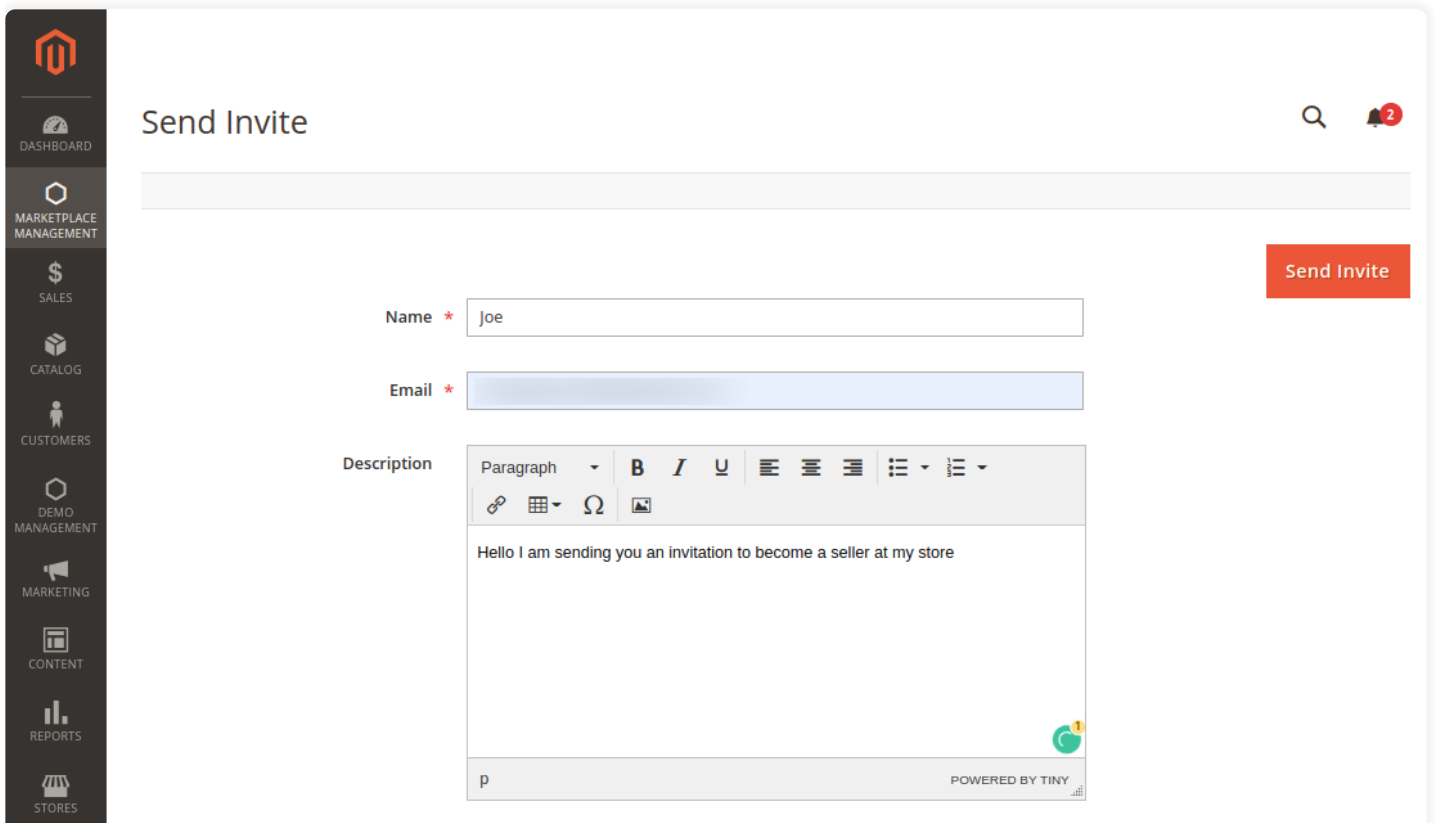

Link expiry time: The admin will enter the number of days after which the link will expire.

Seller invitation email template: The admin can select the email template that he wants to send to the seller.

The admin can invite the seller to the store by their email id. This can be done by the following steps. Go to marketplace management>invite seller.

After clicking on send invite the page will open as shown in the below image. Here the email id and name of the seller will be filled by the admin along with the description. Then click on send invite button. Then the invitation will be sent successfully.

After that, the popup will be visible *“invitation sent successfully.”*
