

Multi Warehouse Inventory Dropship Marketplace Add-On V3.0.0

Multi Warehouse Inventory Dropship Marketplace Add-On– Within this extension, the admin will be able to create and manage all the warehouses.

Thus, allowing the admin can add/edit or delete a warehouse as required. Moreover, the admin can add the shipping rules for the various warehouses using the CSV file.

The vendors will be able to assign their products to various multiple warehouses under their own account panel by editing their products.

When the customer places an order the order is assigned to the nearest warehouse. However, the warehouse manager has the authority to ship the products to the customers shipping address.

So, the warehouse managers can also add their shipping rules for their own warehouse.

Note: This extension is an **add-on** to the **Multi-Vendor Marketplace**. To make use of this extension, you must have first installed the Webkul's [Webkul's Multi-Vendor Marketplace](#).

Features

- Admin can add warehouses.

- Assign/unassign a single product to multiple warehouses.

- Admin can create, delete, and assign Shipping Rule(Table rate shipping) to various warehouses.

- Shipping calculated from the Warehouse location.

- Warehouse Manager can manage shipments for his orders after admin approval.

The warehouse manager will be able to add and delete the shipping rules for his warehouse.

The buyer can select the shipping method according to Warehouse in the same order.

Shipping will be calculated according to the warehouse.

The vendor can assign Warehouse during add a new product.

How To Get The Google API Keys

The admin needs to get the Google Maps API key to address auto-complete to work.

Please visit the following link for getting the [API](#) Key. Log into your Google account and then click GET A KEY button as visible below:

The screenshot shows the Google Maps JavaScript API documentation page for getting an API key. The page has a blue header with navigation links like 'Home', 'Documentation', and 'Pricing and Plans'. Below the header, there's a blue bar with 'Web > Maps JavaScript API' and buttons for 'GET A KEY' and 'VIEW PRICING AND PLANS'. The main content area is titled 'Get API Key' and includes a star rating. The text explains that to use the API, one must register an app project on the Google API Console and get a key. A 'Quick guide to getting a key' section follows, with 'Step 1: Get an API Key from the Google API Console' highlighted. Below this, there's a 'GET A KEY' button and a red callout bubble with the text 'Click Here'. The page also has a left sidebar with 'Get Started' and 'Tutorials' sections, and a right sidebar with 'Contents'.

A pop-up window will appear, to enable the platform and select the checkbox as required.

Enable Google Maps Platform

To enable APIs or set up billing, we'll guide you through a few tasks:

1. Pick product(s) below
2. Select a project
3. Set up your billing

Maps

Build customized map experiences that bring the real world to your users.

After a few seconds, the API Key will be generated. Copy the API key, it will be used at the time of the widget configuration.

Multi Vendor Dropship Configuration

After the successful installation of the extension, the admin will configure the module for use. To do so, navigate to **Stores>Configuration>Webkul>Vendor Dropship Manager**.

Here, the admin has **2** settings to configure –

1. General Settings

Enter the **Name** of the Store Owner.

Enter the **Email** address of the store.

Set the default **Quantity** for the products when assigned to a warehouse.

Set to **Assign Warehouse** as – **Auto** or **Manual**.

Enter the **Google API key** for the Maps.

In Auto –

At the time of checkout, the customers will find the **Dropshipping method**. While placing the order, the nearest warehouse will be assigned where the product is

available.

In Manual –

The customers will only find the **default shipping** methods.

After placing the order using the available shipping method, the admin will need to assign the nearest warehouse manually where the product is available.

2. Vendor Dropship Transactional Emails

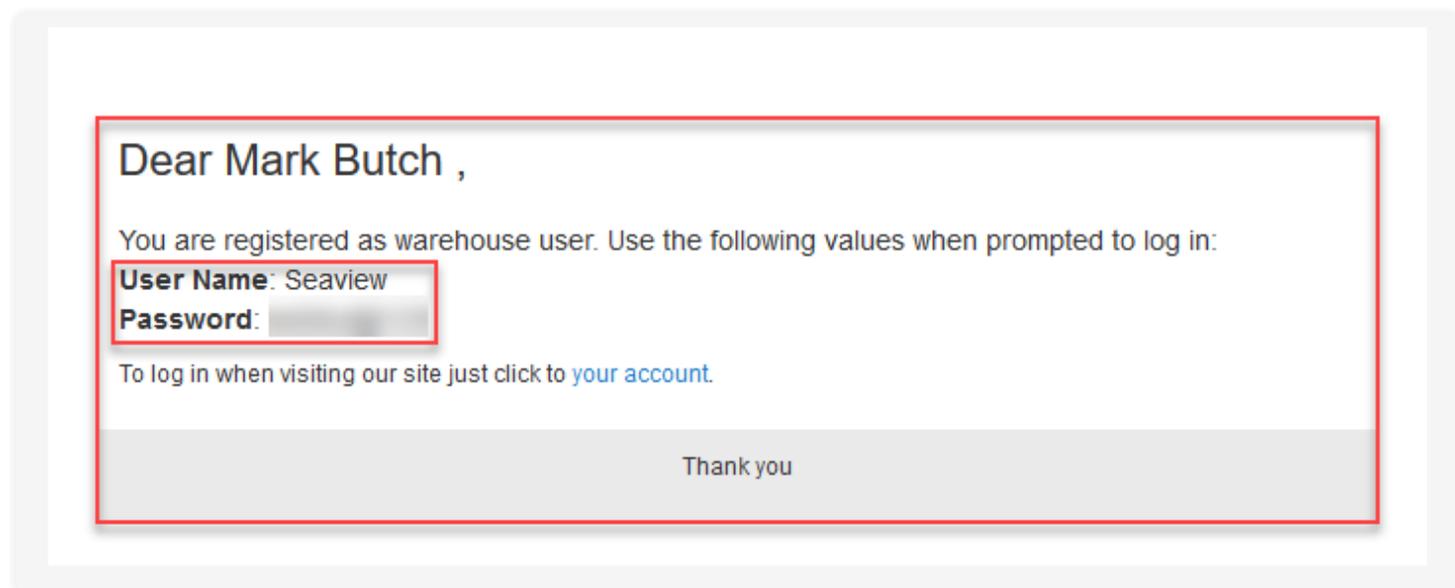

Set **Yes** to show the price details in Order Approval mail else select **No** to hide the price.

Select the **Order Approve** email template for the **warehouse**.

Select the new account to create an email to the warehouse user.

Lastly, click the **Save Configuration** button to save the changes.

New warehouse registration mail to warehouse:

Vendor Dropship: Shipping Method Configuration Settings

Meanwhile, the admin can configure the settings for Vendor Dropship by navigating through **Stores > Configuration > Sales > Shipping Method > Vendor Dropship**, as shown in the image below.

The admin can set the configurations under **Vendor dropship** as follows:

Enabled for Checkout: The admin can choose to display the shipping method at the checkout by enabling it.

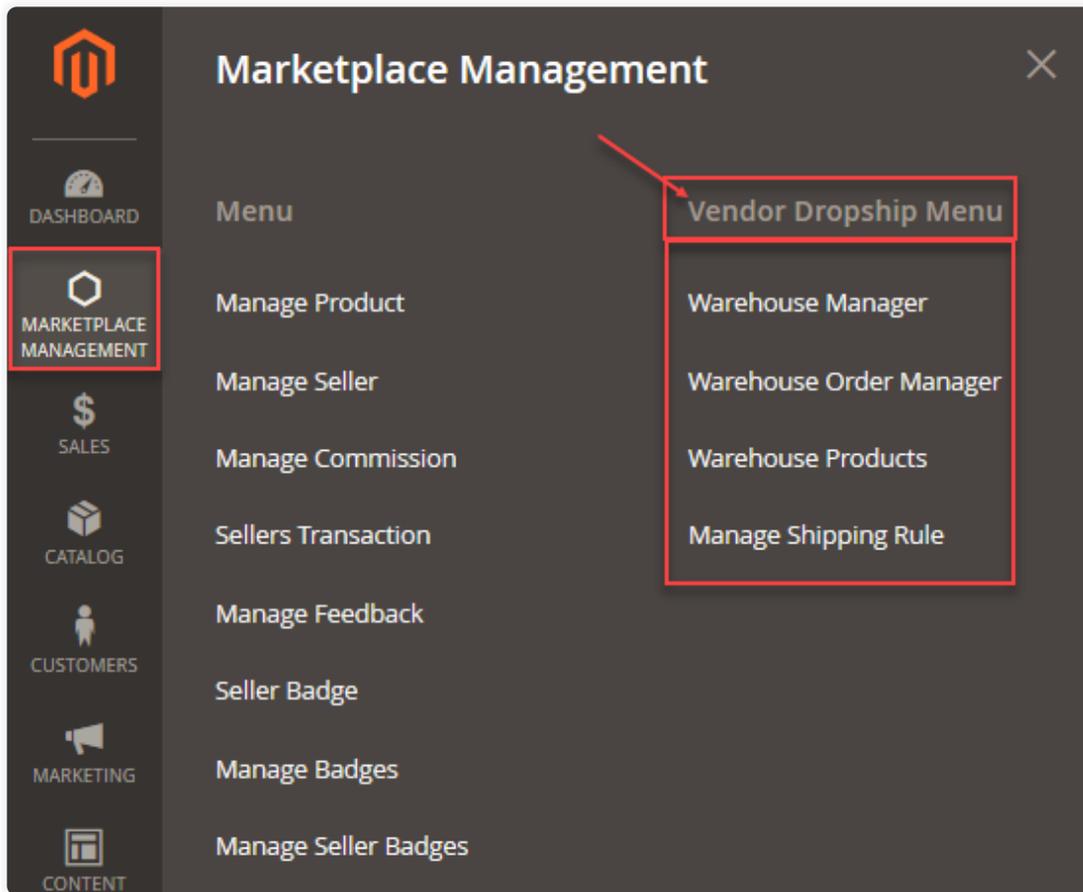

Title: Set the Title of the shipping method that will display at the checkout page.

Show Method if not Applicable: The admin set this as No or Yes, as need be.

Displayed Error Message: The admin can choose to display an error message when shipping method is unavailable.

Admin Management In Multi Vendor Dropship

After the successful installation, the admin a new menu option under **Marketplace Management**>**Vendor Dropship Menu** as shown below in the snapshot.

Let's check each of the **menu options** available to the admin under the **Vendor Dropship Menu** –

Warehouse Manager

Under here, the admin will be able to see(if it's not the first time) all of the created warehouses.

The admin can add a new one and can edit the warehouse information accordingly.

Apart from that, the admin can find the info. related to the various warehouses like – **Warehouse Title, User Name, Description, Status, and Action**(to edit the warehouse).

<input type="checkbox"/>	5		Rival Field Messenger	24-MB06	Simple Product		Edit

Actions dropdown menu:

- Assign Warehouse
- Unassign Warehouse

After this, **select the warehouse** where you want to **assign the product**.

The screenshot shows the 'Add Products To Warehouse' interface. On the left is a navigation sidebar with icons for Dashboard, Marketplace Management, Sales, Catalog, Customers, Demo Management, Marketing, Content, and Reports. The main area has a search bar, a notification bell with '23', and a user profile 'admin'. Below these are 'Filters' and 'Default View' options. A table lists products with columns for 'Actions', 'Skus', 'Type', 'Warehouse', and 'Action'. The table shows 2048 records found, with 1 selected. A dropdown menu is open over the 'Actions' column, showing 'Assign Warehouse' (selected), 'Unassign Warehouse', and a list of warehouses: Warehouse_1, Warehouse_2, and Warehouse_3. The table rows include:

Actions	Skus	Type	Warehouse	Action
<input type="checkbox"/>	24-MB01	Simple Product	Warehouse_1, Warehouse_3	Edit
<input type="checkbox"/>	24-MB04	Simple Product	Warehouse_2, Warehouse_3	Edit
<input checked="" type="checkbox"/>	24-MB03	Simple Product		Edit
<input type="checkbox"/>	24-MB05	Simple Product		Edit
<input type="checkbox"/>	24-MB06	Simple Product		Edit

A pop-up will appear, click **Ok** to assign/unassign the product to the selected warehouse.

The screenshot shows the same 'Add Products To Warehouse' interface as above, but with a confirmation dialog box overlaid. The dialog box is titled 'Assign Warehouse' and contains the text: 'Are you sure to assign selected products to new warehouse? (1 record)'. It has two buttons: 'Cancel' and 'OK'. The background interface is dimmed.

Manage Shipping Rules

Under this section, the admin will be able to create/delete the shipping rules for the various created warehouses.

Manage Shipping Rule

3 records found

Warehouse	Country Code	Postal Code From	Postal Code To	Weight From	Weight To	Cost
Pete	US	*	*	11.0000	50.0000	\$20.00
Mriansa	US	*	*	0.0000	50.0000	\$5.00
Radison	IN	*	*	0.0000	50.0000	\$5.00

Add Shipping Rule:

To add a new **Shipping Rule** for a warehouse, click the **Add New Shipping Rules** button. This brings up the section to import the shipping rules.
