

# Multi Vendor Distance Based Shipping V5.0.0

---

**Multi Vendor Distance Based Shipping** extension allows the sellers and the store admin to create custom shipping methods and charge freight rates based on the distance units. Using Google Maps, the distance is measured and shipping cost is calculated unit wise.

This module also facilitates the Admin to set distance calculations based on “Google Map Distance Matrix” or “Latitude Longitude”.

- This module is an **add-on** of **Webkul’s Marketplace Module**. To use this module, you must have purchased and installed [Multi Vendor Marketplace](#) first.

## Features

Admin can Enable/Disable the Shipping Method

Admin can provide Distance Rate Shipping method for their Products

The seller can set Maximum Area to Cover

Admin can set Shipping Origin Address based on which the calculation will be done

Admin can set Shipping Rate per Unit Distance

The seller can set their Shipping Origin Address based on which the calculation will be done

Admin can add Handling Charge, Minimum Charge

Admin can set Maximum Area to Cover

The seller can provide Distance Rate Shipping method for their Products

Admin can add whether to apply shipping item wise

Admin can set Custom Error Message to display if shipping not applicable

The seller can add Handling Charge, Minimum Charge.

Admin can enable to Display Estimate Shipping Rate on Product pages

Admin can set distance calculation based on “Google Map Distance Matrix” or “Latitude Longitude”

The seller can set Shipping Rate per Unit Distance

The seller can add whether to apply shipping item wise

The Distance Unit can be in Kilometer or Mile which can be set by Seller or Admin

Both admin and seller can upload the CSV in order to add the shipping rule.

## How To Get Google API Key

The admin needs to get the Google Maps API key for the address auto-complete to work. Please visit the following link for getting the API Key. Log into your Google account and then click the GET A KEY button is visible below:

The screenshot shows the Google Maps APIs documentation page for getting an API key. The page has a blue header with navigation links: Home, Documentation, Pricing and Plans, and a search bar. Below the header, there are buttons for 'GET A KEY' and 'VIEW PRICING AND PLANS'. The main content area is titled 'Get API Key' and includes a 'Quick guide to getting a key' section. A red box highlights the 'GET A KEY' button, with a red callout bubble pointing to it that says 'Click Here'. The page also features a sidebar with 'Get Started' and 'Tutorials' sections, and a 'Contents' section on the right.

A pop-up window will appear, **Create Project** and give any name to it. Then, click **ENABLE API**.

After a few seconds, the API Key will be generated. Copy the API key, it will be used at the time of module configuration.

## Admin Configurations

After the successful installation, the admin will navigate through **Marketplace Management > Marketplace Distance Rate Shipping** to configure the initial module settings.

The screenshot shows the 'Configuration' page for 'Marketplace Distance Rate Shipping'. The left sidebar has a 'STORES' icon highlighted in red. The main configuration area includes the following fields:

- Enable** [website]: Yes
- Google Api Key (with Distance Matrix API and Geocoding API support)** [website]: .....  
Enter the Google Map API Key with Distance Matrix API and Geocoding API support.
- Google Api Key (with Maps Javascript API support)** [website]: .....  
Enter the Google Map API Key with Maps Javascript API support.
- Admin Location** [website]: Webkul - ARV Park Branch, H Block, Sector 63, Noida, Uttar  
Please enter Google Map Api and save to make it work
- Admin Latitude** [website]: 28.62961
- Admin Longitude** [website]: 77.37854
- Show estimate on product page?** [website]: Yes
- Calculate Distance Based On** [website]: Google Map Distance  
If distance not found then "Latitude and Longitude" will be used

**Enable:** The Admin can select Yes to enable the module.

**Google Map API Key:** Enter the above generated Google Maps API Key here.

**The Admin Location:** Here, the Admin can enter the location of the store.

**Admin Latitude:** The latitude of the admin's location will be automatically entered once the location is entered.

**Admin Longitude:** Also, the longitude will be automatically set according to the entered location.

**Show Estimate on Product Page:** If set Yes then this will show the estimate shipping charges on the product page.

**Calculate Distance Based On:** The Admin can calculate shipping distance by either selecting "Google Map Distance" or "Latitude and Longitude"

## Distance Rate Shipping Configurations

There are a few of the other configurations as well. The admin can configure further configurations by navigating through **Stores-> Configuration-> Sales-> Shipping Methods-> Distance Rate Shipping.**

This shipping method is currently unavailable. If you would like to ship using this shipping method, please contact us.

**Enabled for Checkout:** If set yes then the Distance Rate Shipping will be visible at checkout.

**Title:** Enter the Title of the shipping method that will display to the customers on the website front-end.

**Method Name:** Also, the method name entered will display to the customers on the website front-end.

**Rate Per Unit:** Enter the shipping charges applied on the basis of per unit, set. For example, if the rate per unit is set 50 and the unit set is kilometers and if any customer orders a product within a 1kilometer range then shipping charges will be 50.

**Maximum Area Cover:** Here, enter the maximum area to cover for a distance rate shipping.

**Item Wise Rate:** If set Yes then the shipping charges will be calculated based on per product. The shipping amount will be multiplied by the number of products ordered.

**Handling Charges:** Enter the handling charges.

**Minimum Charge:** Set the minimum charge. If shipping charges calculated is less than the minimum charge then minimum charges will be applied.

**Unit:** Select the unit that will decide the shipping charges. The Admin can either select “Kilometers” or “Miles”.

**Ship to Applicable Countries:** Here, select the countries where distance rate shipping will be applicable. The Admin can either select “All Allowed countries” or “Specific Countries”.

**Ship To Specific Countries:** Select the specific countries where this shipping will be applicable. Also, This setting will be available if the admin has selected “specific countries” on “Ship to Applicable countries”.

**Show Method If not Applicable:** If yes then the method will show at the front if even if the shipping is not applicable to that area.

**Display Error Message:** The entered error message will show when the distance rate shipping is not applicable.

## Upload CSV To Add Shipping Details – Admin

The admin can upload the CSV file which contains distance “From” to “To” and shipping rate.

To do so the admin needs to navigate through **Marketplace Management – >Marketplace Distance Rate Shipping Manager** as shown below:

Pages are invalidated: Page Cache. Please go to [Cache Management](#) and refresh cache types. System Messages: 1

After that, need to click on Add Shipping button to save the shipping information.

## Distance Rate Shipping – Seller End

The seller can also set the distance based shipping method for their products. To do so, seller have to configure first below settings:

1. Set seller location
2. Shipping configuration
3. Distance Rate Shipping
4. Shipping Setting

## Set Seller Location

Once the seller login with their panel, they have to navigate **Marketplace Dashboard** → **Set Seller Location** to set the location for shipping of their products.

The screenshot shows the LUMA Marketplace Seller Dashboard. The top navigation bar includes the LUMA logo, a search bar, and a shopping cart icon. Below the navigation bar, there are menu items: What's New, Women, Men, Gear, Training, and Sale. The main content area is titled 'Set Seller Location'. On the left, there is a sidebar menu with options: Marketplace Dashboard, Seller Profile, Create Attribute, New Products, My Products List, My Transaction List, Earnings, Manage Print PDF Header Info, **Set Seller Location** (highlighted), Shipping Configuration, Distance Rate Shipping, Shipping Setting, My Order History, Customers, and Review. The main form contains three input fields: 'Location' with the value '4984 Colonial Drive, Houston, TX', 'Latitude' with the value '28.69243', and 'Longitude' with the value '77.27959'. Below the fields are a 'SAVE' button and a '< Back' link.

**Location:** Here, the seller can enter the location of the store.

**Latitude:** The latitude of the seller's location will be automatically entered once the location is entered.

**Longitude:** Also, the longitude will be automatically set according to the entered location.

## Shipping Configuration

Next, the seller has to navigate **Marketplace Dashboard** → **Shipping Configuration** to set the shipping information.

The screenshot shows the LUMA Marketplace Dashboard. The top navigation bar includes the LUMA logo, a search bar with the text "Search entire store here...", and a shopping cart icon with a red notification badge showing "1". Below the navigation bar is a menu with items: "What's New", "Women", "Men", "Gear", "Training", and "Sale". On the left side, there is a sidebar menu with various options, including "Marketplace Dashboard", "Seller Profile", "Create Attribute", "New Products", "My Products List", "My Transaction List", "Earnings", "Manage Print PDF Header Info", "Set Seller Location", "Shipping Configuration" (highlighted with a red box), "Shipping Setting", "My Order History", "Customers", "Review", "My Account", "My Orders", and "My Downloadable Products". The main content area is titled "Shipping Configuration" and contains several input fields and a "SAVE" button. The fields are: "Maximum Area Cover:" with a text input containing "1200"; "Unit: \*" with a dropdown menu set to "Kilometer"; "Rate Per Unit: \*" with a text input containing "1"; "Item Wise Rate: \*" with a dropdown menu set to "Yes"; "Handling Charge:" with a text input containing "10"; and "Minimum Charge:" with a text input containing "1".

**Maximum Area Cover:** Here, enter the maximum area to cover for a distance rate shipping. If not set then no limit for delivery distance.

**Unit:** Select the unit that will decide the shipping charges. The seller can either select “**Kilometers**” or “**Miles**”.

**Rate Per Unit:** Enter the shipping charges applied on the basis of per unit.

For example, if rate per unit is 40 and the unit set in kilometers. When any customer orders a product within a 1-kilometer range then shipping charges will be 40.

**Item Wise Rate:** If set Yes then the shipping charges will be calculated based on per product. The shipping amount will be multiplied by the number of products ordered.

**Handling Charge:** Enter the handling charges.

**Minimum Charge:** Set the minimum charge. If shipping charges calculated is less than the minimum charge then minimum charges will be applied.

# Distance Rate Shipping

As similar to admin the seller can also add the shipping rate based on distance range by uploading the CSV file for their products.

To do so, seller has to click on Distance Rate Shipping tab under Marketplace dashboard as shown below:

The screenshot shows the 'Distance Rate Shipping' page. On the left is a sidebar menu with 'Distance Rate Shipping' highlighted in a red box. The main content area has a title 'Distance Rate Shipping' and a section 'Upload Shipping Detail' with a 'Save Shipping' button. Below this is a 'Download sample file' link and a 'CSV File:' section with a 'Choose file' button and the text 'No file chosen'. At the bottom is a 'Shipping Rate List' table.

Distance From	Distance To	Rate (\$)	
1.0000	10.0000	15.0000	 
11.0000	20.0000	15.0000	 
21.0000	30.0000	20.0000	 
31.0000	40.0000	25.0000	 
41.0000	50.0000	30.0000	 

The seller can download the sample file and edit the distance range and the shipping rate into CSV then upload it by using choose file option.

After that, the seller needs to click on the save shipping button. Once successfully uploaded, it will get display under Shipping Rate List.

## Shipping Setting

In next setting, seller needs to enter the shipping origin address, to do so, the seller has to click on Shipping setting tab under Marketplace dashboard.

Tapping on Shipping setting tab will bring the seller to Origin address page as shown below:

Marketplace Dashboard  
Seller Profile
