

# Size Chart

**Size Chart** allows admin to add size chart for products. Admin can create size chart templates and can use those templates while adding the size chart on any product. The size chart will be displayed on the web store product page. This module helps the buyer to view the size chart and hence allow customers to easily find the right size and increases the customer satisfaction.

## Note –

Size Chart only works with Simple, Virtual and Configurable products.

The product options should of “Drop-Down” type, for Simple and Configurable Products.

## Features – Size Chart

- Admin can add size chart templates.
- Two types of templates can be created – Normal & Configurable Product Template.
- Admin can add size chart image.
- Size Chart Module supports jpg, .png, .jpeg as image formats.
- Customer will see the size chart on product page.
- This module increases the customer satisfaction.
- Size Chart Module works with Simple, Virtual and Configurable product types.

## Installation & Configuration Of Size Chart Module

Customers will get a **zip folder** and they have to extract the contents of this zip folder on their system. The extracted folder has an **src** folder, inside the src folder you have the **app** folder. You need to transfer this **app** folder into the root directory on the server as shown below.

After the successful installation, you have to run the command on the root directory-“**php bin/magento setup:upgrade**”

Also, run this command into the Root- **“php bin/magento setup:static-content:deploy”** You can refer the below screenshot.

After running the commands, you have to flush the cache from the admin panel by navigating through->**System->Cache management** as shown below.

Cache Management

Flush Cache Storage **Flush Magento Cache**

✓ The Magento cache storage has been flushed.

click here flush magento cache

## Admin Management For Size Chart

After the successful installation of the **Size Chart** module, admin can go to **Stores > Configuration > Webkul Size Chart**. From here admin can select the attributes that he wants to make available while creating configurable size chart template.

**Configuration**

Store View: Default Config

**Save Config**

Click to save.

Select Attribute Code [global]

- Color
- Women Footwear
- footwear
- Manufacturer
- US Size - Women

Select the attributes that you want to make available while creating configurable template.

For creating Size Chart templates, admin has to go to **Webkul Size Chart > View Templates**. From here admin can add, edit or delete templates. Admin can create 2 types of templates. One is for Normal Products template which can be used for simple and virtual products. Another type of template is Configurable Product template which can only be used for configurable products.

**Webkul Size Chart**

View Templates

**Add Template**

- Normal Product Template
- Configurable Product Template

Admin can create templates for Normal (simple & virtual products) and Configurable products.

Admin can also delete any template.

4 records found

Id	Template Name	Attribute Code	Template code	Image	Action	Type
9	Footwear Size	footwear	footwear_size		<a href="#">Edit Template</a>	Configurable
8	size		size		<a href="#">Edit Template</a>	Normal
7	sizechart template	Color	config sizechart		<a href="#">Edit Template</a>	Configurable
6	sizechart template		templatecode		<a href="#">Edit Template</a>	Normal

Admin will see the list of all created templates.

Admin can edit templates.

## Add Normal Product Template

For normal product template, admin has to provide the template name, unique template code and template image. Admin has to enter the custom options separated by a coma (,) in the text field and then has to click on “Continue” button.

**Add New Template**

← Back **Save**

**Add normal template**

Template Name \* Cloths Size Charts - Women

Template Code \* size

Add custom Options \* S,M,L

**Continue**

Image \* Choose file Image-Gallery.png

Admin has to enter the template name and unique template code.

Admin has to enter the custom options for the size chart.

After entering custom options click on "Continue".

Admin has to upload the template image.

After clicking on Continue button, admin can add rows and can then fill the rows accordingly. Then finally after all the settings click on “Save” button for saving the template.

**Add New Template**

← Back **Save**

**Add normal template**

Template Name \* Cloths Size Charts - Women

Template Code \* size

Custom Options

Enter values in rows for custom options and create a Size Chart.

Click to back to adding custom options.

Back Add Row Click to Add Row.

option	S	M	L	
Bust	33"-34"	35"-36"	37"-38"	Delete
Waist	26"-27"	28"-29"	30"-32"	Delete
Length	55	58	60	Delete

Image \* Choose file Image-Gallery.png

Admin can delete any row.

### Add Configurable Product Template

For Configurable Product Template, admin has to provide the template name, unique template code and template image. Then admin has to select the attribute.

**Add New Template**

← Back **Save**

**Add configurable template**

Template Name \*

Template Code \*

Admin has to enter the template name and unique template code.

Select Attribute \*

- Select Option
- Color
- Women Footwear footwear
- US Size - Women

Admin has to select the Attribute for Configurable Template.

Image \* Choose file No file chosen

Admin has to upload the template image.
