## Product Form Swatches

The extension doesn't need any configuration, you just need to install it and all attributes of type swatch will be rendered with a custom drop-down that includes the swatch images, colors and text. All you need to do is fill the swatch attributes with the media data and check the product Add/Edit form.

When editing the variations of configurable products, this extension lists the Swatch Images, Colors, and Text in every step of the variations wizard, so you know exactly what you have selected in every field.

It also allows you to make sure you select the right values when editing products by showing you the attribute options data the way they will be displayed on frontend.

### Step 1 - create the Swatch Attribute:

- go to **Stores** → **Product**
- click the **Add New Attribute** button
- in the **Catalog Input Type for Store Owner** field select **Visual Swatch** option
- create the options for the **swatch attribute** and assign the images, colors and text for each one

### Step 2 - assign the attribute to the Attribute Set:

- go to **Stores** → **Attribute Set**
- select the attribute set you want to add the **swatch attribute** to
- drag and drop the **swatch attribute** to a group of attributes in the attribute set

### Step 3 - create a product with a swatch attribute:

- go to **Catalog** → **Products**
- click the **Add Product** button
- select the **Attribute Set** that you have added the **swatch attribute** to

Now you should be able to see a drop-down for the **swatch attribute** that looks something like this:

Mixed Visual Swatch  
[store view]

 **Option 4** ▲

Select option

 Option 1

 Option 2

 Option 3

 Option 4

Option 5

You will also be able to use this extension for **configurable products**. You will be able to see the swatch data on every step of the **variations creation process**.

### Step 4: Summary

#### New Product Review

Here are the products you're about to create.

20 per page 1 of 2

Images	SKU	Quantity	Color Swatch	Image Swatch	Mixed Visual Swatch	Text Swatch	Price
	configurable-product-Option 1-Option 4-Option 2-Description Option 1		Option 1	Option 4	Option 2	Description Option 1	\$ 100.00
	configurable-product-Option 1-Option 4-Option 2-Description Option 2		Option 1	Option 4	Option 2	Description Option 2	\$ 100.00
	configurable-product-Option 1-Option 4-Option 5-Description Option 1		Option 1	Option 4	Option 5	Description Option 1	\$ 100.00

#### Configurations

Configurable products allow customers to choose options (Ex: shirt color). You need to create a simple product for each configuration (Ex: a product for each color).
