

# Wisepops for Magento 2 - Installation Guide

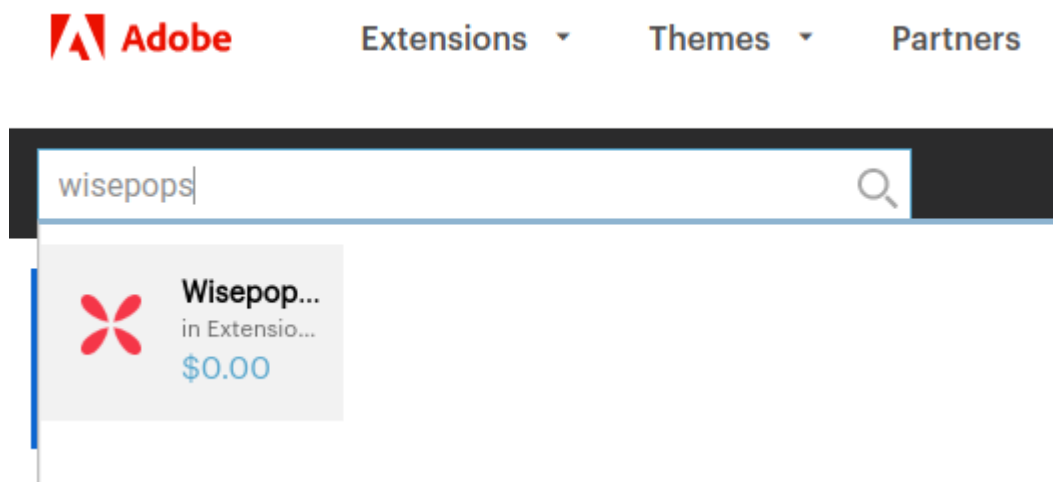

Follow these steps to set up Wisepops on your Magento 2 store.

## Step 1:

Open our listing on the [Magento Marketplace](#).

## Step 2:

Search for "Wisepops" and select the M2 extension.

## Step 3:

Select your version and click add to cart.

**Edition**

**Your store version**

2.1 (Community Edition) ▼

**TOTAL: \$0.00**

**Add to Cart**

Add to Cart

**Compatible With:**

Community 2.0, 2.1

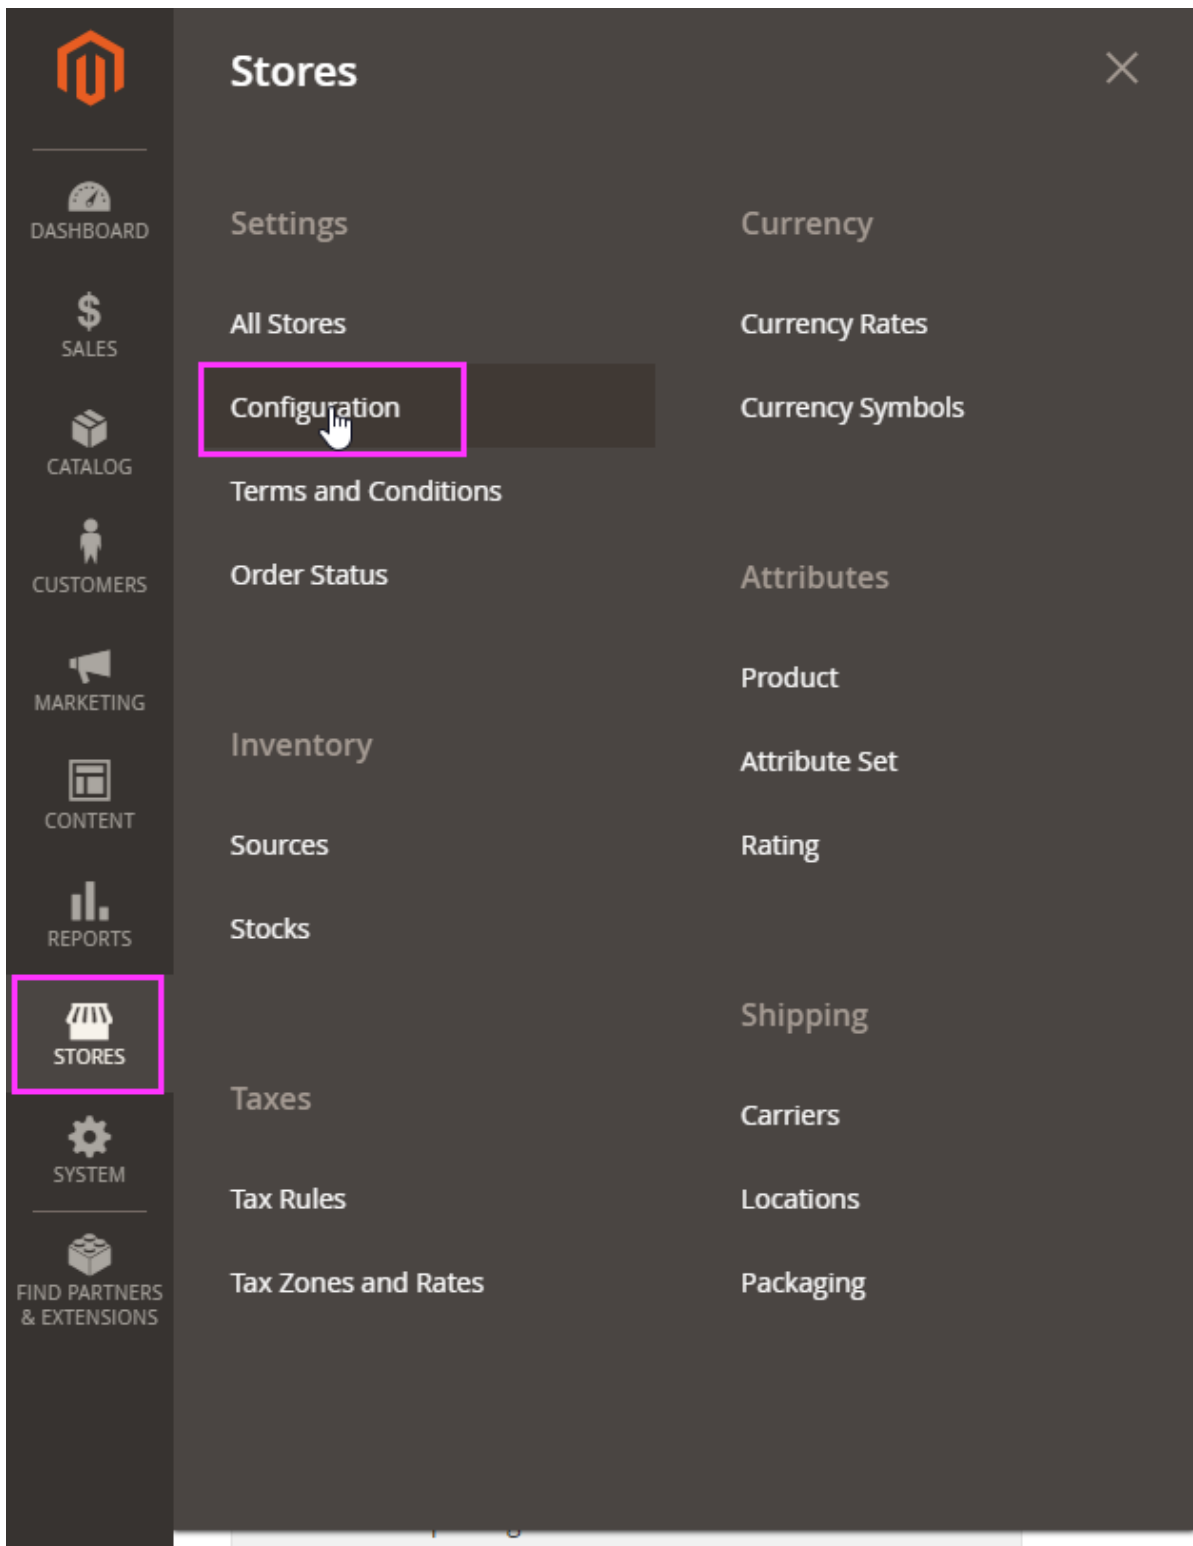

Confirm the order.

**Step 4:**

Once you have confirmed the order, you can install the WisePops extension through the Web Setup Wizard on the Admin of your Magento store. For more information on how to install extensions, please refer to the [Magento User Guide](#).

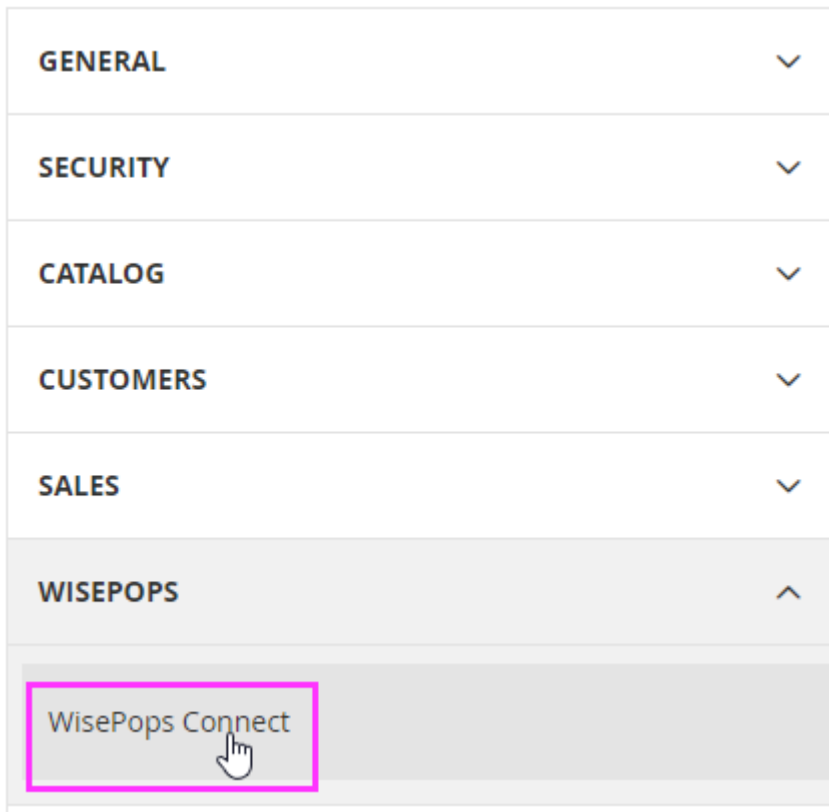

**Step 5:**

Once the extension is set up, open the Admin sidebar, click "Stores", then under "Settings", select "Configuration".

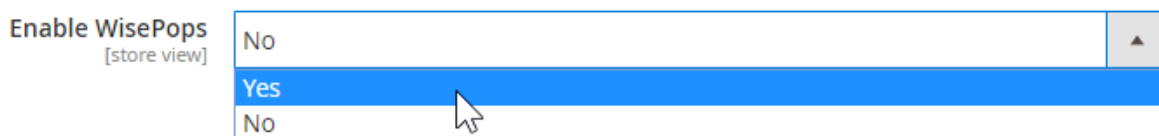

**Step 6:**

In the left menu, select "Wisepops" and click "Wisepops Connect."

**Step 7:**

Enable the extension.

**Step 8:**

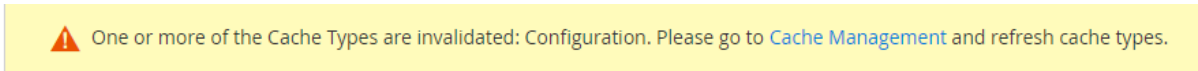

Input your website hash (if you don't know it, you can click on the link below the input).

**Step 9:**

In the upper right corner, click "Save Config."

If you see a warning about your cache, click the “Cache Management” link.

Select each row where the Status shows “Invalidated” by clicking on the boxes in the first column. Select “Refresh” from the drop-down menu above the table, and press “Submit” to refresh all the selected caches.
