

Wowcher plugin for M2

User Guide

Version 1.0.2
June 2022

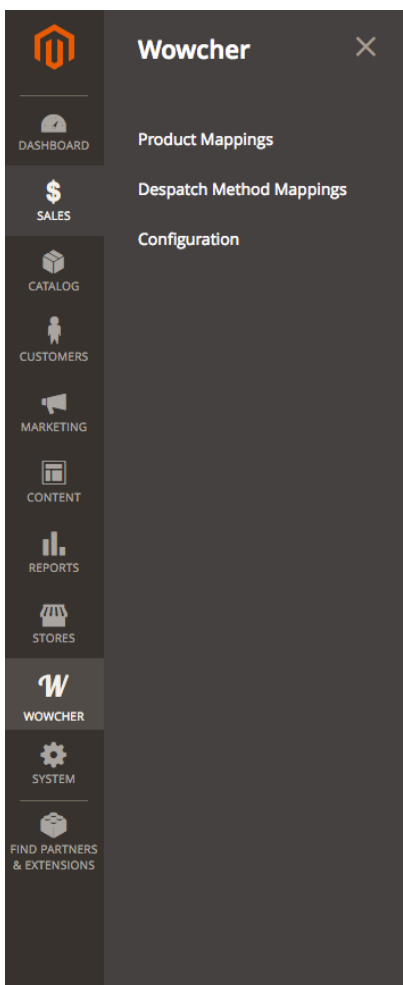

Introduction

The Wowcher & Living Social extension for Magento 2 allows you to receive orders from Wowcher and Living Social directly into your Magento store for onward processing. The extension has been designed to make linking your Magento store with us as easy as possible, while allowing you to configure options specifically to your store and order process.

This guide takes you through the features of the extension and should give you all the information you need to get started to receive your orders. If however you need any further help or support, please contact nms@wowcher.co.uk.

Installing the Extension

To install the extension simply search for the **Wowcher & Living Social** extension on the Magento Marketplace and install the extension according to your Magento installation, either through the automated process or manually. If you are unable to do this yourself, your web developer should be able to do this quickly for you.

Once the extension is installed you will notice a new **Wowcher** option in the side menu. This is where you link your Magento store to Wowcher / Living Social and configure product and despatch method mappings.

Please note the Wowcher extension relies on your Magento installation having a correctly configured “cron” or scheduled task running on your server in order to exchange data at regular intervals.

Configuring the Extension

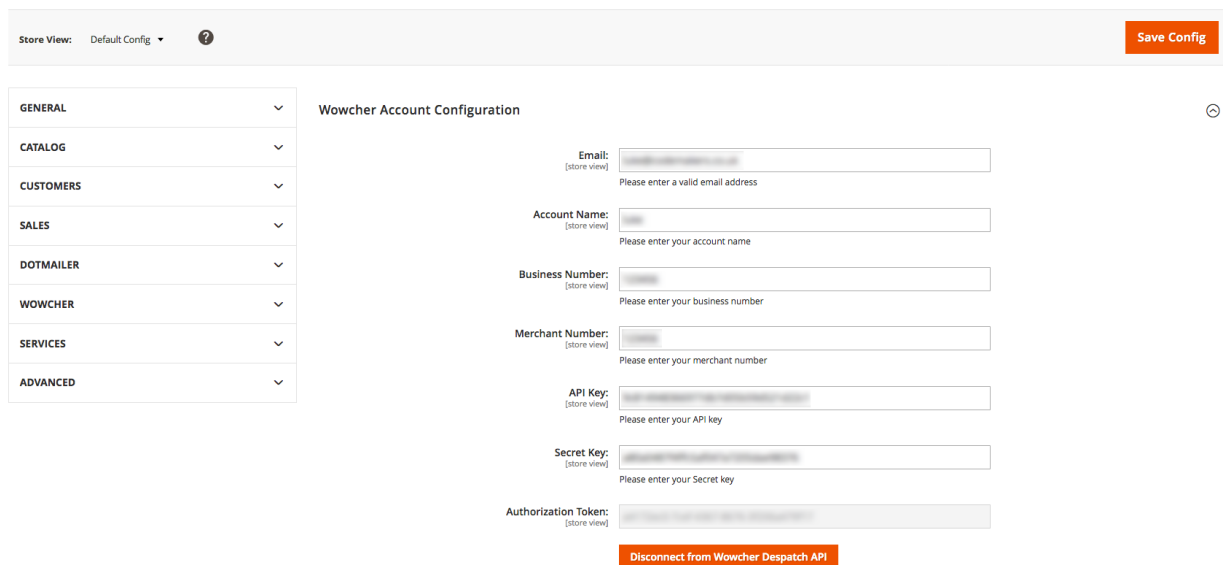

Connecting to Wowcher / Living Social

In order to connect your Magento store to Wowcher / Living Social, you will first need access to the Wowcher / Living Social Despatch API. You can ask your account manager for an account or email nms@wowcher.co.uk for further support.

The details you will need to connect your store are:

- Your Wowcher Business Number
- Your Wowcher Merchant Number
- Your Wowcher Despatch API Key
- Your Wowcher Despatch Secret Key

Once you have the above details, navigate to the **Wowcher > Configuration** option from the main menu. Enter the email address and name you wish to use for your integration, followed by the Business Number, Merchant Number, API Key and Secret Key.

The screenshot shows the 'Wowcher Account Configuration' form. On the left is a sidebar menu with categories: GENERAL, CATALOG, CUSTOMERS, SALES, DOTMAILER, WOWCHER, SERVICES, and ADVANCED. The main area contains the following fields:

- Email:** [store view] Please enter a valid email address
- Account Name:** [store view] Please enter your account name
- Business Number:** [store view] Please enter your business number
- Merchant Number:** [store view] Please enter your merchant number
- API Key:** [store view] Please enter your API key
- Secret Key:** [store view] Please enter your Secret key
- Authorization Token:** [store view]

At the top right of the form area is a 'Save Config' button. At the bottom of the form area is a 'Disconnect from Wowcher Despatch API' button.

Once you have entered all the details, click the orange **Connect to Wowcher Despatch API** button. This will connect to the Wowcher Despatch API, verify your details and establish a link to your Magento store. If all of the details matched correctly you will see the Authorization Token has been populated. If there was a problem you will be notified - check the details and try again. If the issue persists, please contact your account manager who will be happy to assist you.

To complete the integration simply click the **Save Config** button in the top-right corner of the screen.

Linking Products

In order for Magento to map products from Wowcher / Living Social with products on your Magento store, you will need to configure your **Product Mappings**. To do this simply navigate to **Wowcher > Product Mappings** in the main menu.

From the Product Mappings page you can see a list of products held on Wowcher / Living Social with the option to map them to any product listed on your Magento store. Simply select the product from your store you wish to map for each product then click the **Save Changes** button to save your selections.

18000-90000	Red T-shirt - Large	£18.00	90000	

Linking Despatch Methods

In order for Magento to map despatch methods from Wowcher / Living Social with delivery services on your Magento store, you will need to configure your **Despatch Method Mappings**. To do this simply navigate to **Wowcher > Despatch Method Mappings** in the main menu.

From the Despatch Method Mappings page you can see a list of despatch methods held on Wowcher / Living Social with the option to map them to any despatch method on your Magento store. Simply select the despatch method from your store you wish to map for each delivery service then click the **Save Changes** button to save your selections.

Your account manager at Wowcher / Living Social will explain the delivery service codes and the type of service they should be mapped to.

Despatch Method Mappings		Save Changes
Despatch Method ID	Mapped To	
188	Fixed	

Processing Orders

Receiving Orders

Orders will be synchronised once an hour with the Wowcher Despatch API. All orders with correctly mapped product SKUs will be created as Pending orders within Magento.

If the products are not mapped, or there was another problem connecting to your store or storing the orders, the Wowcher Despatch API will continue to attempt sending the orders once per hour until they are correctly mapped.

Processing Orders

Simply process your orders as you would do with any other inside Magento. Once the order is marked as despatched, the Wowcher / Living Social extension will automatically update Wowcher with a despatch notification.
