

Repeat Customer Notifications Extension For Magento 2 By Xpeed Infotech

How to configure extension:

Once the extension is installed, proceed to Magento 2 backend to finalize the Repeat Customer Notifications setup.

To set the configuration options go to **Repeat Customer Notifications > Configuration**.

General

Enable Notification?	<input type="text" value="Yes"/>	[STORE VIEW]
Send Email From	<input type="text" value="General Contact"/>	[STORE VIEW]
Administrator email	<input type="text" value="johndoe@gmail.com"/>	[STORE VIEW]
Minimum Order Limit	<input type="text" value="1"/> <small>Set minimum order numbers to send notification email to admin</small>	[STORE VIEW]
Administrator email subject	<input type="text" value="Repeat Customer Notification"/>	[STORE VIEW]
Email Template	<input type="text" value="Admin Repeat Customer Notification (Default)"/> <small>Email template chosen based on theme fallback when "Default" option is selected.</small>	[STORE VIEW]

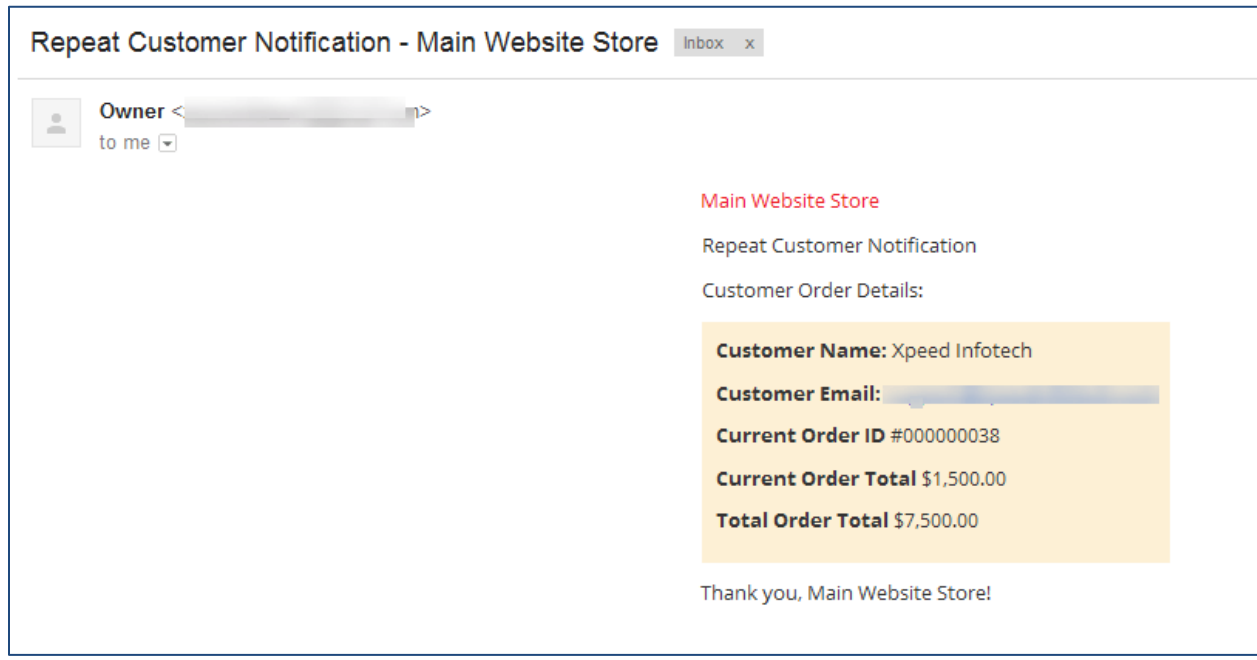

General Settings:

These are the settings that affect repeat customer notifications accessibility, control layout and other functional aspects.

- **Enable Notification?:** Enable or Disable email notification functionality
- **Send Email From:** Select notification email sent from
- **Administrator email:** Set admin email to receive notifications (Set multiple email separated by semicolon (;))
- **Minimum Order Limit:** Set minimum order numbers to send notification email to admin
- **Administrator email subject:** Set administrator email subject
- **Email Template:** Email template chosen based on theme fallback when "Default" option is selected.

Now the general options for repeat customer notifications are configured.
