

Show **Cart Discounts**

Convert users that are sale conscious

Magento 2 Extension Manual

by Xumulus.com
support@xumulus.com

Overview

Convert more browsers to customers by showing them how much they are saving.

The default magento configuration shows discounts as saving on the product grid and product pages. But once they are added to the cart, the users no longer can see the cart discounts.

This extension fixes that, now the product discounts are shown on the cart as well as in the checkout. Additionally the subtotal of the cart now shows the total “Savings” to the users.

Convert more browsers to customers by showing them how much they are saving.

Features

- Works with both Magneto’s “Special Price” price feature as well as “Catalog Price Rules”
 - Once those are configured, it will show the savings on:
 - a. In the mini cart
 - b. On the main cart
 - c. On the checkout summary
 - Additional savings called out as “Retail Price” and “Savings” on the cart summary.
 - Customizable language for all cart phrases. So “Retail Price” can be changed to “List Price”
-

Installation

Magento Marketplace Installations

Please refer to Magento's online [instructions](#).

Configuration and Use

Setting up the products

Create either a:

1. Catalog Price Rule

Please refer to Magento's documentation.

http://docs.magento.com/m2/ce/user_guide/marketing/price-rules-catalog.html

2. Special Price

Please refer to Magento's advanced pricing.

http://docs.magento.com/m2/ce/user_guide/catalog/settings-advanced-advanced-pricing.html

Once either of the above result in a product showing a regular price and a sale price in the front end. Then the extension will take over the rest. Now adding those products to the cart will show the discounts in the cart and on the checkout pages.

Cart Discount Text Configuration

Within your Cart, there are two main texts. One text is the “Regular Price Text” and the other is the “Saving Text”

General Settings

Version 1.0.3
[store view]

Regular Price Text On Cart/Checkout
[store view]
Enter the Regular Price Title.

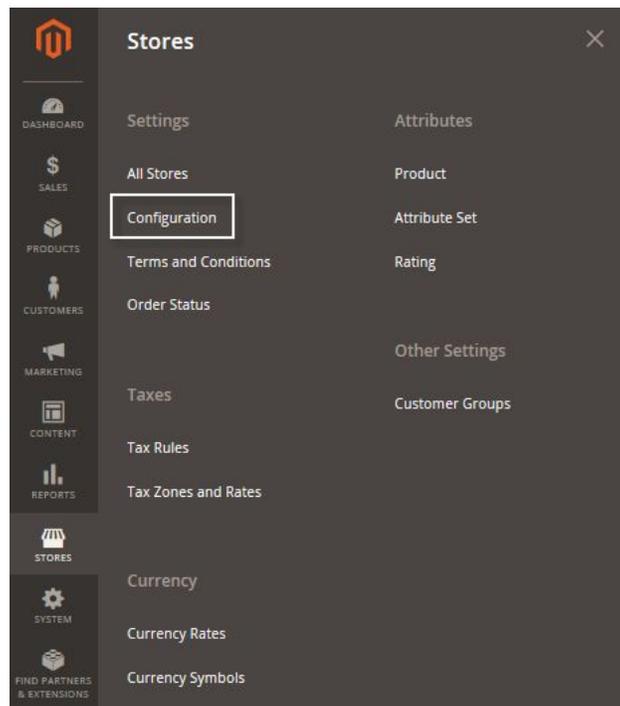

Savings Text On Cart/Checkout
[store view]
Enter the Savings Title

Summary	
Estimate Shipping and Tax ▼	
Original Price	\$66.00
You Saved	\$13.00
Subtotal	\$53.00
Tax	\$0.00
Order Total	\$53.00

You are given the option to customize the text shown in these two locations.

In order to customize this text, select the **STORES**  tab on the sidebar menu.

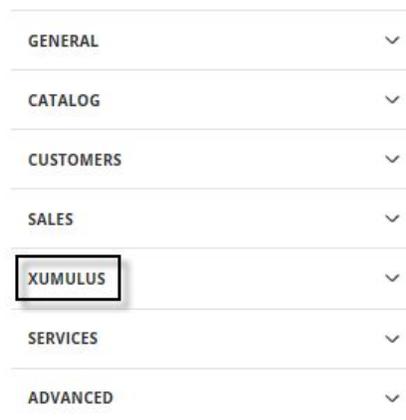

Then select **Configuration**, located in the **Settings** section.

You will then arrive at the **Configuration** Page

A menu will be on the left portion of the Configuration page.

Select the **Xumulus** drop down.

Then, select **Cart Discount**

The General Settings page will appear where the version (1.0.0) is stated, along with the options to enter custom text for the **List Price Title** and **Savings Title**.

General Settings

Version 1.0.0
[global]

List Price Title Regular Price
[store view]
Enter the List Price Title.

Savings Title Savings
[store view]
Enter the Savings Title

Once desired changes have been made, in order to complete this action select the Save Config button located near the top right of the page.

Flush the magento cache.

The custom text will now appear in the specified areas.
