

Facebook Store Extension

For Magento 2

User Guide

How to get facebook App ID and Secret ?

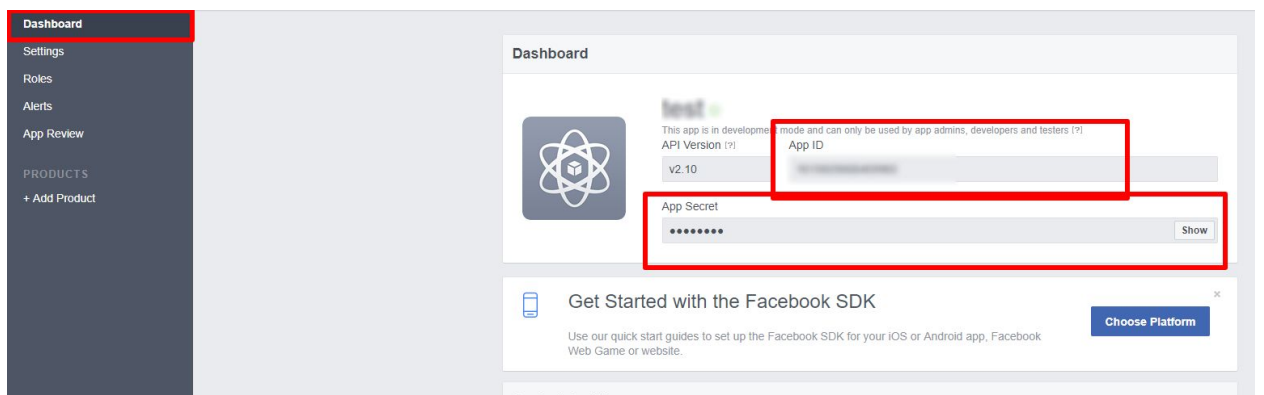

1. First Install the extension via Magento connect or uploading all files from root directory to your server.
2. Logging to your admin account go to [Main Menu > Stores > Configuration > Zestard Technologies > Click on Facebook Store](#)
3. In the Facebook Connection Setting Group first enable the extension
4. You need to add Facebook **App ID** and Facebook **App Secret**
5. You get the both things from Developer Facebook Page
6. <https://developers.facebook.com/apps> open this link, logged in to your facebook account.
7. After logged in to your account click on button **Add a New App**

8. Fill the details on the form

The screenshot shows the "Create a New App ID" form. The title "Create a New App ID" is at the top, followed by the subtitle "Get started integrating Facebook into your app or website". There are two input fields: "Display Name" with the placeholder text "The name you want to associate with this App ID", and "Contact Email" with the placeholder text "Used for important communication about your app". At the bottom, there is a line of text: "By proceeding, you agree to the Facebook Platform Policies". To the right of this text are two buttons: "Cancel" and "Create App ID".

9. After Filling the form your app was created just Click on Dashboard at top left side. You get the Facebook **App ID** and **App Secret**

10. Just copy the Facebook **App ID** and **App Secret** and paste to the **Facebook Connection Settings Fields**.

Create a Page

Give your brand, business or cause a voice on Facebook and connect with the people who matter to you. It's free to set up. Just choose a Page type to get started.

| | | |
|--|---|---|
|  Local business or place |  Company, Organisation or Institution |  Brand or product |
|  Artist, Band or Public Figure |  Entertainment |  Cause or Community |

Create a Page

Give your brand, business or cause a voice on Facebook and connect with the people who matter to you. It's free to set up. Just choose a Page type to get started.

| | | |
|---|---|---|
| <p>Local business or place</p> <p>Page name, for example, "Pat's Café" </p> <p>Page category, for example, "Coffee shop"</p> <p>Street address</p> <p>City/County</p> <p>Postcode</p> <p>Phone</p> <p>By clicking Get Started, you agree to the Facebook Pages Terms.</p> <p>Get Started</p> |  Company, Organisation or Institution |  Brand or product |
|---|---|---|

10. Now your page has been created successfully
11. Now open your root directory and just follow the path “**app/etc/env.php**” open env.php file.
12. Then just find the below code.

```
'x-frame-options' => 'SAMEORIGIN'
```

And replace with below code

```
'x-frame-options' => 'ALLOW-FROM https://www.facebook.com/'
```

after replace the code just save file.

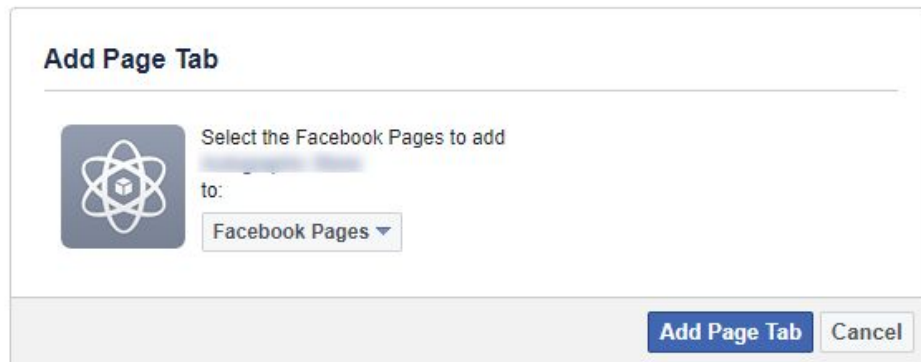

Note: if you face any issue regarding file so please contact on below Email Id: **support@zestard.com**.

13. Now logging to your Magento Admin panel
[System > Tools > Cache management > Click on Flush Magento Cache button](#)
14. To configure your tab with your page,
Please do the below changes in the **URL** and **RUN** that **URL** in new browser tab

```
https://www.facebook.com/dialog/pagetab?app\_id=YourAppID&redirect\_uri=http://YourDomain.com/index.php/facebookstore/index/index
```

15. From above URL change the **YouAppID** to your App ID and change the **YourDomain.com** to your site Domain
16. Kindly run this URL in your address bar.

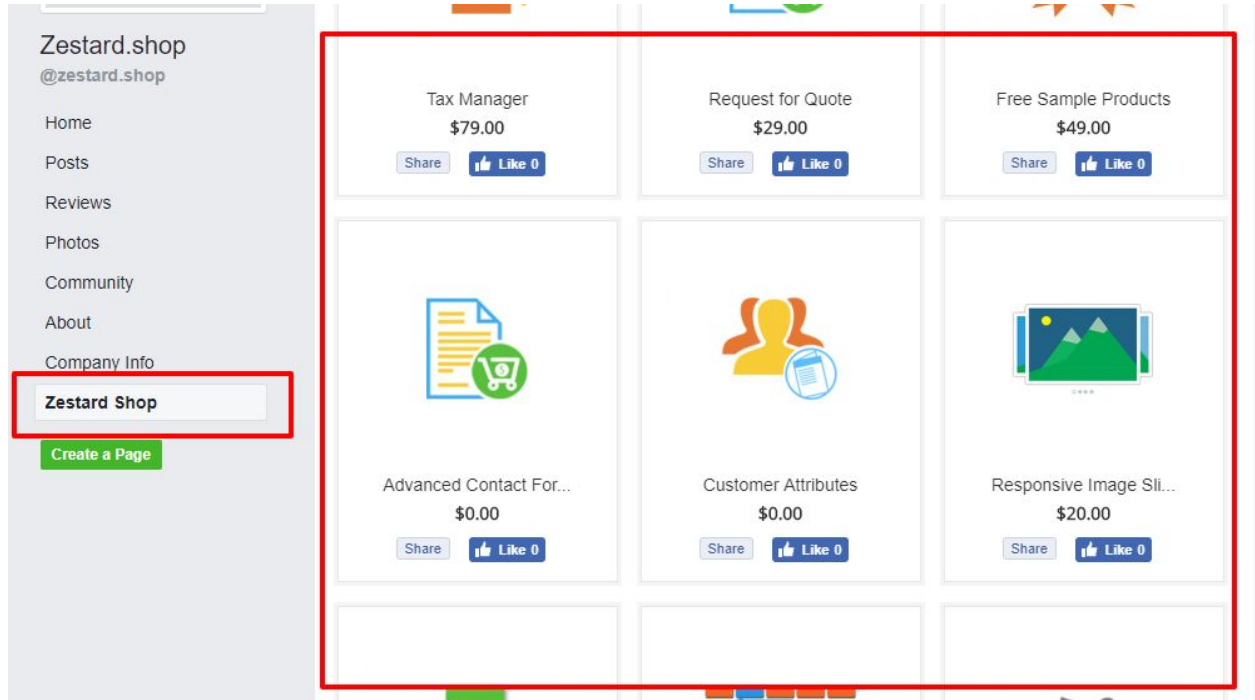

17. Now your Tab configuration window will open see below screen.

18. Now click the "**choose Facebook Pages**" from dropdown and select the page where you want to display the tab.

19. You will be redirected to your **Facebook page**, there you will be able to see the tab created by you.

20. Click on the tab, to see the products on the facebook tab.
