Magento Marketplace

The official Magento Commerce extension store

Magento Marketplace is the #1 source for trusted applications and services that expand the power of Magento solutions with powerful features and functionality. Global retailers can do even more with their digital stores.

A trusted global resource

Easy Discovery

Magento Marketplace is designed for easy discovery of relevant Magento Commerce extensions. It provides a curated user experience with offerings from top brands and new innovators. Discover new and customized functionality in key business categories, to help your business thrive.

High Quality

Customers can trust that all extensions and providers with offerings in Magento Marketplace have been rigorously tested to meet Magento standards and best practices. All extensions are also required to pass a manual code and documentation review for an even higher level of quality assurance.

Features & customization

Magento Marketplace offers services to help retailers stay on top of new innovations.

Customized Services

Select from a broad range of service integrations and extension or theme products to turn your Magento Commerce store into a robust selling machine. Many offerings include support service and/or help with installation as an add-on.

Be sure to purchase products directly from the Magento Marketplace to ensure you are getting verified and quality products backed by Magento support.

A Global Ecosystem

Along with a growing offering of products and services, the Global Magento Community of over 255,000 members actively contributes to Magento Forums and provides the fuel for new eCommerce innovations.

Help your store do even more

Choose from over a thousand popular extensions available today for Magento Commerce.
